

THREE CITY CHARTER PLANS WILL BE SUBMITTED TO CITIZENS OF ATLANTA FOR APPROVAL MAY 16

Board of Education in Warm Clash With City Council

DECISION REACHED AFTER HOT FIGHT IN CITY COUNCIL

ARCHITECT FEES SLICED BY ACTION OF CITY COUNCIL

Commissioner W. L. McCally Declares Education Board Will Stand Pat and Refuse Revision.

SCHOOL PRIORITY LIST CHANGED IN MEETING

Councilmen Vote for Buildings Not Authorized in Report Recently Made by Survey Board.

Coming to the board of education and bond commission as a complete surprise, city council Monday afternoon rescinded previous action and voted to reduce the architectural fee allowance for erection of the bond issue schools from 6 per cent to 5 per cent.

This action immediately precipitated an open rupture between council and the board of education. School Commissioner W. L. McCally, chairman of the finance committee of the board, and a spectator at the meeting, declared that "we won't move another peg. We won't go another inch on the building program until council reconsiders its action."

Superintendent of Schools W. A. Sutton asserted that he had never been so disheartened before in his life. "It will take 100 years to erect a school building at that rate," he said.

Resolutions Defeated. In addition to cutting the fees for architectural service, council defeated a resolution to turn over to the board of education by appropriation the school department's allotment of bond money; and referred back to the board a resolution asking adoption of a priority list of new school buildings and annexes recommended, and passed resolutions instructing the board to include for immediate construction work which the board had not included in its priority list.

One of these was a resolution by Alderman L. N. Ragdale, calling for a new building to replace the present wooden structure at the Stewart Avenue school. Another was by Alderman Oscar Williamson demanding an annex at Moreland Avenue school, and Councilman Claude Ashley and Councilman J. R. Nutting were authors of a resolution asking that a new school be built on the site of the present Calhoun school to replace Calhoun and Ivy Street schools.

Oppose 6 Per Cent Fee. Councilman Nutting led the fight opposing the 6 per cent architect fee. Council voted 17 to 10 in favor of his resolution.

The councilman opened his attack when Councilman J. C. Murphy, ex-officio member of the education board, sought approval of the board's and the bond commission's action in retaining Dr. N. L. Engelhardt and Dr. G. D. Strayer, directors of the recent school survey, to become educational consultants in the erection of the bond issue schools.

Their fee was to be one-half of 1 per cent on all cost of construction deducted from the 5 per cent proposed to be paid to architects. One per cent on the total cost.

Students Urged to Begin Work on Highway Essays

Constitution Bureau Raleigh Hotel. Washington, April 3.—(By Special Leased Wire.)—With the scholarship contest offered by The Constitution for the best essay on "How Good Roads are Developed in My Community," just about a month off, officials of the national highway and highway transportation education committee, sponsors for the scholarship, have urged high school students of Georgia to begin work on their articles at an early date in order that all manuscripts may be submitted by the 1st of May, on which day the time limit expires.

According to the regulations governing the contest, every boy and girl in the state of Georgia who is a student of some recognized high school, both public and private, is entitled to submit an essay on the subject named. The length of this article should not

Permanent Wave, Dollar Hair-Cut Proper for Men

New Spring Regulations on Male Haircuts Adornments Given Out.

BY WESTBROOK PEGLER, United News Staff Correspondent. New York, April 3.—On and after Easter when the new spring styles become operative, it will be improper if not downright indecent for any gentleman calling himself a gentleman to be seen without his permanent wave and his dollar hair-cut.

In case one has not heard, it will be only simple justice here to announce that the spring regulations issued from the first annual barbers' exposition, now holding in New York, prescribe a "part" in the geometrical middle, running fore and aft, from the forehead hairline to the occipital protuberance, following the general course of the interorbital fissure and squarely bisecting the fissure of Rolando.

But you just furnish the dollar and the barber supplies the geometry.

Future Possibilities. Next season, perhaps, this thin white line which more than anything else signifies the civilization of man, may run from port to starboard, across the top of the head, ending with fish-hook curls about the ears.

The next ensuing season may bring an edict from the barbers, requiring that the hair be parted on a course running south-southwest, half south. The barbers, lately obsessed with an ambition amounting to a dangerous passion for culture, have determined to sing high tenor among the voices which dictate what the fashionable gentleman shall look like. Like everyone else who becomes dissatisfied with doing his own job well, the barbers want to play Hamlet. They wish to be considered members of a learned profession, for after all, don't they go to barber college? And they think it would be very nice indeed if people would come to regard them as surgeons are now regarded. They deem their office in the glorification of the gorgeous male to be just as important as that of the tailor, the hatter or the walking-stick monger.

Cut Out Humor. Hence, the permanent wave for gentlemen; hence the seasonal meanderings of the "part" in the mere man's growing nuisance; hence the dollar hair-cut and certain sinister references to \$3 as the ideal fee for a barber's attentions, this being the doctor's standard price per visit.

Mr. Joseph Byrne, "the man you go to see" to get information about the barbers' exposition, decries certain standard American jests relating to this sensitive guild, especially the grotesque exaggeration of the barber's amiable loquacity. Why, if the barber stopped talking, Mr. Byrne submits, the period spent in his chair would be just a few minutes this side of infinity. Yet, if the public insists, the barbers will forbear to approve or disapprove the weather or to speculate upon the standing of the clubs. Now that they have imminent expectations of getting a dollar for a hair-cut, they might even be willing to share or hair-cut without trying to interest the patient in the stock and fixtures.

TWO AVIATORS DIE AS PLANES FALL IN TEXAS

Houston, Texas, April 3.—Two airplanes from Ellington field crashed near South Houston this morning and came down in flames. Both pilots were killed. Major John W. Simons, of Charleston, S. C., pilot of one plane, was burned to death, and Lieutenant G. H. Fitzpatrick, of Sacramento, Cal., pilot of the other, died a few minutes after the accident.

Their fee was to be one-half of 1 per cent on all cost of construction deducted from the 5 per cent proposed to be paid to architects. One per cent on the total cost.

ATLANTA BEGINS WAR ON DISEASE, TRASH AND GRIME

Every Citizen Is Enlisted in Fight to Make City One of Cleanest in the United States.

PAINT DEALERS MAKE ENCOURAGING REPORT

Lair of Enemy Invaded in Every Part of Atlanta. Brooms and Mops Now Signs of Honor.

War was declared in Atlanta Monday morning on dirt, dust, trash and grime.

The first gun was fired at the enemy shortly after the sun peeped over the eastern horizon, many of the 250,000 Atlantans enlisted in the cause, responding to reveille armed with brooms, rakes, mops and wheelbarrows. The haunts of the enemy were invaded and before daylight of the first day's campaign more than 500 truck loads of rubbish were hauled to the dumping grounds by the city sanitary department.

There were no discriminations made in seeking the lair of the enemy. Backyards, front yards, alleys and cross streets, every conceivable nook and corner where rubbish has accumulated during the winter months were visited by the crusaders, or will be visited before the 1922 campaign of city-wide clean-up and paint-up drive is ended.

"Short Call" Trucks. The day was fraught with telephone calls to the city sanitary department where two "short call" trucks with two men each have been stationed by Chief John Jensen, of the sanitary department, specifically for the purpose of answering such calls, and hauling trash away from the front doors of residences and business houses.

Chief Jensen has promised to keep the trucks engaged in this work during the three weeks of the campaign. Paint dealers Monday reported that business is flourishing. Sales in paint and all other kindred appliances reached an unusual proportion during the day indicating that in addition to the onslaught on dirt the campaign on its first day is also being directed against houses, fences, barns and buildings in need of renovation.

To stimulate competition in the vaunted clean-up, Chief Jensen has promised to keep the trucks engaged in this work during the three weeks of the campaign. WANTS U. S. BANK OF FARM CREDITS

Bill in Senate Would Form Federal Body to Extend Long-Time Credits to Farmers.

Washington, April 3.—Creation of a federal institution similar to the federal reserve bank system to provide long-term credits for farmers was proposed in a bill introduced today by Senator Simmons, democrat, North Carolina, former chairman of the senate finance committee, which was later referred to that committee. The bill would set up an agricultural banking system with regional districts and other attributes of the federal banking system.

Establishment of a "national agricultural credits corporation" to absorb the War Finance Corporation, with \$500,000,000 capital for a revolving fund, all to be subscribed by the government, was proposed under the bill. Loans would run from one to three years. The governing body would be a board of five members, headed by the secretary of agriculture, appointed by the president and confirmed by the senate.

Senators Simmons told the senate his bill would give farming interests the same credit facilities that commercial interests receive from the federal reserve system. Mr. Simmons said his plan was a "sound, workable and well-balanced system of financing the agricultural operations of the country." It would provide for farmers "banking and credit facilities comparable if not equal to the federal reserve system," he said.

CHARLES COCHRAN WILL GO ON TRIAL FOR LIFE TODAY

Fairburn, Ga., April 3.—(Special.) Charles L. Cochran, who was a republican applicant for the postmastership here, will go on trial here Tuesday morning at a special session of Campbell county superior court on felony and capital indictments.

The indictments resulted from charges made by two girls, who declared Cochran had attacked them. Judge John B. Hutcheson will preside. Solicitor Alonzo M. Brand will prosecute the case, while J. Wilson Parker, Arthur Allen and L. S. Camp will appear for the defendant.

Cochran has denied the charges, asserting that they were falsely concocted to keep him from being appointed postmaster.

CONDITION BETTER, REPORT ENGINEERS AT WORK ON LEVEE

While Seventy-Five Feet More Has Collapsed in Arkansas, Danger Is Lessened.

FIVE HUNDRED MEN WORK NIGHT AND DAY

Chief Danger Now Lies in Current of Swollen Mississippi Undermining Ramparts.

BY THE ASSOCIATED PRESS.

Helena, Ark., April 3.—Reports from levee engineers in charge of repair work at Old Town, seventeen miles below this city, where addition sloughing of the front levee along a strip of 75 feet long above the former levee, during last night caused renewed apprehension today, say that the condition there is improved. There had been no further caving, it was reported, and the strengthening of the sub-levees and barricade back of the front levee had gone forward without interruption.

More than 500 men are on the ground and reinforcement work on the levee will continue through the night, a large number of workers who were sent home last night having been recalled today when trouble again developed.

The danger now, levee engineers here say, is that the nine-mile current sweeping into the shore at Old Town from the Mississippi side will undermine the foundations of the sub-levees, allowing them to subside into the river as the water recedes after the crest of the flood has passed. To avoid this danger, embankments are being erected on level ground back of the barricade of timber and sand bags which is expected to be the last line of defense in the event of further saving, and which the engineers in charge of the work say is now strong enough to hold back the floodwater if the sub-levee back of the front should cave into the river.

New Channel Reported.

Reports tonight which could not be confirmed, were that the river is cutting a new channel outside the front levee at Old Town and that the swift current had already cut a channel twenty feet deep outside the point where the worst caving had taken place.

The new slough, which took place upstream from the point where trouble occurred last week. It does not extend beyond the triple line of barriers which today were lengthened and strengthened. Water is now slowly trickling through the first barrier of sandbags erected on the banquettes of the levee, but this is causing no uneasiness, as it is stopped by the second barrier.

The third barrier is constructed of two-inch oak planks, buttressed on both sides by tiers of sand bags, and is designed, the engineers say, to stand almost any pressure of water which may be thrown against it if there is no undermining of its foundations. This barricade is now three feet above the level of the river and will be raised higher tomorrow. The crest of the flood is expected here tomorrow, but only a slight further rise is looked for. The rise here today was unexpected as the river here was almost on a standstill last night. At present the river level is about

DIXIE RAIL BOARDS PLAN DELEGATION AT RATE MEETING

Representation From the Southeast Will Be Present at Investigation of Class Rates Here.

DECISION REACHED BY UNANIMOUS VOTE

Atlanta Hearing, Conducted by Interstate Commerce Commission, to Last Five Weeks.

Plans were formed in Atlanta Monday by representatives of ten railroad commissions in ten southeastern states to provide representation at the general investigation into class rates which is to be held in Atlanta May 22 by the interstate commerce commission with a view to eliminate discriminations, according to an announcement made by James A. Perry, member of the Georgia railroad commission, who presided at a meeting of representatives of the commissions held at the Piedmont hotel.

The meeting was called to determine the question of whether or not the ten commissions would provide representation at the interstate commerce commission's hearing. It was decided, by unanimous vote, to provide such representation, and on the invitation of the interstate commerce commission a committee of five representatives of the southeastern railroad commissions will sit with the interstate body at the hearing. Mr. Perry was selected as one of the five to sit with the interstate commerce commission and he will name the other four members of the committee soon.

Will Submit Evidence.

At the hearing in Atlanta the railroads of the southeastern states will submit their evidence covering the investigation of rates. "The Atlanta hearing will last for four or five weeks and will be held in the United States court room in the federal building. Members of the I. C. C. will come to Atlanta to conduct the hearing. The evidence of shippers will be submitted to the commission at sessions to be held at Asheville, N. C., Chicago and New York.

The ten state commissions of the southeastern states will send representatives to attend the hearing in addition to the five members of the committee who will sit with the commission. Mr. Perry, who will select the committee, will be the first Georgia commissioner to sit with the interstate commerce commission at a hearing.

At the meeting Monday the following representatives of commissions were present: Georgia, James A. Perry, John T. Boileau, commissioners, and E. M. Price, rate expert; Florida, Chairman Burr and Rate

COUNCIL ACCEPTS STEINER BEQUEST

Great Hospital Building for Treatment of Cancer Cases Now Assured for Atlanta.

City council Monday approved the contract made by the hospital and charities committee of council with the executors of the Albert Steiner estate for the acceptance of the \$500,000 bequest made by Albert Steiner to the city of Atlanta for the erection of a great clinic at Grady hospital.

Under the terms of the will approximately \$100,000 will be expended for the erection of a clinic building, and \$100,000 will be used in purchasing equipment. The remainder of the sum will be invested, and its earnings will be devoted to defraying part of the maintenance expenses of the clinic.

The clinic will be named for its donor, and will make a specialty of treating cancer. The executors of the estate have reserved the privilege of nominating the members of the medical staff of the clinic.

Judge Instructs Jury By Approving Slaying Charged to Defendant

Memphis, Tenn., April 3.—Without leaving the courtroom a jury in criminal court here acquitted Bessie Lee Sisk, of the charge of slaying her lover, Herbert Bingham, several months ago. "That man got what was coming to him," Judge Thomas V. Harsh remarked as he submitted the case to the jury. "Possibly he didn't get it in the right way, but he got it." Attorneys for the state made no objection to a verdict of acquittal.

BOTH SIDES AGREE STRIKE OF MINERS ALMOST PERFECT

While Operators Say Many Non-Union Men Have Returned, No Break Is Seen.

TWO MEN INJURED IN INDIANA FIELDS

President John L. Lewis Tells House Committee Men Will Stay Out Indefinitely.

BY THE ASSOCIATED PRESS. Both operators and miners stand firm in the country-wide strike which has closed more than 6,000 mines, leaving only 500,000 men idle. Operators claim many non-union miners who were idle Saturday in observance of the anniversary of the eight-hour day have returned to work.

Both sides agree, however, that the strike is practically 100 per cent perfect in the great central competitive field in Illinois, Indiana, Ohio and western Pennsylvania.

Operators assert that many pits are in operation in West Virginia, Virginia, Kentucky, Tennessee and Alabama. Kansas operators yesterday agreed to return to the wage scale of May, 1917, providing for a \$3.00 day instead of the \$7.50 mined in the present agreement.

Union leaders claim victory for striking anthracite miners through the offer of several independent companies to grant the miners' wage demands if the men would return to work immediately.

President John L. Lewis, of the miners, told the house labor committee yesterday that miners were prepared to "stay out indefinitely if need be, until the operators sign up a basic wage contract for the central competitive field."

TWO INJURED IN DISORDERS

Terre Haute, Ind., April 3.—Two men were injured, one probably fatally, in disorders in the Clinton mining fields, according to reports reaching here tonight.

Harry Davis, 23, proprietor of a soft drink establishment at Syndicate, was fired on from ambush on his way home this morning. He is in a hospital suffering with bullet wounds in the head, abdomen and both legs. Forty shots were fired at Davis, it is reported. An automobile bearing several strangers was seen leaving Syndicate shortly after the attack, for which no reason is given in reports.

Elmer Williams, 45, a miner at Shepherdsville, received a scalp wound yesterday when he attempted to interrupt a negro reported to be terrorizing the mining camp with a gun. The negro escaped.

OUTRAGE REPORTED IN W. VIRGINIA

Indianapolis, April 3.—A telegram received by Mr. Dwyer from West Virginia tonight stated that "company gunmen" chased 45 union miners away from their families at Stotesburg today, threatening them with death if they returned. The fugitive miners, the report said, are spending the night at Stotesburg, non-union center, afraid to return to their homes.

Additional reports from West Virginia received by Mr. Dwyer tonight stated that all mines in the New River field were closed today and that two-thirds of the Winding Gulf mines were down. Union workers are organizing a general strike of several mines in the Winding Gulf field today.

LEWIS APPEARS BEFORE COMMITTEE

Washington, April 3.—Discussing before the house labor committee today reasons why 600,000 anthracite and bituminous coal miners stopped work last Saturday in the United States.

BRITISH COMMONS VOTES CONFIDENCE IN LLOYD GEORGE

Little Welshman Wins New Political Victory by Huge Majority of 372 to 94.

VOTE WAS ON POLICY AT GENOA CONFERENCE

George Pleads for Recognition of Russia as Only Hope for Trade Life of World.

Poincare Also Wins.

Paris, April 3.—Premier Poincare received the solid backing of the chamber of deputies on his Genoa policy, when the lower house voted confidence in the government by the sweeping majority of 484 to 78.

BY RALPH H. TURNER, United News Staff Correspondent.

London, April 3.—"If all the European countries had gathered together their mobile wealth and set fire to it, the economic devastation of Europe could not be worse," Lloyd George told the house of commons in the masterful speech which marked his re-entry into parliament and his demand for national confidence in the government's economic program.

He won a direct vote of confidence in the house on his Genoa policy Monday night when the house passed his resolution supporting the government's economic program, by a vote of 372 to 94.

On an earlier vote the commons had assured the premier that he might go to Genoa with the complete backing of the nation and parliament, by defeating the motion of J. P. Clynes, labor party leader, expressing a lack of confidence in the government, by the great majority of 370 to 84.

Enthusiastic Reception. It was the premier's first appearance in commons since February, and a wildly enthusiastic house greeted the little Welshman upon his entry, cheered him as he began his speech, and rose to applaud him when he had ended.

From the oratorical standpoint, Lloyd George's argument was directed entirely to logic rather than emotion. The old-time fire, the brilliant epigrams, the flashes of humor, were somewhat lacking. But the premier laid down with convincing argument the two great conclusions at which he had arrived.

The first was that Europe could

STUDENT AT TECH INJURED BY AUTO

Woman in Machine, Driving on Wrong Side of Street, It Is Charged, Hits Motorcycle.

D. A. Otto, student at Georgia Tech, sustained a fractured ankle, a badly cut foot and lacerations about the body shortly before 5 o'clock Monday afternoon when his motorcycle collided with an automobile in front of the Tech Y. M. C. A.

He was carried to Grady hospital, where physicians stated after an examination that the injuries would not prove fatal unless blood poison set in, although it will be some time before he can return to school. According to Otto, the lady driver of the automobile was on the wrong side of the street, which caused the head-on collision. The motorcycle was practically demolished. Police are investigating.

Mrs. A. H. Gartrell, 60 years old, who gives her address as Luckie street, sustained a fractured right arm and severe bruises about the body shortly before 1 o'clock Monday afternoon when she was struck by an automobile driven by O. J. Campbell, at the corner of Broad and Walton streets. Campbell will be tried in police court Tuesday, charged with reckless driving.

Choate "Composite" Plan, Watkins' Proposal, and Present System, Amended, to Go to Voters.

CHANGES SUGGESTED IN PRESENT CHARTER

Plan Receiving Highest Vote Will Be Declared Winner—Women Will Discuss Council Action.

After two hours of hot debate, the "composite" charter of Herbert E. Choate, the "alderman-city manager" plan of Councilman Edgar Watkins, and the existing Atlanta charter, with amendments, were submitted by city council Monday afternoon to vote of the people at a special election fixed for May 16.

The resolution to submit the three charters won by the overwhelming vote of 30 to 2. Councilman Watkins and Alderman Harry Goodhart voted against it.

Defeat Preferential Plan.

Council also defeated the preferential count plan and the charter receiving the highest number of ballots at the election will be announced as the winner.

Under the preferential count each voter would number the plans according to his choice—as first, second, third—and if in the election no charter received a majority of the votes cast, the ballots of the plan receiving the fewest votes would be distributed proportionately to the other charters, and this process of elimination would continue until one of the charters received a majority.

Women Voters to Meet. Miss Eleanor Raul, president of the Atlanta League of Women Voters, declared Monday night that she had no statement to make at this time concerning the action of council in denying the preferential vote. She stated that the executive board of the league will meet at 10 o'clock Tuesday and that a statement will be given out later concerning the situation. Beyond this Miss Raul declared that she had nothing to say.

Amendments to the present charter were introduced by Councilman J. R. Nutting, Alderman W. C. Davis and Councilman J. O. Wood, and provide for the abolishment of all boards and the vesting of their functions in the general council, except the sinking fund commission, the school board and the Carnegie library board, the terms of members of the abolished boards to expire with the present year.

New Ward Created.

The amendments create an additional ward, making twelve, and increase the school board from five members to one elected from each ward, in the same manner that councilmen are elected. This contemplates more complete divorcement of the school department from city council. Terms of the incumbents are to expire with the present year. A prohibition against secret sessions is included.

Free textbooks are to be provided for all grades, at least two a year, beginning with the first and second grades, and then in succession until all grades are furnished.

Teachers are to be put under civil service. The amendments provide that the municipal tax rate shall never be increased beyond the present rate of \$1.50 on the \$100, but leaves it discretionary with council to reduce it. Mr. Choate's composite plan pro-

vides for a mayor, a council of twelve members, and five directors to function as administrative officers. The mayor's term is fixed at four years, and he is made ineligible for re-election. He is given authority, with concurrence of the council, to name all directors and members of the commissions, six of which are retained. Councilman Watkins' "Atlanta plan" provides for a city governed by a mayor, a city manager and a board of twelve aldermen. The mayor names the city manager, with concurrence of the aldermanic board, and the city manager appoints all department heads, except the city controller. He is subject to dismissal for inefficiency or other cause by the board of aldermen. Both charters have been published.

22 DICTIONARIES IN ONE

All Dictionaries published previous to this one are out of date

in previous issues of The Constitution. Debate proceeded thirty minutes, with Alderman Goodhart holding the floor as the first speaker in an impassioned speech for the Choate plan, when a hot tilt occurred between the alderman and Councilman Robert A. Gordon.

Alderman Goodhart concluded his speech and took his seat mopping beads of perspiration from his brow. "I move we adjourn," shouted Councilman Gordon. "Mr. Goodhart has been studying two years. Two years ago he was talking about holes in the streets. I thought he was buried in one of them at that time. He's been talking two hours. It's unfair to the other members. Let's cut out this political stuff."

Mr. Goodhart sprang to his feet. "I rise to a point of personal privilege," he declared hoarsely. "A man who will take an advantage like that and say the things he said is hitting below the belt, and a man who will hit below the belt I have no regard for."

Charter Comes Up First.
When council met it took up the charter question first. Councilman Watkins moved that unanimous consent be given to hear from Hugh M. Willet, chairman of the citizens-council charter commission which reported the Choate plan to council. Councilman Fred Woodall objected, but over his objection council resolved itself into a committee of the whole and invited Mr. Willet to speak.

Mr. Willet reviewed the work of the committee and strongly urged that the Choate plan be submitted to the people as opposed to the present charter alone.

"This would make a clean-cut issue," he said, "and would avoid the complications and confusion which would arise from the submission of several charters at the same time. The latter proceeding, while plausible in appearance, is unsatisfactory in practice, would gravely endanger the very purpose which council had in mind in the appointment of the committee, and would almost surely defeat the efforts put forth by your committee and other advocates of charter reform."

Sign Minority Report.
Alderman Goodhart was the only council member of the charter commission to defend the Choate plan. Councilman Nutting, Councilman Murphy, Alderman Ragsdale, Councilman Wood and Alderman Chesebrough, the remaining members, signed a minority report in which they agreed with the majority to report the Choate charter to council, but with the understanding that by so doing they in no sense endorsed it.

"On the other hand," they stated, "we are strongly opposed to the charter, as we do not consider it in any way suited to the needs of this city. A mayor with almost autocratic power may be needed in some communities, but such a mayor is not needed in Atlanta."

Defending the Choate charter, Alderman Goodhart declared that the people are tired of the present antiquated charter, and want a new one that centralizes authority and will bring about more co-operation between the departments.

He scored the amended plan of Nutting, Davis and Wood, charging that if the boards are cut off and the council of 33 members is placed in complete administrative as well as legislative control, it will become a "debating society, instead of a legislative body."

He declared he could take twelve members under the Choate plan and run the city 100 per cent better than it is operated now.

"As things are now you can't even get a hole fixed in the street. The streets are full of 'em and some of 'em have been there for eighteen months."

Champions Present Charter.
Councilman Ashley followed as the champion of the existing charter. "I'm for a representative form of

government," he said. "The constitution of the United States government is not antiquated and it has been amended something like nineteen times."

"I'd almost sacrifice my life for the integrity of the present government as it exists—a government for the people by the people."

"The only fair way to do it is to subject the three charters—the Watkins, the Choate and the present representative form—and the charter that's got the longest pole gets the persimmon."

Alderman Davis, another advocate of existing government, pointed out its various virtues and predicted that "when the people find out what is wrapped up in the other two charters they will vote for the present representative charter."

Interposing at this juncture, Councilman Watkins rose and offered an amendment providing that if no charter received a majority at the election, that a run-over primary be held to vote on the two highest. This was defeated. Other than to say that his plan is democratic and goes a step toward a representative form, Mr. Watkins made no speech.

Stating that he wished to talk only two or three minutes, Alderman Carpenter said: "I've seen Atlanta grow from a wide place in the road to a great city. This charter we're living under is good, but I'm in favor of the voters pick out the charter and letting the voters pick out the mayor."

Councilman Gordon rose to shut off further debate, and called for the measure to submit the three charters. His motion carried.

Council appropriated \$1,200 to defray the expenses of the election.

CONDITIONS BETTER,
SAYS LEVEE REPORT

twelve feet above the farms inside the barriers.

Red Cross Ready.
Captain Harry M. Baker, of the disaster service of the American Red Cross, is on the ground and has organized camps for refugees who have been driven out of the lowlands by the back waters of the White and St. Francis rivers, and every arrangement made for the care of these unfortunate until they are able to return to homes.

Waring was issued by the county authorities today to a number of labor agents who have appeared at the towns where the refugees are gathered and who are reported to be attempting to persuade some of the settlers here to move away.

Branch lines of the Missouri Pacific railway in this section have been forced to cancel some of their trains on account of the overflowing of the tracks by backwaters.

FALL EXPECTED
AT MEMPHIS.
Memphis, Tenn., April 3.—A fall of six-tenths of an inch from the crest stage of 42.6 feet in the Mississippi flood at Memphis is expected by tomorrow, according to the weather bureau here, and the rate of fall is expected to become more rapid for several days as the flood water is reported receding at all points between Cairo and Memphis. With the exception of additional sloughing for 70 feet at the upper end of the cave-in in the front levee at Old Town, Ark., no trouble was reported during the day at any point in this river district.

Government and levee engineers are confident, they declare, that the flood water will run into the lower river without any serious trouble developing at any point except Old Town. At that point Major L. Y. Kerr, United States engineer in charge of that district, says the situation is under thorough control and says he has no fear that the secondary levees which have been completed there will fail to hold. The principal danger there, levee engineers state, will come from the river receding rapidly when the crest has passed, with a possibility of further caving, when the pressure of the river against the embankment is removed.

Rivers Backed Up.
The St. Francis river in Arkansas is still rising with the crest of the flood near Marked Tree tonight. Both this river and the White are backed up by the flood in the Mississippi and engineers say that the release of these waters in the tributaries will slow up the fall in the Mississippi at Old Town, thus probably preventing further caving of the levee at Paducah.

Slight rise was reported at Cairo today but the Ohio is expected to fall at Evansville tomorrow unless the flood in the Green river holds up the fall in the Mississippi. Flood waters out of the Wabash have caused a further rise in the Ohio at Shawneetown, Ill., which may check the fall there. The weather bureau states.

Secondary Rises.
The second rise in the Missouri river has reached the Mississippi country, a secondary rise at Chester, Ill., and Cape Girardeau, Mo. Below Cairo the fall is becoming rapid, Cairo, Mo., reporting a decline of two feet since the crest passed that point.

In Arkansas, the St. Francis and White and their tributaries are still rising. The former is about four feet higher and the crest of the flood in the White near Newport, Ark., where a rise of 1.5 feet was recorded yesterday, still is being reported. Between Newport and Clarendon, no further rise is looked for, the weather bureau says, as the water will remain steady until the Mississippi recedes and allows it to flow out. At Clarendon, Ark., a stage of 28.9 feet was recorded today.

Arkansas levees also rising with the crest of the high water expected at Little Rock Wednesday.

Guards are still maintained on the Arkansas levees in the St. Francis district, although the line between the Missouri boundary and the mouth of the St. Francis is believed to be safe, Harry N. Pharr, engineer of the St. Francis board, declared tonight.

BOARD OF EDUCATION
AND COUNCIL CLASH
Continued from first page.

cent of the 6 per cent was to be received by the supervising architect.

Nutting attacked the fee as too high, declaring that 3 1/2 or 4 per cent was enough for the architects. Architects will be glad to work for that, he said, "and if they aren't we'll send out of Atlanta and get architects who will be."

Unless a redistribution of fees is made the architects working under the direction of the supervising architect, will now receive a fee of only 3 1/2 per cent.

Couch Backs Fight.
Councilman Couch vigorously attacked the fight of Mr. Nutting and in a speech turned his attention to Engelhardt and Strayer. He complimented them for their fine work in compiling necessary data for the school building program, but scored them for what he termed "political" speeches, which he said they made in behalf of the board of education, while here.

"And if their further employment means that they're to come back here and make some more political speeches for members of the board, I'm against it," he added.

With the board of education up in arms against council's action an indefinite delay on the school program is seen, unless council yields and restores to 6 per cent the fee of the architects.

BOTH SIDES AGREE
STRIKE IS PERFECT
Continued from first page.

States and Canada, John L. Lewis, president of the United Mine Workers of America and official leader of the strike, declared that the anthracite workers had gone out merely to await the result of a peaceful negotiation with their employers over a new wage scale, but that the bituminous workers were out indefinitely, if need be, to obtain the signing of a basic wage contract.

The bituminous workers, Mr. Lewis declared before the committee, which is considering a resolution to direct appointment by the president of a commission to investigate the coal industry, are out to "stay indefinitely, if need be, until the operators of the central competitive field of Ohio, Indiana, Illinois and western Pennsylvania sign up a basic wage contract according to their pledge on which the other coal mining districts of the United States can settle."

In reply to questions by Representatives Black, democrat, Texas, as to why the union would not settle with the operators in states and districts where work could be resumed under satisfactory conditions, Mr. Lewis insisted that competition would not permit the operators to fix the wages locally without the knowledge of the wage scales their competitors would have.

Gives Instances.
"Even if the operators of Illinois, for instance," he added, "are willing to sign up a new scale for themselves, without regard to their competitors, the United Mine Workers are unwilling to have its members in Ohio, western Pennsylvania, Indiana and West Virginia, dragged into the suffering of a long strike, while the Illinois mine owners take the markets."

Although holding that a national wage scale was the first essential, Mr. Lewis told Chairman Nolan, of the house committee, if congress or anybody else could get "a representative number of operators from all the central fields into a conference, those controlling a substantial tonnage, I mean, I shall advise the United Mine Workers—and I think they will take my advice—to negotiate with them for a new contract."

Short of this step, he added, miners and operators conferring by district would be "just talking—no good."

In speaking of the general conditions of the industry, Mr. Lewis is referred for the most part to bituminous matters in view of the wide scope and importance of that industry. Although the United Mine Workers stood for nationalization of coal mines, with adequate assurance to property owners involved, he classed "government ownership as impossible at this time."

Part-Time Operation.
"Miners know that they can't hope to get more than 215 days' work a year as things stand," he declared, "and that part-time operation tends to increase its scope year after year. Loath as some people may be to the difficulties and hazards, if private in-

dustry cannot work out this problem, regular employment and stabilize outputs, it may be necessary for government to assume the burden. I believe congress could well set up a tribunal or a bureau to investigate, at least, and give the facts, which might determine a policy."

Mr. Lewis paid his respects to what he termed "a general financial demand for liquidation of labor and deflation of wages," by declaring that there was "nothing constructive in the business viewpoint today, and depression cannot be overcome by cutting wages and further lowering the purchasing power of labor." The non-union operators, especially those of West Virginia, he said, were "fascist" of industry, whose hand is against industry, who are fomenting industrial difficulties that they may get high prices."

Public Must Pay.
"Be sure that if this do-nothing policy of inaction leaves the issues to be fought out," he said, "with the government standing aside as a neutral observer, the public will have to foot the bill."

The industry itself was "tremendously wasteful," he asserted in its intermittent operation, and likewise "operators got used to large margins of profit during the war and want to retain them."

In general, he declared that neither the anthracite nor the bituminous miners had "secured wage scales which kept pace with the advance of the cost of living during and after the war, and surely now they cannot be asked to accept less than the small decline living costs allow, which sum would be so small as not to affect the consumers' price, even if it escaped the middlemen in the markets."

High Profits Charged.
Profits in recent years, in some mines, he said, "in some cases exceeded the total mine cost of production of coal."

Asked to outline the degree of regulation he thought the government might apply to the industry, Mr. Lewis sharply opposed the setting up of wage fixing tribunals, and likewise insisted he was not suggesting that a government fix prices. The question member of the miners and operators

was not finished when he left the stand for the day, to resume tomorrow.

Representative Bland, republican, Indiana, author of the resolution before the committee, asked the strike leader to give his view of the prospects to the strike.

"I assume that in due time the operators will be compelled," Mr. Lewis responded, "to recognize the obligation assumed in their old contract to confer with the United Mine Workers for a new scale, and to recognize equally the desirability of such a contract. I can't conceive that they can long withstand the power of public opinion in the matter."

FIRST VICTORY
CLAIMED BY UNION.
New York, April 3.—Union leaders claimed the first victory for the striking anthracite miners here today when they announced several independent companies had offered to grant all of the nineteen wage demands if the men would return to their jobs immediately.

The offer was first made by William Peck, president of the Grove Hill Mining company, of Peckville, Pa., who came to New York for the purpose, according to William J. Brennan, of Scranton, Pa., president of the United Mine Workers of America in district No. 1.

It was followed, he said, by similar offers from "other small independent mine operators," in the Scranton area.

That this signified a breach in the ranks of organized mine owners was denied by members of the anthracite operators' association. They branded operators who had made such offers as "independent operators of wagon mines whose production was a negligible factor in the outcome of the strike."

Breach Is Denied.
The Grove Hill company is not even affiliated with the organization of independent operators, they said.

"Such offers will not win the strike, and will have no effect on the stand for a reduction in wages, taken by the operators' association," said W. W. Inglis, president of the Glen Alden Coal company of Scranton, and a government fix prices. The question member of the miners and operators

subcommittee on wage contracts negotiations, in session here.

Union leaders were optimistic, however. According to Phillip Morgan, vice president of the United Mine Workers' international organization, "the willingness of these smaller operators to continue production on a basis of higher wages to the miners is ample proof that there is no reason why big operators employing thousands of men should refuse to accede to our demands."

Many Charges.
This, the third calendar day of the anthracite and bituminous strike which began April 1, was one of the charges and counter charges, for which business of the wage contract negotiations committee virtually was suspended.

Operators charged that union pickets bearing strike literature were invading non-union bituminous fields of Pennsylvania and exhorting workmen to lay down their tools.

To this, district leaders here retorted that L. W. W. literature was being circulated in strike-stricken areas, calling on union men to join the L. W. W., "one big union."

"If these men are being paid for such work and are understanding they are, the money must be coming from the pockets of the operators," declared Thomas Kennedy, president of district number seven. It was evidently an attempt of the mine owners to disrupt the morale of the strikers, he said.

Charges that several of the larger anthracite operators were violating provisions of the suspension agreement today brought threats from district labor chiefs that they would withdraw the 3,200 men assigned to protect mine property during the shutdown.

The charges were made by Mr. Kennedy, of district number seven, at Hazleton; C. J. Golden, president of district number nine, and Mr. Brennan, of district number one. Operators were discharging union men left on duty as pumpmen, engineers, firemen, stable men and substituting non-union salaried foremen and clerks, it was asserted, in direct violation of an agreement subscribed to by the wage negotiations subcommittee only last week.

10¢ for FIFTEEN

HONORED
The American Tobacco Company honored "111" cigarettes by choosing for their name the address of its Home Office—111 Fifth Ave., New York. The American public honored the judgment of the American Tobacco Company by making it one of the four biggest national sellers in less than 18 months' time. We would be honored to have you try them.

Which means that if you don't like "111" Cigarettes, you can get your money back from the dealer.

★ 111 FIFTH AVE. NEW YORK CITY

CLEAN, HEALTHY CITY YOUR BIGGEST ASSET

SITE ON SOUTH SIDE INDORSED FOR SCHOOL

The site at the corner of Capitol avenue and Venira street was indorsed Monday night as a location for the new high school to be built on the south side at a mass meeting held in the auditorium of the Pryor Street school. A committee of five, headed by Frank Wilby, was named to appear before the board of education and city council and work for the selection of this site for the new school.

R. B. Blackburn presided at the meeting, and in a short speech declared that the proposal that the city stockade property be used as a site for the new school should not be approved. He said the moral environment of the new school should be clean and wholesome, and said it would take years for the school to remove the taint now surrounding the stockade property.

It was stated that the Capitol avenue and Venira street site is within three blocks of the center of population on the south side as fixed in the recent school survey. The site, it was declared, is located in a popular residential section and at a point where the new school could best serve the people of the south side.

CHILD KILLED BY AUTOMOBILE

Savannah, Ga., April 3.—(Special.) Everett G. Helms, Jr., 4 years old, was knocked down and instantly killed by an automobile shortly before 6 o'clock this evening, while crossing the street in the uptown section of the city.

Norris Miller, driver of the car, was held in \$1,000 bond, pending a hearing tomorrow.

Decatur Votes On Commission Nominees Today

Decatur, Ga., April 3.—(Special.)—The voters of Decatur tomorrow will elect a complete new board of city commissioners to succeed the present board, which recently resigned in a body in the interest of political harmony within the city government.

There is no contest for either of the commissions to be filled by this election, a ticket of five men having been agreed upon by a joint committee representing both factions of local political sentiment, and approved by the people in a recent mass meeting. On this account, an extremely light vote is forecast, though the registration books show that there are more than 1,750 Decatur men and women who are qualified to participate.

The five nominees to constitute the next governing body of the town are Scott Candler and Walker White, who will be elected for two years, and William Schley, Howard J. A. Hall and C. A. Matthews, who will be chosen each to serve until January 1, 1923.

The retiring board is composed of Chairman and Mayor W. J. Deane, Vice Chairman C. Eugene Allen and Guy Webb, whose terms would otherwise have expired next January 1. Carl N. Hutcheson, member of the board of education, made a short talk in which he stated he had made a personal inspection of the stockade site, and that he would not favor locating the new school on that site.

Among its first official acts will probably be the selection of a city manager to succeed P. P. Piche, recently resigned, now city manager of New Smyrna, Fla., and whose place is being temporarily filled by C. G. Towns, and the adoption of the 1922 fiscal budget.

Augustans Still Must Walk While Officials "Fuss"

Augusta, Ga., April 3.—(Special.) City council did not close up the transportation matter tonight, at least for the present.

As things now stand, council has ordered that the city attorney take steps to endeavor to forfeit whatever franchise the street railroad has in Augusta, but further directed that he not initiate such proceedings until ten days shall have elapsed. This interpreted to mean that the quarrel which is on will be patched up. Efforts to that end have been in progress since Friday night. At that time the council finance committee, after a sitting at which General Manager Baughart, of the company, was present, adopted the resolution to try to forfeit the franchise when Baughart refused to say he would recommend to his company a compromise offer which was made him.

No one believed that council intended, at the time it proceeded to try to forfeit the franchise, that the action might also be accepted as giving time in which to continue negotiations. Those closely identified with details of the controversy and who know of all steps that are being taken, state that an understanding is sure to be reached in the next few days.

RECKLESS FIRING OF GUN CHARGED TO E. H. AUTREY

On receiving a call from people in the neighborhood who said that a man was standing on the porch at 257 Lee street and firing into the street, a lieutenant of detectives, Call Officers Goods and Dodd and Patrolman Weaver arrived about 9 o'clock and arrested E. H. Autrey, who lives at 875 Whitehall street. The officers who took him into custody say that he had two automatic pistols in his hand and was firing indiscriminately.

Autrey declared that he was at his sister's house when two men tried to break in. He fled, and that these men were Ryan and Pittman, who were known to him. The latter two charged that there was no provocation for the shooting, as they had merely called on a visit, one of them to see his wife. Autrey is held on a charge of disorderly conduct and firing a deadly weapon. Ryan and Pittman are held on a disorderly conduct charge.

QUARRY STRIKE FAILS TO STOP OPERATION

One hundred and forty union employees of the Stone Mountain Granite company left their jobs Saturday in a demonstration of sympathy with the quarrymen, but the company officials, who were on the quarry with a crew of non-union men, according to the officials, as the Stone Mountain quarry is an open shop, it is, therefore, not seriously affected.

Atlanta Opera Records Are Smashed When Sale of Single Tickets Begins

Photo by Francis E. Price.

Part of the long line waiting for opportunity to purchase tickets when seats for single opera performances went on sale Monday.

Lines of ticket buyers, more than a block long, were strung out in front of the Cable Piano company Monday morning for the opening of the single seat sale for Atlanta's opera season. Directors of the company declared that the first day's sale was probably the largest in the history of the Metropolitan company's annual visits to Atlanta.

It was a remarkable fact, too, that there was no special indication as to which of the seven performances holds the greater attraction to the ticket purchasers. There was a brisk demand for all of them with "Traviata" in which Galli-Curci will appear, "Ernani," the opera of the opening night, and "Faust," the Saturday matinee, in the lead.

The sale will continue through the season.

Big Crowds in Attendance At Revival Meetings Here

City-wide evangelistic services in more than 120 Atlanta Protestant churches, which began Sunday, drew large attendances on the opening day and Monday, according to reports from all sections Monday night. It is estimated that more than 35,000 persons attended services Sunday and approximately 20,000 Monday in the various Methodist, Baptist and Presbyterian churches. This record is considerably larger than was compiled at last year's services, leaders in the movement asserted.

Record congregations filled the Second Baptist church Monday and heard the second of a series of sermons on "The Great Transference of the Bible," by Rev. Henry Alford Porter, pastor. The first of the series drew more than 800 persons Sunday night while the second, entitled, "And the Door Was Shut" from Matthew 23:10, attracted almost as large attendance.

Hamilton in Charge. Dr. W. W. Hamilton, superintendent of the evangelistic department of the house board of the Southern Baptist convention, arrived Monday afternoon to assume charge of the revivals in the Baptist churches. He will deliver two sermons daily for the next two weeks, it was announced, appearing at the First Baptist church at 10 o'clock in the mornings and in the evenings at the Baptist Tabernacle. Services will be held each morning during the week at Wesley Memorial church at 10:30 o'clock for the Methodists of Atlanta. The same program of meetings has been arranged for the Presbyterian churches, which began revivals a week ago.

Central Presbyterian church, has begun a series of sermons which will be delivered each night with the exception of Saturday nights, for two weeks of the campaign, James Alderson, choir director, has arranged special music.

Dr. Crowley Here. At St. Paul's Methodist church Rev. Walter G. Crowley, the pastor, is being assisted by Rev. John F. Yarbrough, presiding elder of the Dalton district. Dr. Yarbrough is the son of the well-known Dr. G. W. Yarbrough.

Dr. G. H. Lewis, president of the Protestant Methodist Church of America, of Washington, D. C., is preaching at the Wesley Memorial church. His powerful sermons Monday were heard by great crowds.

Reports from Methodist churches in the city which are participating in the city-wide revival were received at a meeting of the Methodist Ministers' association held Monday night. The indications in all churches heard from were that large crowds were in attendance and that practically every church member in each church has pledged his co-operation in the meeting.

Inman Park M. E. church reported a full house at every service and what is said to have been the greatest Monday night service ever held in the church. The Rev. T. R. Kendall is conducting the services, assisted by the Evangelist T. B. Culpepper.

Attracts Big Crowds. The Rev. J. L. Allgood, assisted by the Rev. E. L. Wainwright, reported that Kirkwood Methodist church has had unusually large crowds, and that interest manifested in the meetings was greater Monday than hitherto.

Preaching by the Rev. W. J. DeBardelene, assisted in the song service by Rev. B. F. Pimm, of Jonesboro.

THREE ARE JAILED IN BURLARY CASE

Phillip Langley, who lives at No. 3 Hayden street, was arrested at 11:30 o'clock Monday night on a charge of burglary when he was caught by Policeman M. B. Johnson and C. E. McCreary as he forced an entrance into the Kokomo Tire company at Walton and Spring streets, it is alleged.

When Langley was arrested another man who was with him fled. The officers pursued the man and after a chase caught Tom Tift, 22 years old, who lives at 185 1-2 Bellwood avenue. Tift denied that he was attempting to enter the tire company's building, but he was taken to police headquarters where he is being held on a charge of suspicion.

Early Tuesday morning Call Officers McWilliams and Patrolmen Johnson and McCreary arrested Robert Bennett, 17 years old, at his home, 95 East Linden street, and are holding him also in connection with the burglary attempt.

This is the second time in the last few days that policemen have caught men in the act of entering stores, it is said. Saturday night Policemen McDaniel and Crankshaw caught two white men who were entering the Openheim Storage company.

Edward Chaffin, 18 years old, of 18 Kontz avenue, and Robert L. Denson, 22 years old, of the Campbellton road, were arrested early Tuesday morning on the charge of attempting to steal a roadster belonging to J. D. Lane, of 14 Flynn street. Two more men, being sought, Call Officers John Wood and Otis Hewell made the arrests.

Burglars entered the Nurses' club at 110 Luckie street, Monday night, and after obtaining \$1.50 in cash escaped. They climbed a waterspout to one of the rooms in the building and seized a mesh bag belonging to one of the nurses. The bag was found later by the police but the burglars escaped.

Atlanta Woman Opens Employment Bureaus in East

Mrs. Florence A. Chapman, head of the Atlanta school employment service, with offices in the Chamber of Commerce building, returned recently from a tour of points in the north, where she has been asked to establish bureaus in the public schools, similar to the one in Atlanta. Mrs. Chapman started a school employment service in Jersey City during her stay there, which lasted three weeks.

From Jersey City she went to Wilmington, Del., where she organized the service which had already been established. It is a tribute to the efficiency of the bureau in Atlanta that Mrs. Chapman should be called upon to superintend the installation of services in the large cities of the north.

"The crying need in Georgia," said Mrs. Chapman Monday, "is the co-operation of employers with the school authorities, with the legal backing of state laws. We should increase the minimum age at which a child can go to work, and should enforce compulsory attendance in the schools."

The school employment service is co-operating with the junior division of the United States employment service in all of its activities. Mrs. Chapman has made an inspection of the systems in the east, and plans to put certain features of the bureau into effect here. Regarding the minimum age laws and other desirable regulations of the states visited, Mrs. Chapman said:

"The laws in Delaware, New Jersey and other states set the minimum age at 14, and require a working certificate for all boys and girls employed between the ages of 14 and 16. All who have a work certificate must attend a continuation school at least four hours a week. This must be during the day time, as night schools are banned for children between the prescribed ages."

GEORGIA HISTORICAL SOCIETY TO MEET

Athens, Ga., April 3.—(Special.) A program has been arranged for the annual meeting of the Georgia Historical society in Savannah April 12. Judge Andrew J. Cobb, of Athens, president, will preside and deliver his annual address.

Other features include: Paper, by Linton M. Collins, of Reidsville, "The Activities of the

Missionaries Among the Cherokees," discussion led by Professor Scott, of Macon, "The Georgia Historical Society and the Teacher." Discussion led by Dr. R. P. Brooks, of Athens, "The Georgia Historical Quarterly."

The United States Treasury gives the cost of war to this country, up to and including December 31, at \$22,589,986,000. This includes about \$8,000,000,000 lent to our allies. Deducting it, the net cost of our war, to January 1, may be placed at about \$14,000,000,000.

TEXTILE DISPUTES MEETING CALLED

Lawrence, Mass., April 3.—The second week of the textile strike here found nearly 16,000 operatives idle, while the fight between Ben Legere, leader of the "One Big Union," and the United Textile Workers of America, headed by President Thomas F. McMahon, for control of the strikers waxed more bitter.

Legere called a mass meeting Monday to ask the workers whether they wanted him or the United Textile Workers of America to guide them in the fight against a 20 per cent wage cut.

The Plymouth mill, the latest to announce a wage cut, which became effective Monday, was crippled by a strike of a large proportion of its 400 workers. Officials said the mill had not enough business to run full

time, but that some employees had been instructed to report for work again Thursday. The employees voted to walk out, however, and strike leaders claimed they joined the other strikers.

In an attempt to adjust textile wage disputes in Massachusetts, a conference has been called by the state board of arbitration and conciliation at the state house, Boston, for Tuesday afternoon.

An independent move to settle the local strike has been made by Mayor Mahoney, of Lawrence, who has appointed a committee of clergymen to investigate and try to bring about an agreement between the two factions.

Five thousand pickets made a continuous procession through the mill district Monday. This is a larger number than has done picket duty since the strike started. They were not molested by the police, for they kept moving.

England is planning to bore a tunnel under the Thames east of London to connect railways on both sides of that river and save them running trains through the city.

RADIO REUNITES TWO OLD FRIENDS, 15 YEARS APART

Radio has just reunited two old friends who had not seen each other for fifteen years, and as one is in Plainfield, N. J., and the other is in Indianapolis, Ind., they would probably never have gotten into communication with each other had not wireless interests made possible a renewal of their friendship.

More than a decade ago, J. P. W. Taylor, now a Plainfield attorney and president of the Plainfield Radio association, was a close pal of Harry Durant's. Fifteen years ago Durant sailed for Europe and Taylor had not heard from him until a few days ago he received a letter from Indianapolis. Taylor had taken a prominent part in the Plainfield association's fight for greater privileges for the amateurs and an Indianapolis paper had printed something about the club's efforts, mentioning Taylor's name. Suspecting that it was his old friend, Durant wrote and now the two are planning a reunion this summer.

INCREASE IN IMPORTS SHOWN BY STATISTICS

A statistical report showing the status of imports and exports from the United States during 1921 as

compared to those of 1922, has been received by J. E. Addicks, foreign trade secretary of the chamber of commerce. The report shows that imports increased in 1921, while exports showed a decrease.

This is due to the fact that manufacturers in the country lowered the amount of their output during the past year, Mr. Addicks said, which necessitated larger imports of raw materials and finished products from other countries. The decrease in exports is explained by the same reason, it was stated, as large consignments that would have gone abroad were diverted to home consumption.

MEETING IS CALLED OF BOULEVARD CLUB

Plans for building additional driveways from South Boulevard and Atlanta avenue into Grant Park and other proposed improvements for the east side of the park will be discussed at the regular meeting of the South Boulevard Improvement association, which will be held at 7:30 o'clock Tuesday night at the home of W. G. McNally, 20 Rosalia street. Steps will be taken to begin work on these improvements at the earliest opportunity.

The oldest artesian well in Europe is found at Lillers, France. From its mouth water has flowed uninterrupted for more than 750 years.

URGED TO BEGIN WORK ON ESSAYS

Continued from first page.

was designated as the newspaper to conduct the contest in that section.

After articles have been completed they should be mailed to the editor of The Constitution Highway Transportation Department, where they will be held until final consideration has been given them. From every high school in the section three essays will be selected as the best ones presented and these three will be turned over to a group of judges composed of reputable teachers of the state who will be elected by The Constitution in co-operation with State Superintendent of Schools M. L. Brittain. The best article of the lot passed upon by the local judges will then be sent to the national committee at Washington for final action, and from these the winner will be announced.

May Be State Prizes. Although there is only one major prize permitting a four-year scholarship in one of the country's leading universities, it is probable that a number of local and state awards will be offered for the best essay presented. Last year it was pointed out valuable state prizes were contributed in the form of sets of books and like gifts. The national committee has also announced that plans are being made for making awards for the best manuscript submitted in the respective states, which together with the several state prizes is expected to offer an added inducement to a large number of contestants.

In co-operation with the highway and transportation committee at Washington The Constitution will publish from time to time valuable information on the subject, including a list of pamphlets and articles bearing on the subject as well as information as to where these pamphlets may be obtained.

Members of the committee stated that a great deal of interest is being taken by high school students from every section over the contest, and that with the ending date a full month off, there is plenty of time for every boy and girl to have a chance at the coveted prize.

PLAN DELEGATION AT RATE MEETING. Continued from first page.

Expert Tintich, North Carolina, Chairman Lee and Commissioners Pell and Maxwell; South Carolina, Commissioner Shapley; Tennessee, State Expert Hendley; Mississippi, State Expert Moore; Alabama, State Expert White; Virginia, Commissioner Forward and Attorney Mangum; Kentucky and Louisiana, although not represented, had agreed by mail to approve the action taken at the Atlanta meeting.

Will Meet in Atlanta. Washington, April 3.—The interstate commerce commission will move towards its announced revision of class freight rates in southern territory, it was announced today, by holding a preliminary hearing at Atlanta on May 22 before Commissioner Eastman and Examiner H. C. Wilson. After conclusion of the Atlanta hearing the commission representatives will assemble witnesses also at Asheville, N. C., and New Orleans, where southern interests particularly will be heard.

Still later hearings will take place at Chicago and New York for the purpose of getting the views of shippers and transportation companies doing business in the south with traffic originating in the north and east.

The class rates which the commission has under investigation are those which apply to all merchandise and general freight shipments not included in the list of bulky commodities which are given special rates known as "commodity rates." The commission desires to ascertain the fairness of schedules as they apply to the south and to determine whether the distance transported and the rate charged are fairly proportionate.

ATLANTA BEGINS WAR ON DISEASE. Continued from first page.

rious sections of the city the committee has offered three prizes to school children, winners to be decided upon from the number of cans collected by the various schools during the period from next Monday through the following Thursday.

Will Be Piled in Heaps. The cans will be piled in heaps on the school grounds where they will be reviewed by Chief Jentzen and members of the committee. The first prize of \$25 will be awarded to the school with the largest collection of cans; \$15 for the next largest and \$10 for the third largest. The board of education will decide fully upon this matter at its weekly meeting Friday afternoon.

S. L. Rhorer, chairman of the finance committee of the campaign, has called a meeting of his committee for 4 o'clock Tuesday afternoon in the assembly room of the mayor's office in the city hall to discuss plans for financing certain phases of the drive. This committee will meet with the executive committee and the chairmen of the various departments Wednesday afternoon at the same time to review the progress of the campaign and perfect arrangements for stimulating interest in the clean-up and paint-up plans. The executive committee and chairmen of the different subcommittees consist of:

Mayor Key, honorary chairman; Cator Woolford, general chairman; W. T. Perkerson, treasurer, and George West, secretary.

Committees Named. Subcommittees include: Publicity, Evan P. Howell, chairman; finance, S. L. Rhorer, chairman; suggestions, Mrs. W. L. Peel, chairman; stunts, Julian Boehm, chairman; program, Mrs. R. M. Striplin; retail stores, Ivan P. Allen; automobiles, C. V. Hobenstet; new buildings, obstruction, E. Graham Williams; speakers' bureau, R. L. Troy; vacant lots, John Gilmore; grocery stores and markets, J. H. Bullock; questionnaire, A. A. Jameson.

Forestry, W. J. Rudland; street signs and markers, P. Thornton; Marye; churches, M. M. Davies; moving pictures, Willard Patterson; fire hazards, Chief Cody; streets and sidewalks, H. L. Collier; alley and backyards, Chief Jentzen; reporting places of filth, Chief Beavers.

Health laws, Dr. J. P. Kennedy; plantine trees, shrubs and flowers, Dave Gillespie; employment, Evan P. Howell; factories, W. E. Hixon; field workers, Miss Margaret Williams, Miss Mary Dickerson and Miss Edith Thompson; office buildings, W. A. Jones; drug stores, D. G. Wise; animals, R. E. White; institutions, E. R. Craighead; hotels and restaurants, Miss Nell Kendrick, Miss Mary Mendenhall and L. F. Wilson.

CONFIDENCE IN GEORGE IS VOTED BY COMMONS. Continued from first page.

not be rescued from chaos until peace and co-operation with Russia have been restored.

The second was that the reparations owed by Germany must be collected, but if the allies insist at the present time upon payments "beyond the power of a war-exhausted country, it would precipitate a crisis which by no means would be confined to Germany."

Spoke Hour and Half. The premier spoke for an hour and twenty-five minutes. He appealed for national support of his international doctrines and the approval of the commons not only of his Geneva program but of the entire foreign and domestic policy of his government.

Early in his speech Lloyd George made it plain that if his resolution supporting the Geneva plan were defeated, he would consider it a vote of lack of confidence in the government.

Of particular significance, later on in his address, was the premier's description of the continuance of military menaces in Europe, linked with economic demoralization and the destruction of "international trade machinery."

"It is as if a bomb had been thrown into it, shattering the whole commerce between certain countries," he declared, "reducing it to zero. It is thousands of years ago. Vast areas upon which Europe has hitherto depended for a large proportion of her food supplies and raw materials, have been destroyed for all purposes of commerce."

Armies Ready to March. "Instead of co-operating to restore it," he continued, "the nations have broken it still further. Great armies are ready to march. Nations already burdened by taxation have to bear the additional taxation which the maintenance of these great armies renders necessary."

The Geneva conference was summoned to examine the best methods of restoring order from this welter.

This phase of the premier's speech was particularly striking in that it indicated once more Lloyd George's hope that a movement for the reduction of European land armaments is still fixed in his mind in spite of France's determination to exclude it from the discussions at Geneva.

Denying that fresh limitations upon the scope of the conference had been imposed at Boulogne, the premier said that whatever limitations existed were fair and just. He did not believe that the Geneva convention could properly consider revision of the existing treaties, even if revision might be desirable. Alteration of the treaties, he declared, would not wipe out the reparations situation, but would merely transfer the burden from Germany to France. And if Germany does not pay France, Great Britain must.

On Reparations. The reparations issue, the premier declared, was not responsible for the economic disorganization of Europe. There was, however, two considerations which must be borne in mind. The first is the danger of pressing Germany before she has recuperated. The second is that Germany's ultimate capacity to pay must not be judged by the present, when she is struggling to recover her economic balance. These considerations, he added, will not be dealt with at Geneva.

"They will be judged through the machinery of the treaty," which is very elastic," he continued. "France will not forego the right she has won at so much cost, to have an adjudication in accordance with the treaty. I do not believe it would be fair to ask her to forego that right."

He would certainly not expect, the premier added, that France would submit to the judgment of a conference in which not only her former enemies but some of the neutrals whose wartime sympathies were "doubtful" were present.

Russian Problem. Lloyd George entered the Russian phase of his speech by reviewing the terms upon which commercial relations were re-established between Great Britain and the soviet government. He indicated that if Russia complied with these terms, they would be embodied in a formal peace agreement which would be submitted to the house for common ratification. There will be no recognition of Russia, however, until the commons fully approves the step.

This involves, the premier pointed out, a period of probation for the Moscow government. In the meantime, the character of diplomatic intercourse with Russia will depend "not merely upon conditions Russia is prepared to accept, but upon actual proof of her good faith."

If the agreement is ratified, Lloyd George said, a course similar to that with Germany after the signing of the peace treaty would be pursued, carrying the actual resumption of re-

lations through several stages. The soviet will first send a charge d'affaires to act in her interests, but without full ceremonial "until we receive the necessary guarantees, not merely on paper, but in practice."

Only Alternative. Such an arrangement, he argued, would create a new outlook on the trade situation. The only alternative to dealing with the Moscow government in this fashion, he added, was to wait for a new Russian government.

"I have heard predictions every year that the soviet government is coming to an end," Lloyd George declared. "Is anyone here ready to risk his political reputation upon the prediction that 1922 or even 1923 will see the last of it? The world cannot afford to wait."

If the soviet government should disappear, he added, a worse government might succeed—perhaps a militaristic government which would embroil all Europe.

Under the community of nations once more, Russia "must recognize all the conditions imposed upon and accepted by civilized communities." He also laid down the principle that Russia's neighbors must agree not to attack the soviet.

Sufficiently Firm. Lloyd George's review of the Russian situation, while emphasizing the imperative need of readmitting Russia to international intercourse, both for the sake of general European economic welfare and to enable Germany to revive through Russian trade and thus be better able to pay the reparations bill, is considered sufficiently firm as well as to dispel the criticism of the premier's opponents who charge that he has "rushed headlong into recognition."

The fact that the premier even expressed sympathy with the French attitude towards the soviet resulting from the knowledge that millions of Frenchmen's savings invested in Russian securities before the war have been lost, is also one of the significant phases of Lloyd George's address.

Summed up, it was a preliminary notice to Moscow of what her representatives may expect at Geneva, giving Lenin and Trotsky time to decide upon what response they will make before they approach the conference table.

Financial Chaos. Lloyd George delivered an exhaustive outline, buttressed with trade slumps throughout the world, and illustrated the interdependence of all nations by quoting parallel statistics from the finances of various European countries.

Describing the confusion in Austria, he referred to Vienna "where the housewife has to consider whether to pay her bill in the forenoon or afternoon because of the chaos of exchange rates."

One of the first tasks at Geneva, he said, would be the restoration of exchanges.

"But above all, it is essential," he continued, "that there should be real peace between nations. Until that is established the trader and the financier will lack the necessary nerve. This leads, perhaps, to the most controversial part of the issues at the Geneva conference—that is, peace in Russia and with Russia."

Quotes Lenin. The premier admitted that certain bolshevik actions might excite just anger, but continued that "there are indications of a complete change of attitude in Russia." He then quoted from a recent speech of Lenin, in which the Russian dictator admitted the failure of communism.

"Lenin had the whole country at his disposal," he said, "with all the country's infinite resources. He had great armies which had defeated all enemies. Never has there been a man so completely the dictator over the fortunes of hundreds of millions of people, as he tried his experiment. He says it is a failure, and that its only results have been to injure the very people who were supposed to be its prime beneficiaries—the workmen."

Three-Hour Debate. A debate which lasted more than three hours, followed the introduction of the Clynes amendment, which declared that the government was "incompetent to represent the country at Geneva," and that the Geneva conference itself would be "futile unless it revised the Versailles treaty," which was at the bottom of all present difficulties.

The resolution further charged that Lloyd George was using the Geneva issue for domestic political purposes. Bonar Law supported the general idea of the Geneva conference in a brief speech, but declared that readjustment of European exchanges would be difficult in the absence of the United States from the conference table.

Other speakers pointed out that owing to the chaos in Russia trade with that country would be unprofitable for many years.

Lord Robert Cecil, perhaps the bitterest of the government's opponents, told the commons that "this government's methods of dealing with foreign affairs are worse than those of any British government in history."

William found a pocketbook. But the string jerked it back. It looked like a happy discovery as it lay there on the sidewalk—until the discoverer reached to pick it up. Then the hidden string jerked it away. All William got was disappointment.

That's the way a good many people have found it to be with the comfort and cheer they thought they had secured in tea and coffee. When they came to depend on it—there was a hidden string, and nothing left but disappointment.

The drug, caffeine, in tea and coffee, is a nerve stimulant. Constant stimulation of the nerves often produces rebellion that takes the form of sleeplessness, headaches, irritability, high blood pressure. That's the string to tea and coffee.

Postum, that wholesome and delightful cereal beverage, is completely satisfying and there's no harmful quality whatsoever, to jerk away the comfort which you find in this splendid table drink. Any member of the family may enjoy Postum with any meal—and there will be no after-regrets.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by grocers.

Postum for Health—"There's a Reason" Made by Postum Cereal Co., Inc., Battle Creek, Mich.

"Built Like a Skyscraper"

Climb up to the top! A Shaw-Walker Steel File isn't too proud to be a step-ladder. And there's nothing in a Shaw-Walker to work loose or give way. (From actual photograph.)

SHAW-WALKER STEEL LETTER FILES

BUILT like a skyscraper—with skyscraper uprights, cross-pieces, girders, etc., of channel steel.

Even go skyscrapers one better, because electricwelded into one solid piece. No nuts—no bolts—no rivets—no rods—no screws.

Drawers silent and speedy. Will run 100 years without repair or attention.

Guaranteed the best file you ever used—or your money back.

DON'T SAY UNDERWEAR—SAY MUNSINGWEAR

FOR MEN, WOMEN, CHILDREN AND INFANTS

THERE'S no doubt about it—the sheer beauty, distinctive style and exquisite quality of Munsingwear silk bloomers and vests combine the correct foundation for the slim silhouette of the present mode with that delightful sense of being unusually well groomed—a knowledge that gives you confidence in yourself and your frocks.

The tailored simplicity of the dainty flesh-colored vest appeals instantly to discriminating women. There are no seams to cause discomfort when worn under the corset.

Munsingwear silk bloomers, reinforced for double wear, are fashioned snug at the knee with a trim tailored finish. Their elasticity makes them form-fitting, yet they are roomy enough for comfort. The position of the waistband is not disturbed by stooping or every occasion.

Munsingwear may also be had in union suits of finest quality in all the wanted styles for men, women and children.

Beautify Your Home With C-H Paints and Varnishes

Every one has a right to a beautiful home, and almost any home can be made beautiful with the proper application of COOLEGE HYGRADE Paints and Varnishes.

C-H Varnish Stains (All Colors) For floors, furniture, swings, flower boxes, etc.	Fulton Leads White and Tinted. Best for the Southern Climate.	Southern Home Paint The standard house paint for thirty years.
------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------	--------------------------------------------------------------------------

An attractive booklet, "The House Across the Way," illustrates the value of paint harmony in the home. Ask for free copy and color cards.

If you need a painter, we can recommend a suitable man for any job.

TEACHERS MEET TO BE HELD IN ROME SATURDAY

Rome, Ga., April 3.—(Special).—A teachers institute will be held next Saturday at the City Auditorium to which not only the teachers of Floyd county are invited, but the public generally. The purpose of the institute is to inform the teachers on the subject of the boll weevil, and especially methods of fighting its destructive activities.

"Gets-It" Relieves Corns in 30 Seconds

Ask Your Friends—They Know

Thousands of people have only themselves to blame for corns, blisters, etc., by using "Gets-It" cut-

ting and paring merely makes a bad matter worse. Millions of others are wise. They know how easily and quickly "Gets-It" relieves and gets rid of corns and blisters off—in one place. Get your money back if it fails. Wear new shoes with comfort. Get a bottle today. Dr. Lawrence & Co., Mr. Chicago. Costs but a trifle—everywhere.

VACUUM TUBE SOCKET FROM SOAP CONTAINER

Unique Device Suggested to
Cut Expenses Closer on
Amateur Set.

BY WILLIAM F. CROSBY.

Among the many beginners in radio will be found a certain percentage of small boys and men who are always willing to make all of their apparatus. Practically every part of a radio set has been described with directions for making it, but there is still one more part that may be built with the very lowest expense. This part is the vacuum tube socket. A good socket may be purchased for a very small sum, yet even this small amount of \$1 for this piece of apparatus is too much for some of the younger element. This socket may be easily made, but care must be taken to see that the contacts are right and that they do not touch each other. Remember the socket may easily cause the burning of the vacuum tube, and care must be taken to see that it is right. The first thing that will be needed will be an old holder from a stick of Colgate's shaving soap. Take a small pair of pliers and bend the end of the tube where the thread is until the thread is straightened out. It will then be found that the vacuum tube will just nicely fit into the opening. This tube will have to be cut off until it is about 12-15 inches long. This cutting can best be done by whittling down a piece of soft pine until it fits snugly inside the metal tube. When this is done it will be very easy to cut the tube, wood and all, with a hack saw. If the wood is not fitted inside the metal tube there will be danger of bending the metal tube all out of shape, and it will be very hard to get it back again.

Making the Base.
The next step after the tube is cut is to get a block of hardwood or bakelite that will serve for the base. This will have to have a hole cut into it that will allow a snug fit for the metal tube. This tube should be glued into the base so that it will not turn. This may be accomplished with the aid of a good grade of fish glue.

For the contacts small pieces of spring brass should be used. Never use tin, as it has iron in it and there is a certain resistance in iron that will not make the socket quite as efficient. These small pieces of brass should be rather thin, about one eighth of an inch wide. They will have to be drilled at the end so that they may be fastened to the base itself.

Placing the Contacts.
Now take the vacuum tube and hold it so that the little nib on the side faces toward you. When the tube is in this position the two bottom contacts of the tube are the furthest away from you are the two filament contacts. Of the other two filament contacts, the one to the left is the plate, and the one on the right is the grid. To check yourself up on this, take one dry battery and touch the two bottom leads to it and see that the filament lights. Make sure that the contacts are right because if they get mixed up, the tube is very apt to get burned up. When connecting the socket up for the first time, connect the six-volt battery first and then try out the filament. When you are sure that it is right, connect the tube into the circuit in the usual way, but do not connect the B battery until you are absolutely certain.

The little metal nib on the side of the base of the vacuum tube is called the bayonet and, in order to make the tube stay in the socket, it will be necessary to cut a slot in the side of the metal tube. This slot should be cut with a hack saw for the down stroke, and several small holes may be drilled for the horizontal stroke. These holes have to be very close together and the rough edge may be finished off with a very small file. When the slot is finished it should be in the form of an L. It will be best to again place the wood form inside the metal tube for this cutting so that the tube will not become bent.

The base should now be drilled with four holes, one at each corner, so that the brass contact strips may be fastened in place. Get four brass strips. When you are sure that the filament terminals are right, it will be best to mark the base in such a way that you may easily distinguish the different binding posts. The contacts may have to be bent so that good connection is made with the tube electrodes, but this may be easily accomplished by inserting the tube in the socket and actually trying it. Take time for the job and above all be sure that you have the leads right before lighting the filament. The B battery through the filament will burn the tube out instantly.

**SPARKS BAND GIVES
CONCERT BY WIRELESS**
Three Long Selections Presented Over WGM by Circus Musicians.

While the spaces of the City Auditorium reverberated last night with the blare of brass, hundreds of probably thousands of radio amateurs in a large area of which Atlanta is the center received a concert of specially selected music by Sparks' Circus band. The circus is here for two days in connection with festivities being held by Yvonne Temple.

Although the public at large could not attend the concert because the floor of the Auditorium is being replaced, the band had one of the largest audiences it has ever had. Out in different parts of Atlanta and in territory within a radius of hundreds of miles radio enthusiasts were tuned in to WGM, the station broadcasting for The Atlanta Constitution.

The band gave its program at 6 o'clock just before going to the show grounds for the evening performance of the circus.

FIFTEEN MINUTES OF RADIO EACH DAY

BY EDWARD N. DAVIS
Formerly Technical Electrical Expert for United States Government

Lesson No. 7.

THE ALTERNATING CURRENT GENERATOR.

For marine installations, in the operation of radio communication from ship to shore, the alternating current generator is in general use as a source of electrical energy. When installed on a vessel, it is usually mechanically rotated, by being coupled to a motor, and converts this mechanical energy into electrical energy for use in the operation of the radio transmitter. The method by which the alternating current generator develops electrical energy will be explained in this lesson.

When a coil of wire revolves in a magnetic field, of constant strength, and the lines of force through the coil increase or decrease at a uniform rate, an electrical current is induced in the coil. The amount of this induced current depends upon the rapidity of rotation of the coil, and the strength of the magnetic field through which it cuts. The current in the revolving coil flows in one direction, during half a revolution through the magnetic field and in the reverse direction during the other half revolution. In other words, an alternating current is developed by the revolution of this closed coil of wire in the magnetic field. In its simplest form an alternating current generator is shown in diagram 1, where a single coil revolves in the magnetic field established by the magnetic poles (N) and (S).

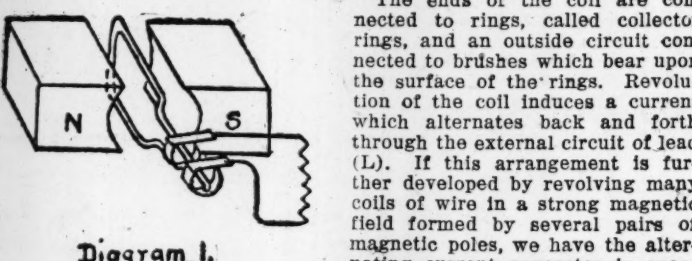

Diagram 1.

The following diagram 2 shows the essential features of a four-pole alternating current generator.

In this generator a strong magnetic field is produced by the four field poles (N), (S), (N), (S), each of which consists of a coil of wire wound around an iron core which is bolted to the iron frame of the generator. Direct current, from an outside source (DC) usually at a pressure of 110 volts, flows through these coils of wire wound in opposite directions so that adjoining field poles have an alternating north and south polarity. The amount of current passing through these coils, from the outside source, is regulated by a variable resistance (R) included in the circuit. This resistance is commonly known as a field rheostat.

The flow of current through the field coil is accompanied by magnetic lines of force or magnetic flux which follows the path shown by the dotted lines and in a direction indicated by the arrows from a field pole of north polarity to an adjacent pole of south polarity. In place of the single coil shown in the previous elementary diagram we now have a revolving element (A) commonly known as the armature, consisting of many coils of wire wound longitudinally on a cylindrical core constructed of thin sheets of soft iron fastened firmly together. Proper connection of these coils causes the pressure generated in one coil to be added to that generated in the adjacent coil and the induced currents to flow, at any given moment in the same general direction. The resultant induced current is alternating in character and is collected by the brushes in contact with the collector rings (C) and (C') from which it flows to the external load (AC).

The pressure usually generated for the purpose of the radio transmitter varies from 110 to 500 volts.

(Copyright, 1922, for The Constitution.)

may easily distinguish the different binding posts. The contacts may have to be bent so that good connection is made with the tube electrodes, but this may be easily accomplished by inserting the tube in the socket and actually trying it. Take time for the job and above all be sure that you have the leads right before lighting the filament. The B battery through the filament will burn the tube out instantly.

**SPARKS BAND GIVES
CONCERT BY WIRELESS**
Three Long Selections Presented Over WGM by Circus Musicians.

While the spaces of the City Auditorium reverberated last night with the blare of brass, hundreds of probably thousands of radio amateurs in a large area of which Atlanta is the center received a concert of specially selected music by Sparks' Circus band. The circus is here for two days in connection with festivities being held by Yvonne Temple.

Although the public at large could not attend the concert because the floor of the Auditorium is being replaced, the band had one of the largest audiences it has ever had. Out in different parts of Atlanta and in territory within a radius of hundreds of miles radio enthusiasts were tuned in to WGM, the station broadcasting for The Atlanta Constitution.

The band gave its program at 6 o'clock just before going to the show grounds for the evening performance of the circus.

Only three selections were played but each of these was so long that it took nearly thirty minutes to present all of them. The band opened with "Crimson Plume," by DuBie; next played "The Mill in the Forest," by Eljensberg, a selection of soft harmonies, and finished its concert with John Philip Sousa's martial air, "The Stars and Stripes Forever."

Under the direction of Jack Phillips, conductor of the Sparks circus musical organization, the band was at its best. The band this year is one of the best bands to ever appear here with a circus. Consisting of about 20 pieces it is an organization of men who know band music.

**MISS LOUISE STEPHENS
DIES IN GAINESVILLE**

Gainesville, Ga., April 3.—(Special).—The death of Miss Louise Stephens, daughter of Mr. and Mrs. J. H. Stephens, of Young Harris, occurred Sunday at the home of her sister, Mrs. Herbert Tabor.

Funeral and interment were held at Young Harris today and a number of Gainesville people attended. Miss Stephens graduated last year from Young Harris college and her term's work as teacher of Laurel Hill school, near Gainesville, where she was a great favorite, was finished only a week ago. She was seriously ill only a few hours.

**DATE FOR CONFEDERATE
REUNION IS ANNOUNCED**

A. J. Twigg, commander of the Georgia division of Confederate Veterans, announced in a general order Monday that the state reunion would take place in Rome September 21 and 22.

"I am advised that extensive plans for our comfort and entertainment are in progress," said the order. "With this notice so far in advance, I sincerely hope that every veteran and his family will be able to attend."

BATTERY REQUIREMENT IN RADIO RECEIVING

Each Vacuum Tube Draws
About One Ampere.—Amplifier Draws Heavily.

The Constitution radio department

has received quite a few letters asking how long a storage battery will go before recharging. This all depends on the length of time that the set is used. Each vacuum tube draws about one ampere, and if a six-volt, sixty-ampere-hour battery is used, the battery will go sixty hours continuously before it has to be recharged. If a two-step amplifier is used, the total consumption of current, including the detector, will come to three amperes. This will mean that the battery will only go about twenty hours, before recharging. Of course, the higher the ampere-hour rating of the battery, the longer the battery will last.

Another form of inquiry requests information relative to the care of the battery. If the battery is left for several months fully charged, the plates are very apt to become sulphated and ruin the battery. The battery should never be allowed to stand fully discharged, as this will also injure it. The best way to do, if the owner intends to leave the battery for a month or more, is to take it to some battery service station where, for a very small sum, the battery will be kept in good condition. Never allow the solution in the battery to get below the level of the plates, as this is also injurious. A bottle of distilled water should be kept on hand so that the battery may be refilled at any time. Never add any acid to the battery.

HEARS WGM WELL 15 MILES AWAY ON CRYSTAL SET

Millard Anderson, who resides 15 miles from Atlanta, on the Marietta car line, writes to the radio department of the Constitution that he is hearing the concerts from WGM well on a crystal detector set.

His letter is as follows:
"Radio Editor: I have been enjoying your concerts and broadcasting ever since you started. There are all great.
"You might be surprised to know that I get your QSA on a crystal detector set. I live 15 miles from Atlanta, on the Marietta car line.
"My outfit consists of an aerial 100 feet long and 30 feet high. The ground uses one iron pipe 5 feet long, and a 5-foot square of chicken wire buried directly under the aerial. I am now using a 300m loose coupler, Jone detector, phone-condenser and Murdock 23-plate variable condenser.
"Taking this chance to thank you personally for your service, and also to congratulate you. I am yours very truly,
"MILLARD ANDERSON."

WIRELESS IS PLANNED BY ATHENS HOTEL

Athens, Ga., April 3.—(Special).—The Georgian hotel has ordered a radio outfit and will install a station in the lobby of the hotel within a few weeks—this is as soon as the outfit comes, Mr. Cannon, the manager of the hotel, announced Friday.

The receiving station is to be installed in the lobby of the hotel and the ground uses one iron pipe 5 feet long, and a 5-foot square of chicken wire buried directly under the aerial. I am now using a 300m loose coupler, Jone detector, phone-condenser and Murdock 23-plate variable condenser.

**"Let's get out
a poor catalog"**
NOBODY in the world ever urged poor printing in so many words.

Yet, every day, some buyer of printing tries to pound some printer down another notch on his price. Every day somebody tries to buy paper for his catalog with the same speculative zeal with which he would try to beat the market on oil stock or wheat futures.

All that amounts to saying, "Let's get out a poor catalog."

When business is dull, you expect more of your printed advertising—your booklets, circulars, catalogs. Warren's Standard Printing Papers, being better paper, will give you better printing.

Your printer will tell you that this is so.

There are twelve Warren's Standard Printing Papers. These grades cover practically the entire field of book paper printing. Printers and buyers of printing who consistently seek better printing will have no difficulty in securing prompt service through us.

Another Theory Gone.

(From The Boston Transcript.)
Says an exchange: "Plants utilize in food making less than 1 per cent of the sunshine they receive." This information amazes us. We had an idea that nature was thoroughly efficient.

Consult the new directory before making a call. Destroy the old book. If you have not received your new directory, call Ivy 13000 and ask for Directory Delivery Clerk.

Not Her Fault But why not keep teeth white?

Does your dentist ever show you the film-coats on your teeth? His vigorous polishing is largely done to remove them.
Millions find that these film-coats form despite the daily brushing. But now there's a way to combat that film, and we offer you a test.

What film does
Film starts as a viscous coat. You can feel it now. It clings to teeth, enters crevices and stays. It absorbs stains, making the teeth look dingy. It forms the basis of tartar. Thus the luster of the teeth is kept dimmed.

Film holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed in film, and they, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film. They are due to the fact that old ways of brushing do not effectively combat it.

The new-day way
Dental science, after long research, has found two ways to fight film. Careful tests have amply proved them. Now leading dentists, here and abroad, advise their daily use.

Pepsodent
The New-Day Dentifrice
A scientific film combater, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The test will be a revelation. It has brought to millions a new era in teeth cleaning. Learn what it means to you.

Cator Woolford Appeals For Help of All Atlanta

Calling upon every man, woman and child of both races in Atlanta to co-operate in making Atlanta a clean, beautiful and sanitary place, Cator Woolford, general chairman of the Atlanta Clean-Up and Paint-Up campaign for 1922, issued the following appeal Monday:

As chairman of the committee in charge of the clean-up campaign for Atlanta, which began the 25th of March and will end the 25th of April, I want to issue an appeal to every man and woman and child in Atlanta to do his or her part to make this the most successful clean-up campaign that this city or any other city has ever had. There is a part that everyone can do and it is only through everyone doing his part that we can ever hope to make it the success we want it to be.

The civic organizations of the city are loyally supporting the movement. The different departments of the city government are interested in the extra work, which the campaign will entail; the committee in charge have their plans made and going. But, it is realized that the success of the campaign revolves around the individual.

Think what it would mean if every individual home owner and landlord in Atlanta would decide to paint up every yard, mend broken fences, cement driveways, where needed, mend roofs, plant shrubbery and trees, and, in fact, do all the little things that should be done around our homes.

just to make them clean and attractive places to live in.

General Health Improved. By cleaning up the houses, yards, and alleys, removing trash, etc., the general health of the people is improved and the fire hazard is reduced as well. Painting the houses, painting the shrubs and trees beautify our city.

Atlanta, as we all know, is known as a clean city. Their cities are kept nice and clean. What other cities can do Atlanta can do.

Atlanta, as we all know, is known as a clean city. Their cities are kept nice and clean. What other cities can do Atlanta can do.

Through this campaign let's make our city the most healthy and most beautiful throughout the country: one that visitors will admire and tell others about.

PLANS COMPLETED BY ARARAT GROTTO FOR GREAT BALL

Members of Ararat Grotto have completed plans for a big jolly night Wednesday at the Auditorium, when a masked ball will be given under the auspices of the grotto for the benefit of the Home for the Friendless. All arrangements for the ball have been completed, according to an announcement made Monday by the entertainment committee.

Prizes have been obtained to be given to the men and women who appear in the most original costumes. Judges will be on hand to review the dancers and to award the prizes. An excellent orchestra has been engaged and several vaudeville acts will be presented. It was announced Monday that seats have been provided for spectators who do not care to dance, but who would like to watch the dancers. The masked ball is open to the general public, and ladies will be admitted free.

W. T. COLLINS IS LAID TO REST IN WEST VIEW

Funeral services for W. T. Collins were held Monday afternoon at the chapel of Harry G. Poole, followed by interment in West View cemetery. The services were conducted by Rev. Elder Spire, of the Seventh Day Adventist church and were largely attended by members of Atlanta Typographical union and the Eagles, together with many friends. The floral offerings were many and among them being a handsome design from the printing department of The Atlanta Constitution, where Mr. Collins had been employed for about fifteen years. The pallbearers were members of the typographical union.

GOLDBERG SURRENDERS ON SHOOTING CHARGE

Sam Goldberg, who gives his address as 216 West Poplar street, Griffin, who was wanted by the city detectives for shooting Roy Garner, a negro, at the corner of Clarke and Washington streets, Sunday night, gave himself up at police headquarters Monday afternoon, and was released under a \$1,000 bond.

FUNERAL OF BEANE TAKES PLACE TODAY

Joseph Sanborn Beane, aged 37, died at a private hospital Sunday night. Mr. Beane was a graduate of the Georgia School of Technology and a member of the A. T. O. fraternity. He was born in New Orleans, La., and for the past few years had been a resident of Augusta, Ga., and is survived by his mother, Mrs. Nannie M. Beane, and one sister, Mrs. W. H. Paxton. The funeral will take place at the residence of his sister at No. 26 Bonaventure avenue, on Tuesday morning at 10 o'clock. Rev. W. W. Memminger, of the All Saints' Episcopal church, officiating.

SOUTHEASTERN COAL MEN TO MEET APRIL 10

Discussion of various questions relating to the coal industry will be heard at the first annual convention of the Southeastern Coal Merchants' association, which is to be held at the Ansley hotel roof garden on April 10-11.

President J. A. Yarbrough, of Charlotte, N. C., will preside. The program of speeches will begin at 2 o'clock on the afternoon of Monday, April 10, and the following morning will be occupied with sessions. Tuesday afternoon a business session will be held.

Governor Hardwick, Mayor Key and President Foote, of the chamber of commerce, will be among the speakers. Others will be J. D. A. Morrow, vice president of the American Coal association, representing the coal operators of the nation; George Cushing, managing director of the American Wholesale Coal association, representing the wholesalers; and Rodrick Stephens, president of the National Retail Coal Merchants' association, representing the retailers.

Entire Jury List Challenged For Lack of Women

Wanigan, Ill., April 3.—(By the Associated Press.)—Governor Len Small today demanded that women sit on the jury which is to try him on charges of conspiracy to embezzle state funds. Through his attorneys he challenged the entire jury list of Lake county because only men had been called.

NAME COMMITTEE FOR COMPILATION OF LABOR DATA

Members of the national committee, which have been selected by Roger W. Babson to compile statistics as to the relative efficiency of labor in various sections of the country, have been named, as learned from a letter received by B. S. Barker, secretary of the Atlanta Chamber of Commerce, from Mr. Babson, Monday. Atlanta had the signal distinction conferred upon it as the only city in the south to be represented on the committee, of which there are five members. Paul H. Norcross, prominent Atlanta consulting engineer, was named as one of the five members of the committee, by Mr. Babson, while the latter was in the city recently. During his stay in Atlanta, Mr. Babson addressed a large gathering of citizens at a forum luncheon in the Chamber of Commerce building. The persons named to compose the committee are as follows: Ethelbert Stewart, chairman, commissioner general of the United States bureau of labor statistics, Washington, D. C.; Major Theodore F. Lait, Chicago; Paul H. Norcross, Atlanta; Captain Boyd Fisher, Boston; J. F. Cleemann, New Orleans; George E. MacLellan, Wellesley Hills, Mass., secretary.

PILCHER REFUNDS PART OF SALARY TO DECATUR BOARD

Decatur, Ga., April 3.—(Special.)—At a meeting of the board of commissioners tonight, a letter from former City Manager P. P. Pilcher, who now is in Florida, containing a check for \$106.45 was received and accepted. The former manager's resignation was to have taken effect March 31, but in accepting a new position he was compelled to leave on March 20. The commission granted Mr. Pilcher a two weeks' vacation but in submitting his resignation, he had stated that in case he was called away before March 31, he would refund a portion of his salary, keeping only that which covered his active service with the city. The board passed a resolution extending the commission's best wishes to him in his new position. The name of Hopkins street was changed to Mead road, and other minor details given attention. The commission held its regular meeting Friday night. At this time, the new commission will be sworn into office.

ROMANS ATTEND WELFARE MEETING

Rome, Ga., April 3.—(Special.)—A number of leading Romans are but Cartersville today attending the northwest Georgia conference for discussion of the welfare, social and child problems of this section. Among those who went are Mrs. Beattie Maitland Lawrence, probation officer of the juvenile court; Mrs. Beattie Troutman, Mrs. Ben C. Yancy, Mrs. Luke McDonald, Mrs. Annie Freeman Johnson, Judge Moses Wright, James Maddox, Captain and Mrs. C. W. Cudd, of the Salvation Army.

HOUSE ELIMINATES FREE SEED MONEY

Washington, April 3.—The agricultural appropriation bill, carrying \$35,805,000, but without the item of \$380,000 for free seeds, was reported today to the senate. As turned over to the senate the measure is \$116,300 larger than as it passed the house. Included in the items added by the senate were appropriations of \$298,000 for investigation of the disease of tuberculosis among animals and \$52,000 for the investigation and improvement of cereals. The bureau of agricultural economics was given \$47,000 for the collection and publication of statements on agriculture, including livestock.

INHERITANCE TAX PAID ON SPALDING ESTATE

Heirs to the late Mrs. Anne Spalding, widow of B. D. Spalding, wealthy Atlantian, paid to W. S. Richardson, county and state tax collector, Monday, \$20,711.47, as inheritance tax. Hughes Spalding, of the law firm of Spalding, McDonald and Sibley, and the Atlanta Trust company, executor of the estate, signed the checks, which covered the various taxes.

The list of nineteen heirs and the amount of tax paid by each is as follows: Hettie Spalding, \$2,500; Mary Rose Mitchell, \$70; Lillie Lancaster, \$70; Catherine Lancaster, \$70; Ellen Keilenaers, \$70; Robert S. Millett, \$5,161.98; Atlanta Trust company, trustee for Robert S. Millett, \$5,118.98; Mrs. Mary Allie David, \$2,402.75; Mrs. Ellen S. Anderson, \$2,402.75; Mrs. Katherine S. Porter, \$2,402.75; Mrs. Sue Blincoe Boone, \$326.64; Mrs. Cuthbert Blincoe Smith, \$326.64; Miss Regina Blincoe, \$326.64; Miss Katherine Blincoe, \$326.64; Thomas Jackson Blincoe, \$326.64; Mrs. Jane B. Mattingly, Louise Blincoe, \$326.64; Miss Mary Blincoe, \$326.64; Benedict Joseph Blincoe, \$326.64. Total, \$20,711.47.

FREE TREATMENT

For one week only (ending Monday, April 10th,) all who apply will be treated FREE (Laboratory charges for material used excepted). We are making this special free offer at a time when we know it will benefit many sick people. No Other Treatment to Compare With It.

We are frequently asked what Auto-Serum Therapy will do in cases of Diphtheria, Epithelioma, Goitre, Hay Fever and Asthma. We are thoroughly convinced, from personal observation and from the reports of numerous other physicians, that the sufferer from any of these complaints can be immensely relieved by Auto-Serum treatment, if not completely cured. We are further convinced that there is no other treatment for these diseases that can compare with Auto-Serum Therapy for such troubles.

Studebaker
\$1475
SPECIAL-SIX
Five-passenger, 50-horsepower
119-inch wheelbase
Cord Tires Standard Equipment

NO MATTER what you pay for a car, you won't find greater satisfaction than you can get in the Studebaker SPECIAL-SIX. That's why so many people who buy entirely from the standpoint of satisfaction, drive the SPECIAL-SIX. Satisfaction with a SPECIAL-SIX is due to its dependable chassis, its Studebaker-built body, and the completeness of the equipment. This equipment includes an eight-day clock, one-piece, rain-proof windshield with parking lights in lower corners of windshield base, and windshield wiper. It includes cowl ventilator controlled from dash, tonneau light with extension cord, transmission lock which is operated by same key that locks the tool compartment in the left front door pocket as well as the ignition, and a large rectangular plate glass in the rear curtain. There are many other features that would be considered unusual in cars of much higher price. Let us tell you some other points of SPECIAL-SIX superiority. The mechanical excellence of the SPECIAL-SIX has proved its satisfaction in the hands of thousands of owners. Its 50-horsepower motor provides great resources of smooth flowing power and wonderful flexibility. Its perfected dry-plate disc clutch makes gear shifting quiet and easy. And yet the SPECIAL-SIX is not a costly car. At \$1475, f. o. b. factory, it is a striking value—unapproached by any car of comparable quality.

Touring, \$1475; 2-Pass. Roadster, \$1425; 4-Pass. Roadster, \$1475; Coupe, \$2150; Sedan, \$2350. All prices f. o. b. factory

JAPS TO EVACUATE SIBERIA, REPORTED

Tokio, April 3.—(By the Associated Press.)—Immediate evacuation of Siberia was decided upon at the last meeting of the Japanese cabinet, according to the Tokyo newspapers today.

The Asahi Simbun, in publishing the report, attributes the decision to activity of the reds in the maritime province, which, it says, places the Japanese forces in a position of having to fight the soviet troops or make peace. "In either case Japan would suffer," says the Asahi, "if they fight the situation would become further complicated, if they shake

A HOME-MADE GRAY HAIR REMEDY

You Can Make a Better Gray Hair Remedy Than You Can Buy.

Gray, streaked or faded hair is not only unbecoming, but unnecessary. Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, to small box of Barbo Compound and 1-4 ounce of glycerine.

These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the scalp, is not sticky or greasy and does not rub off.—(adv.)

Modern Methods Save Money

At your stationer's, all next week will be "National Loose Leaf Week." Go in and let him show you the many time-saving, expense-reducing items in his stock of National Loose Leaf Devices and Supplies.

Ledgers, binders, ring books, memo books, forms—everything required for up-to-date record-keeping methods.

hands, the maintenance of troops there for the past five years loses its significance.

The Asahi alleges that the representatives at Dairen have been notified of Japan's intention to evacuate.

Patrolman Killed While Crowds Watch Five Bandits at Work

Chicago, April 3.—While scores of persons helplessly watched, five automobile bandits tonight shot and killed a patrolman, probably fatally wounded a bank messenger and escaped with a satchel containing \$20,000 which the two were carrying.

The holdup occurred on a brightly lighted street in front of the Calumet National bank in the heart of South Chicago business district. The robbers made no effort at concealment and paid no attention to the crowds. The two victims, Patrolman Ernest H. Cassidy and Philip Somers, were taking the week's collections of the Royal Building and Loan association to the bank. As they were about to enter the bank a large automobile containing five men, drew up. While one remained at the wheel, the four others leaped out and with pistols in their hands, halted the two.

Patrolman Cassidy reached for his pistol, but the robbers opened fire, shooting him through the head. His weapon, half drawn, fell from his pocket. At the same time Somers drew his pistol, but before he could fire he had been shot through the abdomen. The robbers then seized the satchel and fled.

AUTO CRASH FATAL TO OFFICER'S WIFE

Newport News, Va., April 3.—Mrs. Mary McCauley Behrens, wife of Captain Henry Behrens, died today in a hospital at Fort Monroe as the result of injuries sustained when an automobile in which she was riding crashed into a telegraph pole near Hampton about 1 o'clock this morning.

The machine was driven by Major Pitt, a friend of Behrens' family, it was said. He and Mrs. Behrens were returning from Camp Eustis, where they had been to visit friends.

Although the accident occurred on the county road, Mrs. Behrens died at the Fort reservation, and civil authorities are not certain at this time as to who will conduct an inquest.

Major Pitt says the automobile wheels caught in the street car tracks and the car skidded, bringing up against the pole. The engine was smashed in and the wheels clipped off. The major escaped with minor injuries.

BONUS BILL OPPOSED BY FRELINGHUYSEN

Washington, April 3.—Opposition to the house soldiers' bonus bill was announced today by Senator Frelinghuysen, of New Jersey, a republican member of the finance committee, to which the bill has been referred. Failure of the house bill to provide means to meet its burden was the basis of Senator Frelinghuysen's objection.

"Congress, in distributing so large a public fund," said the New Jersey senator, "owes it to itself and to the country to make a provision for raising that fund. The certificate plan for a cash bonus is, in my opinion, unsound and unsafe, and therefore I cannot vote for the measure."

Another Reason For Clean-Up Drive

Another eyecore which will be reached by the Clean-up crusaders in their war on filth. This photograph was made in the rear of one of Atlanta's recent business structures, showing what was left unmoved after the building was completed. (Photo by Francis E. Price, The Constitution's staff photographer).

Church Treasures Taken by Soviet To Aid Starving

Moscow, April 3.—(By the Associated Press.)—The requisitioning of church treasures is in full swing throughout Russia, but under the tenuous circumstances. From ten provinces there already have been collected 70 pounds of gold and 17,820 pounds of silver.

From six churches in the outlying districts of Moscow requisitioning parties on Sunday secured \$3,322 pounds of silver, a quantity of gold and 24 diamonds. Two synagogues yielded 71 pounds of silver and two articles of gold. In one synagogue the custodians were arrested because ten valuable articles that had been listed were missing.

Up to March 13, churches in the government of Viatska had yielded 213 pounds, or about 4,500 karats, of diamonds, and nearly 10 pounds of pearls and other jewels.

The central committee of the Moscow province communist party has ordered every communist to surrender all gold, silver and jewels, with the exception of bolshevik decorations, for the benefit of the famine stricken people.

The soviet government has begun, in the presence of Bishop Antonin, to smelt the gold and silver which has been confiscated. The famine committee has asked the government to advance 1,000,000 gold rubles against the valuables already secured, in order that it may purchase bread abroad.

There has been some rioting, but generally no active resistance to actual seizures has occurred. The Izvestia says today that a collision between a requisitioning party and church members has taken place at Smolensk, and that there were some casualties. Another newspaper reports a conflict between "old women and soldiers" at one of the Moscow churches Sunday.

While gold, silver and jewels are pouring in from all sides on the famine committee, the Pravda and the Izvestia in editorial columns this application of the same stringent methods which are used on counter revolutionaries to the princes of the church and other persons who are said to be directly opposing the requisitioning.

TO OPEN BIDS FOR NEW COURTHOUSE

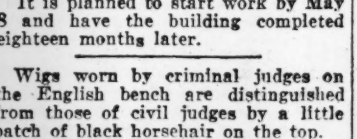

Macon, Ga., April 3.—(Special.)—Bids for the erection of Bibb county new courthouse and jail will be opened tomorrow morning and it is expected that the contract will be awarded during the day.

Approximately \$400,000 will be expended in the work, bonds having been sold for that purpose several years ago, but because of the high price of material and labor shortage during the war the work was delayed.

The new courthouse will be erected on the site of the present building at Mulberry and Second streets. Portions of the present building will be utilized. The jail will be located on the top floor of the building.

It is planned to start work by May 8 and have the building completed eighteen months later.

Wigs worn by criminal judges on the English bench are distinguished from those of civil judges by a little patch of black horsehair on the top.

Why She Went to Bed Broken-Hearted

HER evening was ruined. She felt that she could never face her friends again—never. She had overheard only a few words—but they were enough. It was about—her breath.

She was stunned. For she never even suspected that she was guilty of such a mistake. But it is a fact that not one in ten afflicted with unpleasant breath are aware of it. And it is a subject so delicate that not even our dearest friends would mention it to us.

Ordinary mouth washes are of little value in treating this disagreeable condition. To be on the safe side it is necessary to use a preparation such as Steroline, which overcomes most cases of bad breath instantly. Steroline is a highly antiseptic liquid, mild and pleasing to the taste. Used morning and evening will keep the mouth cool, sweet and free from any trace of mouth odor. Be on the safe side—get Steroline from your druggist today. 50c a bottle.

RAILROAD TRAFFIC STOPPED BY FIRE

Sapulpa, Okla., April 3.—All traffic on the St. Louis and San Francisco railroad from Tulsa to Oklahoma City was stopped this afternoon when a fourth oil tank at the Sapulpa Refining company near here caught fire. More than 200,000 barrels of oil, spread over a large area, are burning, and additional storage tanks are in danger.

TESTIMONY EXCLUDED IN ARBUCKLE CASE

San Francisco, April 3.—The entire deposition of Dr. Samuel Seabury (Graves), of Chicago, was excluded from the record of the third manslaughter trial of Roscoe C. (Fatty) Arbuckle today after a long argument between counsel. A portion of the deposition had been read in the court.

Dr. Graves' statement was held by Judge Harold Louderbeck to be of no value because the physician could not be absolutely certain that a woman he treated about ten years ago was really Virginia Rappe, movie actress.

The court also abbreviated the admitted portion of the sworn statement of Dr. Paul R. Hirschman, of Chicago. Only about 10 per cent of his allegation was allowed in evidence. In fact he declared he had met Miss Rappe when she lived in Chicago and had seen her double up with pain after taking several drinks.

Mrs. Helen Adelina Whitehurst, of Chicago, repudiated that portion of her deposition previously taken, in which she was reported to have stated that Miss Rappe had been seized with attacks at her home on several occasions. She said the seizures occurred only twice.

Nurse Collapses For Second Time At Murder Trial

New York, April 3.—Miss Olivia M. P. Stone, graduate nurse, collapsed on the stand today for the second time since she went on trial in Brooklyn charged with the murder of Ellis G. Kinkead, former corporation counsel of Cincinnati. Although she was revived, physicians said she was in no condition to stand the strain and court was adjourned until tomorrow.

United States Attorney James J. Clark, of Cincinnati, was on the stand when Miss Stone fainted. In spite of her persistent denial that she had never seen him, Mr. Clark asserted she had come into his office in 1919 to ask for a warrant for the arrest of Kinkead under the Mann act. Three Cincinnati detectives and assistant in Clark's office will be called tomorrow.

Miss Stone several times interrupted Clark's testimony, shouting that he was not telling the truth. Warned to keep still, she kept murmuring under her breath. Finally, while reaching for a glass of water, she fainted.

Dr. Annette M. Ralston, of Brooklyn, a specialist on women's diseases, who said a "temporary explosion" in Miss Stone's brain probably was responsible for the shooting, on cross-examination testified that, although Miss Stone years ago, but because of the high price of material and labor shortage during the war the work was delayed.

\$35,000 Salaries Refused by House To Four Officials

Washington, April 3.—The house put its foot down firmly on a proposed today to pay salaries of \$35,000 to four shipping board officials, refusing by a unanimous vote to approve the conference report on the independent offices appropriation bill which would have authorized payment during the coming fiscal year of salaries of between \$11,000 and \$25,000 to six employees in addition to the four who would receive \$35,000.

The rejected limitation had been agreed to by the house and senate conferees as a compromise between a house provision that six officials could be paid between \$11,000 and \$25,000 but none over \$25,000, and a senate amendment authorizing salaries in excess of \$11,000 with no maximum stipulated for not more than thirteen officials.

After a round of criticism of the compromise limitation the conference report was recommitted to the house managers with instructions to insist on a provision that no salaries in excess of \$25,000 be authorized. Representative Walsh, republican, Massachusetts, who was the chairman of the committee which investigated shipping board affairs after the close of the war, and Representative Mann, republican, Illinois, proposed recommitment of the report.

Democrats failed by a 2 to 1 vote in an attempt to have the conference instructed to hold out against any provision which failed to specify how many employees were to receive more than \$11,000 a year.

Representative Harrison, democrat, Virginia, told the house he had refused as a conferee to sign the conference report because of his objection to the agreement as to salaries.

Representative Bryan, ranking democrat on the appropriations committee, also criticized the salaries compromise.

"Electricity Trust" Blamed for Battle Against Henry Ford

Attempts are being made by the "electricity trust" to prevent the Ford development proposal from being accepted, according to Edgar Howard, editor of The Columbus (Neb.) Daily Telegraph, former lieutenant governor of his state, who was a visitor in Atlanta Monday.

At a luncheon meeting in his honor, composed of members of the board of directors of the chamber of commerce, and other interested persons, held at 12:30 o'clock in the director's room of the Chamber of Commerce building, Mr. Howard made an address in which he reaffirmed his belief that the Muscle Shoals contract will be awarded to Henry Ford.

"Ford is something more than an individual," he said. "He is a humanitarian of the humanitarianism. He does not care for money, he cares only for the welfare of the people, and in this carries out the precept of that sage of democracy, Thomas Jefferson, who stood for the 'greatest good to the greatest number.'"

Mr. Howard declared that the project is too great for human comprehension, even by one who has been over the grounds and studied the details with care, so immense is the proposed engineering plan.

One of his favorite ideas, he said, is to bring about a better understanding between the citizens of the different states of the country. By sending students on a tour of the United States and publishing a full report from them of conditions existing in other states, he declared, this broad sympathy and useful knowledge of the rest of the 100,000,000 people who make up this great republic could be secured.

He stated that he wished to congratulate Georgia on its cotton pool success. A similar pool of corn in his state, he said, would solve many of the problems confronting the farmers there.

"The cotton pool will secure stability of conditions in the south," he declared. "If the growers can be assured of a fair interest on the money invested in their land, it will not only stabilize cotton growing, but all other industries."

HUMANE SOCIETY WILL HOLD MEETING TODAY

The regular monthly meeting of the Atlanta Humane society will be held at 12:30 o'clock today in the Chamber of Commerce building. In addition to other important business, the society will act upon the resignation of E. R. Crishead, secretary, which was tendered recently.

ATHENS TEACHERS FACE DANGER OF SALARY CUT

Athens, Ga., April 3.—(Special.)—Unless the board of education can work out some other plan at the special meeting set for Tuesday afternoon the tax rate in Athens will have to be raised in order that council may grant the proposed budget of \$137,198 for schools in Athens, an increase of more than \$10,000 over last year's allowance.

Otherwise teachers' salaries will have to be cut.

Housemaids in Sydney, New South Wales, have formed a union with the ultimate objective of having their wages increased from \$12 to \$20 a month.

There are 175,000,000 cells in the lungs, and, spread out, they would cover a surface 30 times greater than the human body.

Bids for Hospital For Negro Veterans To Be Read May 1

Washington, April 3.—Bids for construction of the new hospital for negro veterans at Tuskegee, Ala., will be opened on May 1, it was announced today by Assistant Secretary of the Treasury Clifford. The hospital, which is to cost \$2,250,000, will have a capacity of 500 beds, of which 230 will be for tubercular patients and 270 for shell-shock cases.

Actual work on the new negro hospital, officials said, should be under way by the middle of May, as the contracts for the mechanical equipment and building work on the institution should be let by May 10.

The king of Spain is the only monarch who does not sign his name to documents and edicts. His signature is simply "Yo, el Rey"—"I the king."

SLOAN'S EASES PAIN RELIEVES THE ACHE

TORMENTING, agonizing rheumatic aches are quickly relieved by Sloan's Liniment. Apply it freely, without rubbing and you will feel a comforting sense of warmth and relief.

Good also for rheumatism, sciatica, lumbago, neuralgia, soreness, over-exerted muscles, stiff joints, backache, strains, sprains and weather exposure.

Don't let pain lay you up. Keep Sloan's Liniment handy and at the first sign of an ache or pain, use it. For forty years, Sloan's has been the world's pain and ache liniment. Sloan's Liniment couldn't keep its many thousands of friends if it didn't make good. Ask your neighbor.

At all druggists—35c, 70c, \$1.40.

Why "Clean-Up" Drive Is Necessary

One of the unsightly places in Atlanta which will be reached in the Clean-up and Paint-up campaign begun Monday and extending through April 24. Hundreds of such disease-breeding places and back yards and alleys will be renovated and converted into a presentable appearing state. (Photo by Francis E. Price, The Constitution's staff photographer.)

Weird Concoctions Now Pass as Drinks, Say Dry Chemists

Prohibition Analysts Find
Sea Horses, Tiger Bones,
Etc., in "Medicines."

BY JOHN GLEISSNER,
United News Staff Correspondent.
Washington, April 3.—William V. Linder, chief chemist of the prohibition unit, held up to the light a beer bottle filled with an evil-looking, evil-smelling brownish liquid.

"Look at that," he said, floating about in the liquid was a sea horse. There were other bottles of the same sort, each containing something fully as outlandish as the sea horse. Tiger bones were in one. The products, Linder explained, were much esteemed among Chinese for their reputed medicinal properties. But prohibition agents thought they might also be esteemed because of the large amount of alcohol they contained. So samples found their way into the prohibition unit's laboratories.

Weird Concoctions.
The Chinese medicines are only a small part of the hundreds of weird concoctions that find their way into the laboratories for analysis. When there is a raid, and liquor or suspected liquor is seized, samples go to the government's chemists, where an ex-

amination is made to find out what substances contain.

The laboratory is tucked away on the top floor of the treasury building, and smells like a cross between a barber shop and a hospital. Row on row of bottles of every shape and size, containing liquids of every known color, testify as to the activities of the prohibition agents. Red liquor, moonshine, flavoring extracts, hair tonics, medicines, liniments and every conceivable sort of thing is there.

In a number of miniature stone jugs is a liquid imported from China, claimed by those who sell it to be equally efficacious as an internal or external remedy. But it contains 50 per cent alcohol, and has been rated as a beverage. Chemists explained they were in doubt on this decision, but the writer happened to know their judgment was good. Chinese who were here during the peace conference drank the stuff freely, although it required courage to do it.

Flavoring Extracts.

Rainbow-tinted flavoring extracts were there by the hundreds. All contained large amounts of alcohol, and some of them made excellent substitutes for whiskey. Hair tonics and other toilet preparations likewise were being analyzed. Few of these, however, now contain the grain alcohol that is fit to drink. The government has arranged it so the manufacturers can have denatured alcohol, spoiled for drinking, yet as good as grain alcohol for the toilet preparation. Still the stuff is being drunk, and one shudders to think of what it does to the person who drinks it.

Many samples of moonshine are finding their way into the laboratory at the present time, as good liquor becomes increasingly difficult to obtain. These are examined first for alcoholic content, and then for injurious ingredients. The red liquor is treated the same way. Patent medi-

cines which can be used for drinking purposes now are fewer than formerly, because permits have been greatly restricted. Yet much of the work of the chemists is analyzing alleged medicines.

The chemists find virtually no liquors that are not injurious in some way.

DAIRY CAMPAIGN SUCCESS IN JASPER

Monticello, Ga., April 3.—(Special.)—The dairy campaign conducted in Jasper county last week was a success. Dr. F. W. Fitch, of the state agricultural college, and J. F. Bazemore, of the Central of Georgia railroad, Assistant County Agent Mark S. Womack, promoted the drive.

MARINE IS SUSPECTED IN WOMAN'S DEATH

Norfolk, Va., April 3.—A United States marine is being held under observation at the barracks here in connection with the death of Mrs. Ruth Mercer, whose body was found on the beach at Ocean View yesterday.

No arrest has yet been made, but Norfolk detectives have visited the barracks and after securing a partial identification of him as the man with whom it is claimed the young woman was last seen, it is said, asked that he be not allowed to leave the reservation. His name could not be learned from the police.

Contrary to popular belief, the 110 square miles embraced in the area of Greater London are not owned by a few, but by thousands of landlords—38,200 in all.

Atlanta Mayor Gives Reasons For "Clean-Up"

"The clean up and paint up campaign is based upon three distinct ideas, each wholesome and helpful to the entire community," declared Mayor Key, Monday, in discussing the 1922 drive of the Atlanta Clean-Up and Paint-Up campaign.

"The first is to stir the consciousness of the city," continued the mayor, in appreciating the beautiful attributes of Atlanta. One cannot feel he same pride in an old battered weather-beaten city that he would feel if everything looked fresh, new and lovely. Also as one's pride increases so does one's love and devotion increase. It is easy for a citizen to love a city that appeals to his pride.

"The second is to awaken the community to the value of cleanliness. It has its attractive value, of course, but the value I have in mind is value in 'dollars and cents.' To be clean spells health, strength, efficiency and continuous sustained effort. To be unclean invites disease, sickness, loss of time and effort, increase of expense, unhappiness and sorrow.

"The third is to increase the volume of honest employment. Unemployment to those able and willing to work is a heavy tax which must be paid by the whole community, as payrolls fall off, less money in circulation, less buying and selling goes on. There is a letting up in activities and business everywhere. The man who is out of work is only one of many who suffer on account of it.

"The whole movement appeals to the best that is in us and should have hearty support of every man, woman and child in Atlanta."

For campers a box for shipping supplies has been designed with sides that fold upward to convert it into a table supported by iron legs that form braces when it is closed.

Attempt to Rob Washington Bank Ends in Failure

Washington, April 3.—The Merchants Bank and Trust company, a new institution, opened its doors today within a block of the United States treasury and invited the public to make an inspection of its quarters. Four hours after the doors swung open an unidentified man entered, joined the other guests, but unlike the others, he grabbed a package of bills containing \$5,000 as he passed the paying teller's window.

The paying teller, eaped from behind the counter and with a pistol pursued the man up Fifteenth street, shooting in the air as he went. Hundreds of government clerks out for the noon hour, pursued the fleeing bandit, and a pedestrian walking casually along heard the tumult, saw the running man coming and grabbed him. He held him until the teller and police arrived and the money was recovered, and the uninvited guest at the bank's opening was sent to police headquarters.

FIVE ARE INDICTED IN THEATER HORROR

Washington, April 3.—Five of the nine men held by the coroner's jury as responsible for the collapse January 28 of the Knickerbocker theater with the loss of 98 lives, were indicted today by the grand jury on a charge of manslaughter. The other four men were exonerated, the grand jurors determining their connection with the construction of the building not sufficient to make them criminally liable. Those indicted are: Reginald W. Geare, architect of the theater; John Howard Ford, of the Union Iron works, who revised the original plans for the steel roof structure; Donald Wallace, general foreman for Frank L. Wagner, contractor for construction of the theater; Richard G. Fletcher, foreman for the Hammett Fle-

Proofing company, which had the subcontract for cement and mason work, and Julian R. Downman, assistant building inspector during the period of the theater's construction.

MULTIPLE BIGAMIST GETS STIFF SENTENCE

Indianapolis, Ind., April 3.—Isaiah Moore, self-confessed spouse of thirteen wives, was sentenced to serve from two to fourteen years in the state reformatory today on a charge of embezzlement and was fined \$1,000 and costs, and disfranchised for five years.

Moore, who is said to have confessed to having at least thirteen wives, also was sentenced to serve from two to five years in the state prison on a charge of bigamy. Moore pleaded guilty to the bigamy charge.

Moore is said to have embezzled \$512 from Miss Harriet Evans, of Mexico, Ind., school teacher and his thirteenth wife. Miss Evans was married to Moore under the name of Melrose.

Moore, according to the police, is said to have obtained more than \$2,700 from his wives. In each case after he had been wed a week he disappeared.

Would Operate Line.

Washington, April 3.—The Atlantic and Carolina railroad asked the interstate commerce commission today for permission to operate a line of railroad running twelve miles out of Kenansville, N. C. The road was formerly operated as a logging line.

Paper Increases Price.

Chicago, April 3.—Increase from 3 to 5 cents in the price of its early edition sold on the streets here before midnight was announced last night by The Herald and Examiner. Later editions will be sold at the usual price of 3 cents.

SUPPLEMENTARY LISTS PLEASE OUR READERS

New Universities Dictionary Praised for Completeness.

The demand for The New Universities Dictionary being offered by this paper continues unabated despite the fact that great quantities have already been distributed. Letters from many readers express in highest terms the general satisfaction which this remarkable book has given.

The twenty-two supplementary dictionaries giving the definition of words properly used in connection with commerce and law, war, golf, aviation, baseball and other forms of sports are esteemed with particular favor by individuals whose interests center on one or the other of these specialized activities.

HIGHWAY AID BILL REPORTED MONDAY

Constitution Bureau, Raleigh Hotel.
Washington, April 3.—(By Constitution Leased Wire.)—Federal aid for construction of highways in Georgia during 1923 and 1924 will not be materially lessened under a bill reported to the house today by the committee on roads.

The bill as reported provides a two-year program of sixty-five million and seventy-five million, respectively, for the years named. Under the present appropriation, a fund of seventy-five million dollars is provided for federal aid in the improvement of the country's highways.

Judge W. W. Larsen, of Georgia, who is a member of the house committee, stated that an attempt was made to have the bill provide a larger sum, inasmuch as widespread protest has been received against a reduction in the fiscal program on the grounds that such a decrease would interfere with various state plans for raising corresponding amounts for construction purposes, as is required in the legislation.

In Georgia, it is said, members of the highway commission have made arrangements for using the state's full quota on the present appropriation, with a campaign on to increase the amount to a point whereby the state would be able to obtain total allotments under a one hundred and fifty million government sum. In this respect, the state will be deprived of further federal aid.

Judge Larsen stated that only through the support of insurgent republican members of the committee were the democrats able to put over a program of the sums named.

The administration, he stated, favored a reduction of the present legislation to fifty and sixty-five million dollars, respectively, for the years mentioned, while democratic members advocated a continuance of the present fund for the coming year, with an increase for the following. The bill as reported passed the committee by a vote of ten to nine.

Clubs in Atlanta Will Aid in "City Beautiful" Drive

Don't be surprised this week if you see a number of Atlanta's representative young business men attired in overalls with their sleeves rolled back, sweeping up the streets at Five Points and painting the rusty flagpole, midway of which is the traffic tower at that place.

At a meeting of the stunts committee of the Atlanta Clean-Up and Paint-Up campaign Monday morning plans were perfected to stimulate interest in the drive against uncleanness, and the junior chamber of commerce membership agreed to help out by appearing at Five Points with complete equipment which they will combat dirt, trash and rubbish.

Some of the stunts that will be "pulled" include:

The junior chamber of commerce has planned a parade for Tuesday, April 11, and is going to have a band lead this parade.

Their membership will carry brooms, and after marching through the principal streets of the city, will proceed to sweep the streets at Five Points clean. The Kiwanis club will paint the Whitehall street viaduct, following their Tuesday week meeting, April 11.

The Master Painters' association is going to repaint the historical locomotive, "The Texas," at Grant Park. The Atlanta Builders' exchange and the Master Builders' association will restore Fort Walker, also at Grant Park, and at their Monday luncheon the president, W. D. Hoffman, will appoint a committee composed of Mr. Charles W. Bernhardt and Mr. George A. Clayton, both general contractors of the city, to inspect Fort Walker and obtain consent of the park board and report at the next meeting, Monday, April 10, a general plan of restoration.

Both members of this committee reside in the Grant Park section and are specially interested in this project.

They contemplate also to erect on this site a suitable marker explaining the history of this fort.

The Lions, Rotary, Civitan and other civic and commercial organizations, will be assigned some special stunts for this week.

Mr. Bernhardt is going to consult a steepjack with reference to painting the flagpole at Five Points.

Pecan Experiment Money Increased Over House Bill

Constitution Bureau, Raleigh Hotel.
Washington, April 3.—(By Constitution Leased Wire.)—An increase in appropriation over the house bill, is carried in the agricultural appropriation bill, recommended by the senate committee today to care for the development of pecan nut culture at an experiment station in line with the proposal of Senator Harris, of Georgia, who is a member of the senate committee handling the legislation.

The house provided \$20,000 for investigation of several kinds of nuts, and the senate committee adds \$5,000 of which about \$12,000 will be used by the bureau of plant industry for the pecan investigation. Senator Harris will urge that the experimental work be made in Georgia.

An increase from \$10,000 to \$20,000 is recommended in the bill for the investigation and development of methods of the manufacture of table sirup and of methods for the manufacture of sweet sirups by the utilization of the new agricultural sources.

Senator Harris, who supports special reference to lessening the difficulties of fermentation. The bureau will also continue to work on the experiment of making sirup and sugar with special reference to lessening the difficulties of fermentation. The bureau will also continue to work on the experiment of making sirup and sugar with special reference to lessening the difficulties of fermentation.

The funds for fighting the peach pests are continued, and appropriations made for further tobacco experiments. The committee declined to recommend further appropriations for purchase of forest lands under the Weeks law, although Senator Harris and Senator Overman urged a continuance. Funds to fight hog cholera are provided in the bill.

An increase of \$10,000 is recommended in the bureau of soils in making soil surveys.

The committee recommends an increase of \$47,000 in funds for the bureau of estimates to help in the gathering of statistics on the various crops, including cotton. Senator Harris said that the bureau had been handicapped by shortage of funds which hurt the estimates. Live stock is added to the estimates to be made. The bill is expected to be called up for consideration in the senate within a short time.

JURY TO PROBE SLAYING OF JACKSON

Moultrie, Ga., April 3.—(Special.)—The grand jury serving at the April term of the Colquitt superior court, which convened Monday with Judge W. E. Thomas, of Valdosta, presiding, has issued subpoenas to a large number of witnesses in connection with the investigation of the slaying of Will Jackson, a former soldier, at a country dance eighteen miles west of Moultrie several weeks ago, which it is expected to start Tuesday. Foster Abernathy, also a former soldier, is in the Colquitt county jail in connection with the killing of Jackson.

Gump Prize-Winners Find Gifts Useful

Winners of second and third Gump prizes. At top, Robert N. Reeves, with his bird cage. At right, Miss Anna Couper, with her mouse trap.

Robert N. Reeves, 302 Flatiron building, winner of the second prize in the great Gump contest, declared Monday that the golden bird cage, the token of the pugnacity of his pen, is proving such an irresistible attraction to the birds of Atlanta that he will, by the end of the week, stage a bird battle royal, with only eagles barred, to decide which bird is to occupy the cage as permanent quarters, while Miss Anna Couper, winner of the silver-plated mousetrap asserts that she will begin on Tuesday to charge all rats near who occupy her trap.

"When I hung the cage out first," said Mr. Reeves, "it was stormed by a flock of blackbirds. They fought so fiercely to enter it that I can live on blackbird pie for a week. Next

fall I am going to take it out to the partridge country."

Miss Couper declares that she has not baited her trap yet, but that the

Foot Outlines 1922 Activities Plan of Chamber

The program of major activities for the Atlanta Chamber of Commerce for 1922 was outlined by W. O. Foote, president of the board of directors, at a recent meeting of the board. The program as set out by Mr. Foote contains events and activities, the success of which, he declared, will do much toward making 1922 a prosperous year.

Among the activities listed on the program are several which will be far-reaching in their effects on the city and the state. Prominent among these is Clean-up month, in which Atlantans will renovate their homes, remove unsightly refuse heaps and bring about other sorely needed changes in the living conditions of the city.

Grand opera week will be sponsored by the members of the chamber. This event, which brings a galaxy of stars drawn from the world's best singers, will do much to further the city's reputation as a musical center.

The Over-Your-Home movement also will receive the support of the chamber. Through the interest aroused in this campaign, it is believed that thousands of Atlantans will be induced to erect dwelling houses.

Hospitality week, from May 29 to June 3, will be big business week. It has already received the support of city, county and state officials.

The program also contains plans for entertaining the members of the legislature when they assemble here in the summer months. The legislators will be given a royal welcome by civic organizations, local clubs and the chamber of commerce, while the ladies of the chamber of commerce will entertain the wives of the legislators.

PLAN ERECTION OF SWEET POTATO CURING HOUSES

Two sweet potato curing houses with a capacity of 10,000 bushels will be constructed immediately according to an announcement made Monday by Harry L. Brown, county demonstration agent.

One of the houses will be located at Sandy Springs and the other on the Jonesboro road at Orchard Knob and will be so constructed that it can be enlarged.

At Orchard Knob the farmers have organized and elected L. H. Mann, president; C. F. Moody, vice president, and Paul S. Etheridge, secretary and treasurer.

"JERRY" JONES' SKIT IS HIT OF GLEE CLUB

Athens, Ga., April 3.—(Special.)—Every cog of the University Glee club is now in motion and with the machinery running at full tilt the finished product will be presented to the public in a very short time. The individual parts are being played better at every practice and all the special features are improving steadily. Dress rehearsals are to be held the latter part of the week and then the whole show is to be presented for censorship of the faculty on Saturday before the start of the annual tour.

Among several special features this year there is a side-splitting comedy skit written and directed by "Jerry" Jones, of Atlanta. This comedian and director plays the leading role in his little skit, and is funny enough to convert a sleepy audience into a riot of laughter.

It was first announced that his act would bear the name of "Who Doo Who Did It," but this name fails to imply the real meaning of the play, so it has been changed to "Shakespeare's Tragedy, 'Omelet,'" which will be a parody on Shakespeare's tragedy.

Jones' "Knight in Koo Koo Land" of last year caused no end of amusement to all who saw the show, and his new presentation promises to overshadow all skits he has produced in the past.

SUNDAY SCHOOL MEET PROGRAM ANNOUNCED

The program committee for the State Sunday School convention, which will be held in Columbus, Ga., June 13, 14, and 15, announce the fact that a number of outstanding Sunday school specialists have been secured to speak before this annual gathering of workers of all denominations in Georgia.

The program will cover the many phases of religious education, including Sunday school administration, specialization, conferences for workers in all departments of the Sunday school, and the new field of religious education—week-day religious instruction.

Among those who have already been secured to bring to the Sunday school and church leaders of Georgia the most progressive, workable plans in modern Sunday school work, are Dr. R. A. Waite, of Chicago, associate young people's superintendent of the International Council of Religious Education; Dr. W. V. Chambers, of Philadelphia, secretary of Religious Education for the American Baptist Publication society; Dr. A. W. Squires, of Philadelphia, director of Week-day Religious Instruction for the Presbyterian board, and Mr. P. E. Green, of Chattanooga, field secretary of religious education for the Presbyterian board. Other out-of-state workers will be announced later.

About twenty-five of the outstanding Sunday school workers in Georgia will also be on the program.

Spelling Contests.

Athens, Ga., April 3.—(Special.)—Four thousand five hundred boys and girls in senior classes of the 225 accredited high schools in Georgia will spell 100 words Wednesday, prepared by Professor J. S. Stewart, chairman of the high school association.

These contests are held every spring, the purpose being to interest graduating students in improving spelling in high schools. The school making the highest per cent for the class will receive \$20 in gold. The contests are held before three judges and the papers, after being corrected and graded, are mailed to the district president.

PARKS-CHAMBERS-HARDWICK CO.

Senate Committee Okays Extending Immigration Law

Constitution Bureau, Raleigh Hotel.
Washington, April 3.—(By Constitution Leased Wire.)—The senate immigration committee this afternoon decided to report favorably to the senate a bill extending the present 3 per cent quota immigration law for two years.

This action was taken on motion of Senator Harris, of Georgia, and would make the present law effective until June 30, 1924.

The first amendment proposed by Senator Harris would have stopped all immigration for five years, but this was voted down. Another amendment offered by the Georgia senator would have forced all immigrants to come to the United States on American ships. This was defeated by the committee.

For some time Senator Harris has been urging the extension of the law for at least two years if he could not secure a total suspension for five years. He said that if the law was extended for only one year it would mean that the act would expire when congress was not in session, unless they were called in extra session after March 4, 1923.

ALLEGED LIQUOR RUNNER CAUGHT NEAR LITHONIA

Decatur, Ga., April 3.—(Special.)—After an exciting chase this afternoon, T. L. "Red" Jordan, alleged liquor runner, was caught near Lithonia by Deputy Sheriff C. S. Henderson and W. A. Rogers and placed in the De Kalb county jail. One hundred gallons of whiskey was discovered in his automobile and confiscated.

The officers had to puncture the gasoline tank of Jordan's car with pistol bullets before they could capture him.

In 1896 Barnum & Bailey announced they would exhibit throughout the country a "horseless vehicle."

SOUTHERN FREIGHT OFFICERS PROMOTED

Promotions of two freight department officers who are well known in Atlanta were announced by the Southern railway system Monday, the title of assistant freight traffic manager being given to George H. Kerr and Brooks G. Brown.

Mr. Kerr, who since the organization of the Southeastern Express company, has been its traffic manager, returns to the service of the Southern railway system to take general jurisdiction over the Atlanta general freight office and to be in charge of solicitation and rate matters in Georgia and Florida and parts of South Carolina and Alabama. His appointment restores to Atlanta an important traffic office which it has not had since before the period of federal control.

Mr. Brown, who has been in Washington as assistant general freight agent, will remain there and in his new position will have general charge of rate matters in what is known as the Carolina territory.

Mr. Kerr entered the service of the Southern in 1907 as traveling freight agent at Pittsburg. He came to Atlanta as commercial agent in 1915 and was promoted to assistant general freight agent in January, 1917, and remained in that position until he was appointed traffic manager for the Southeastern Express company on March 15, 1921.

Mr. Brown is an Atlanta boy who entered the service of the Southern in December, 1899, as stenographer in the office of the division freight agent at Atlanta. He served in various capacities in Atlanta, Washington and at other points, was made chief clerk in the Atlanta general freight office on June 1, 1911, and promoted to assistant general freight agent September 1, 1912. He was transferred to Washington in January, 1917, and has been in charge of important rate matters.

In connection with the return of Mr. Kerr to the Southern railway system, the appointment of J. H. Barrett as traffic manager of the Southeastern Express company is announced by President J. B. Hockaday.

Juror Tampering Charged in Trial Of Arthur Burch

Los Angeles, Cal., April 3.—The trial of Arthur C. Burch, indicted on a charge of the murder of J. Edgar Kennedy here last August, went over today from one week pending the completion of an investigation of reports that agents of the attorneys in the case had tampered with jurors.

CITY-WIDE REVIVAL STARTS IN ROME

Rome, Ga., April 3.—(Special.)—The city-wide revival, which began Sunday morning, gives evidences of being a success, not only in the matter of attendance, but in results accomplished.

The revival takes in every church in the city, including the colored, and will continue two weeks.

The apron is worn today by the woman who is not ashamed to work, but in earlier centuries it was an article of clothing assumed by aristocracy and even by royalty.

Fair and Warmer Weather Predicted Here on Tuesday

Fair and warm weather is in store for this section all the week, according to C. F. von Herrmann, local weather forecaster, who stated Monday that indications were that no bad weather would be experienced hereabouts for the next several days.

The temperature Monday morning at 7 o'clock was 56 degrees, a typical spring morning," declared Mr. von Herrmann. "Tuesday will probably be a duplication of Monday. The next two or three days look pleasant at this distance. There is no indication of bad, rainy weather in store for Atlanta as far as I can see the remainder of the week. Of course you never can be definitely assured what may happen along the Gulf of Mexico in the way of a storm twenty-four hours ahead."

There are 2,500,000 dogs licensed in the United Kingdom.

PLANS ARE MADE TO REAPPORTION STATE DISTRICTS

Plans to reapportion Georgia congressional and state senatorial districts will be considered by a joint legislative committee at a meeting to be held in Atlanta during the latter part of April, it was announced Monday by State Senator James A. Boykin, of Lincoln, chairman. Under the new census Georgia is entitled to an additional congressman if the present numerical basis of representation is unchanged. The creation of several new counties also has made it necessary to rearrange the state senatorial districts and this question will come up for discussion at the meeting.

There are 2,500,000 dogs licensed in the United Kingdom.

STARTS TODAY

LET'S MAKE ATLANTA A SPOTLESS TOWN THE WEST LUMBER COMPANY

Is ready and willing to do its part. It can supply the very best line of Paint on the market—Paints for the Contractor—Paints that you can apply yourself—for the home, for the outhouses, for barns, roofs and fences—paints for your auto—varnishes for the home.

In Fact, All Kinds of Paints for All Kinds of Purposes

FREE! FREE!

A Gillette Safety Razor

During this campaign we will give free to every purchaser (dealer or consumer), of 12 GALLONS OF TURKEY RED BARN AND ROOF PAINT, a handsome Gillette Razor.

Turkey Red Barn and Roof Paint is a pure oxide, and is the reddest red barn and roof paint you have ever seen. It will cover more surface—and cover it better—than any barn and roof paint made.

Scotch Lacquer

A very high-grade varnish stain. Its finish is not affected in any way by hot or cold water, alcohol, ammonia or ink. It is the most desirable of all varnish stains for floors, furniture, interior woodwork, etc., where a fine imitation is desired of oak, mahogany, walnut, cherry or other colors.

Quick Auto Finish

A high-grade color varnish, ready to apply to your automobile. You can do the work yourself. It has a high gloss finish. All colors. It is a simple matter to sand down your car, apply this varnish one day—and drive your car the next day.

\$50 CASH --In Prizes--

In order to stimulate interest in the present "Clean-Up—Paint-Up" campaign, we are offering \$50.00 in cash prizes for the persons who will send in to us the GREATEST NUMBER of English words made from the phrase—

"Johnston's Paints"

No proper names will be counted. There are no strings to this offer; everybody is eligible. Prizes as follows:

First Prize . . . \$25.00

Second Prize . . . \$15.00

Third Prize . . . \$10.00

In case of ties the prizes will be equally divided.

Contest will close Monday, April 10, at midnight. All lists bearing postmark before that hour will be considered. A committee of competent disinterested judges will decide the winners. Mail your lists to—

**WEST LUMBER CO.,
240 Peters St.**

In your reply please mention The Constitution.

Johnston's Thrift Paint

THRIFT Paint is in concentrated or unreduced form, and may be quickly converted into a liquid paint, ready for immediate use by simply adding one gallon of linseed oil to one gallon of THRIFT Paint, making two gallons of paint ready for use.

It is not an exaggeration in stating that THRIFT Paint comprehends all the necessary ingredients, and when combined with pure linseed oil, makes the most economical and longest wearing paint possible to secure.

THRIFT Paint is made from the highest possible grades of raw materials procurable, combined with pure linseed oil and the necessary dryers, and when thinned or reduced with pure linseed oil, as described in our directions, will give long-wearing, satisfying results.

Johnston's U. G. Paint

Economy, based on best results, should be the governing principle in the purchase of paint. The measure or value of a paint is not what you pay for a gallon, but what that gallon will do. It costs as much to apply a poor paint as a good one, and the cost of application is much more than the cost of the material used.

A product of a particularly up-to-date character, embodying the very essence of modern thought and skill in the practical and safe combination, incorporation and grinding of the various paint materials required to make a perfect and incomparable prepared paint. Such is Johnston's U. G. (unusually good) Paint. In fact, our aim has been to handle nothing but the best. Everything but the ordinary.

Johnston's Dull Kote

The Modern Decorative Wall Paint of the Day and Time.
It looks like Kalsomine, washes like Tile.

The highly artistic decorative properties of Dull Kote Paint avoid the color fading defects of Wall Paper, Kalsomine and other water paints, retaining indefinitely the full measure of its original freshness and delicacy.

DULL KOTE is not a compromise as between Gloss Paints, Enamels or Kalsomines or water paints. No ideal of beauty or harmony need be sacrificed, in order that Dull Kote Paint may be used to produce a surface that will withstand washing to be kept clean. It is sanitary, purely by reason of its hard drying (but elastic, like rubber) non-porous film, and in the fact that it contains only pure, non-poisonous pigments and thinners.

DULL KOTE can be applied over painted surfaces, wall paper, kalsomine, frescoed walls, enamel, previously painted walls, varnish or cement.

DULL KOTE possesses all the good features of the best flat finishes, besides many other good points distinctively its own, and is by far the best flat, washable wall paint.

Woman's Work

Elaborate Plans Announced
For Verdi Opera Concert

A cast of special brilliance, a new interpretation of the book of the opera and generous excerpts for orchestra will be some of the special features arranged for the Verdi opera concert "Ernani" to be put on at the Howard theater next Tuesday morning, this event one of the weekly series being sponsored by the Atlanta Woman's club.

Mrs. T. T. Stevens has accepted the special chairmanship of this event, for which a particularly brilliant cast has been secured by Mrs. Charles Chalmers, chairman for artists. Mrs. Suzanne Bowdon, Johnson, soprano, whose singing was one of the outstanding features of the recent Caruso memorial concert, will sing the familiar "Ernani, invola mi" which prima donnas, ever since the Verdi opera was written, have used as the finest medium for the exploitation of elaborate vocalization. Enrico Leide, with the Howard orchestra, has prepared generous excerpts for the opera concert.

The first appearance in the opera concert of Mrs. Ulric Atkinson as reader of the book of the drama will

be an extra drawing card and the whole big program will be an artistic event only less important than the coming of the Metropolitan itself. Since "Ernani" is to be one of the operas in which the Metropolitan opera ballet will take part, a ballet feature is to be provided by Spiker pupils.

The opera belongs to Verdi's earliest period and is destined to be one of the most popular operas of Atlanta's gala week. An extra feature of superlative interest will be announced at the opera concert.

Today's program will be the charming "Secret of Suzanne," by Wolf-Ferrari, a thing of lightness and gaiety, with a new soprano in the title role, Miss Margaret Battle, of whom much is promised. Charles Chalmers will sing the aria "L'addio" and Earl Sherwood Jackson will read the brief book of the opera and Miss Nellie Sullivan will dance.

Since this opera has never been produced here and comparatively little can be learned of it from books, particular curiosity will center in this morning's presentation of it.

SOCIAL ITEMS

Miss Frances Powell and her guest, Miss Margaret Wilcox, of Hartford, Conn., were honor guests at the theater party given last evening at the Forsyth by Miss Lucy Davis.

Mrs. Brockover Toy is all at Wesley Memorial hospital.

Miss Ethel Niall's tea this afternoon will complement Miss Maybeth Carnes, a bride-elect. The members of her bridal party will be guests of the occasion.

Mrs. Walter Colquhoun and children, Walter, Jr., and Julia, are in Albany, where they are visiting friends.

Mrs. C. A. Tappan will be hostess on Wednesday morning to the North 8th Embroidery club.

Rev. and Mrs. Walter P. Binns announce the birth of a daughter March 23, who has been named Emma Arnold.

Miss Dorothy Manley, who has been ill with influenza and pneumonia, is improving.

Mrs. Joel Chandler Harris III, is seriously ill at St. Joseph's infirmary.

Mrs. C. G. Parker, of Canton, Ohio, who has been visiting her daughter, Mrs. V. C. Criswell, and granddaughter, Kattie, will return home some time this week.

Things for Boys
to Make.

Lathe for Clay Turning.

Materials needed: Two large and two small friction can lids; a piece of board for turning table; two blocks 2x2x2 inches; two five inch bolts with nuts and three washers to fit; a piece of broomstick for handle, with a large screw and two washers; a piece of tin; a sheet of coarse sandpaper; and a piece of clothes line or round belt.

Figure 1, machine complete, with partly turned clay ornament in position. The hand is the principal tool for turning. "A" is the turning table; "B" the hand wheel; "C" shows how the tin strips hold the can lids together. Figure 2 shows side view and pivoting of wheels. A small pulley, made of small can lids, is tied to the under side of the turning table, and the whole revolves, as does the hand wheel, on five inch bolts. The diagram shows the lathe mounted on a wooden box. Hand for turning the wheel is held by the large screw and washers. Washers are placed against all turning surfaces. "D" and "E" show specimens of work. Handles are made by hand on wires the ends of which anchor into the ornamental center.

WHAT'S WHAT
By Helen Deale

At a formal spring wedding nothing is more appropriate for the bride than the filmy gown in blossom tints with slippers and hose to match and large, flower-trimmed picture hats.

The bride-elect and her mother consult with the chosen bridesmaids regarding the color of the gowns and hats. These should be made all alike, so far as cut and trimming go, but this uniformity does not extend to the colors. The ensemble is much prettier when each bridesmaid wears a different color, although if there are

as many as six or more attendants, the colors may go two by two, as rose-pink for the first, pale blue for the second and corn color for the third pair. Mauve and other shades of violet are not used at weddings because of the long association of purple with mourning apparel.

Hebrew Association
To Give Dance.

This evening, April 4, at 8:30 o'clock, the Young Women's Hebrew association will give a dance at the Ansley roof.

There will be several novelty numbers, among which will be an elimination dance, prizes being awarded both to lady and gentleman.

The proceeds of the dance will be used for improvements to Camp Victor, which will be ready for occupancy about June 1. Everybody remembers what enjoyable times were spent at the camp last year, and with the hoped-for improvements, even a better time is in store for the girls and their friends this summer.

A new automobile accessory to be mounted on an instrument board can be used to prime the engine, clean out carbon with kerosene or control the richness of the fuel mixture.

DISCOURAGED
AND MISERABLE

Virginia Lady So Weak She
Could Hardly Get Around.
Says Cardui Helped
Relieve a Serious Condition.

Ringgold, Va.—Mrs. D. T. Barker, of a well-known Pittsylvania County family, residing on Route 2, here, says that upon reaching a critical period of her life she was "in a very serious condition."

"I was so weakened until I couldn't get around," Mrs. Barker relates. "I couldn't sleep. I was so blue and out of heart. I had no appetite."

"I would . . . try medicines, and grew weaker and weaker, more out of heart every day. I would get up and try to drag around, and feel so miserable, and creep back to bed."

"My husband bought me Cardui. I thought the first bottle helped me, and when I began the second, I knew it did. I kept it up—each day growing a little stronger, a little more like my former self, and I began to eat and sleep."

"It sure wasn't long until I was up and around like another woman. No more dragging; no more weak and blue feeling. It cured me. I used seven bottles in all."

Thousands of women have suffered as Mrs. Barker describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui, if troubled with womanly ailments.

Take Cardui, the woman's tonic. For sale by all good druggists.—(adv.)

D. A. R. Convention
Opens Sessions
In Valdosta, Ga.

BY E. L. TURNER.

Valdosta, Ga., April 3.—(Special.) General James Jackson chapter, of Valdosta, which will be host to the state convention of the Daughters of the American Revolution, convening here on Tuesday, has completed every detail of the program, including a round of brilliant entertainments in honor of the prominent women attendants.

The sessions of the convention will be held at the First Methodist church and the credentials committee of the local chapter will be at the church at 9:30 Tuesday morning for the purpose of registering early arrivals.

It is expected that a majority of the delegates will arrive on afternoon trains of Tuesday, and their individual hosts will extend cordial welcome at the railroad stations.

A brilliant reception is planned by the Rotary club, assisted by the ladies, at the Ocean Pond clubhouse on Wednesday afternoon.

The Wymondusia club will hold a reception Thursday evening at 9 o'clock at the home of the president, Mrs. A. J. Strickland. The convention will be largely attended and it will be one of the most interesting and important held since the organization of the state.

Homes Opened.

Valdosta's homes have been thrown open to the delegates and no effort will be spared to make their stay here pleasant.

Among the prominent women from other states who will attend the convention are Mrs. W. O. Spencer, state regent of North Carolina, and Mrs. Anthony Wayne Cook, of Pennsylvania, vice president general of the national society.

Mrs. S. D. Freeman has returned from a two months' visit to Charlotte, N. C., at present with her daughter, Mrs. Paul O. Turner, on North Jackson street. While in Charlotte she was the guest of her son, J. B. Freeman.

Mrs. E. Ravenel Beckwith is convalescing from a recent illness of influenza.

Mrs. Ruthford Lipscomb, Mrs. Joel Hurt, Jr., and little daughters, Virginia and Anne, leave today for Lakemont to spend two weeks of the summer home of Mrs. Lipscomb.

Mr. and Mrs. Robert Haverly have returned to Atlanta for residence and are in the North Park apartments. They formerly resided in Memphis.

Mrs. Joseph S. Reynolds is in Augusta, where she is visiting relatives.

Grant Park Chapter, O. E. S.

Grant Park chapter, No. 178, O. E. S., will hold the regular meeting at Grant Park temple on Thursday evening, April 6, at 7:30 o'clock. All members of the order are invited.

Monthly Meeting of Georgia Avenue P. T. A.

The regular monthly meeting of the Georgia Avenue P. T. A. will be held Wednesday afternoon at 8 o'clock.

Tea-Dance at Roseland Saturday.

The regular weekly tea-dance will be given Saturday afternoon at Roseland dance hall, corner Peachtree and Cain streets.

These dances have been well attended in the past by the young people and a special invitation is extended to the members of the various clubs to attend this dance.

A special musical program has been arranged by the Melody Dance players who will furnish the music.

Dancing from 4:30 to 6:30 o'clock, street.

Princess Mary
Buying Frocks
Made in Paris

Paris, April 3.—The magnificent trousseau—made in England—for the Princess Mary, has not completely satisfied the bride of Viscount Lascelles, and Paris costumiers and milliners have learned with a vast amount of satisfaction, that she intends to make it complete by the purchase of some of the daintiest creations of the Rue de La Paix affords.

Accompanied by the Viscount and Lady Patricia Ramsay, the princess spent two hours in Milleneux's Monday selecting a new lot of gowns and hats. In her "inspection tour" she wore a simple dark blue dress, a moleskin coat and a small blue hat trimmed with white flowers.

Thirty-five gowns will be delivered at the Lascelles apartments Tuesday, out of which Princess Mary will choose several. For the most part they are summer afternoon and evening dresses, with blue tones predominating. A number of lace dresses are also included.

Tea Given For Visitors.

Mrs. Fred Rogers and Mrs. Byron Patton entertained at an informal tea the guest of Mrs. C. E. Hamilton and Miss Nance Williams, another attractive visitor.

Mrs. Clarence Coppedge and Mrs. Claude Frederick assisted in entertaining, and forty guests assembled to meet the honor guests.

They were summer afternoon and evening dresses, with blue tones predominating. A number of lace dresses are also included.

Mrs. James Noonan, at the Mary Barnard tea room, in compliment to Mrs. James Noonan, of New York.

Research Club To Meet.

The members of the Research club are invited to meet with Mrs. E. L. Gifford Wednesday morning at 10:30 o'clock, at her residence, 224 Hill street.

Tech High School P. T. A.
Will Meet This Evening

The members of the Tech High Parent-Teacher club, the largest association in Atlanta, will hold an interesting meeting this evening at 8 o'clock, a cordial invitation is extended to all the members of the Tech High P. T. A.

The receiving party will include John M. Cooper, president, and Mrs. Cooper; W. O. Cheney, principal; and J. H. Smith, assistant principal, and Mrs. Smith, and the chairmen of the different committees of the club.

Special guests on this occasion will be Hon. James L. Key, members of the board of education, and Dr. N. L. Engelhardt and Dr. George D. Strayer, of the school survey committee.

W. E. McCallie, Jr., of the board of education, and W. A. Sutton, superintendent of public schools, will speak on their recent trip for the study of educational advantages for Tech High.

Refreshments will be served by Mrs. Howard C. McCutcheon and her committee, including W. T. Hanson, Mrs. J. E. Kirk, Mrs. M. T. Mills, Mrs. Carter Cook, Mrs. B. F. Bennett, Mrs. James E. Carlton.

The program will be arranged by E. C. Broach, and the members of his committee, including Ed M. Pearce, Houston White and A. D. Greenfield.

The Tech High orchestra will furnish splendid music during the evening, and there will be several solos on the program.

"Clean-Up, Paint-Up." I Will. Will You?

Side Talks[®] by Ruth Cameron

THOUGHTS ON A DRESS

I have seen a dress that I love. I can't afford to buy it. I have spent more money than I should on my spring wardrobe already. I am a reasonable human being and that ought to settle it, hadn't it?

And yet that dress obsesses me. It is a perfect dress from my point of view. It is my pet color. It is simple in line. Its simple trimming is smart, effective and artistic. It has a becoming neck instead of those difficult lines which seem contrived to show that a flapper can wear anything and get by with it and that an older woman is a fool to try to. I'd like to get at the man who invented those styles that cater to extreme youth and show the rest of us up. I know it is a man because a very young woman wouldn't be capable of designing styles, and an older woman would not be so cruel.

The Final Recommendation.

The final and highest recommendation of this dress is that it looks as if it were my dress. I am sure that in intimate friends would recognize it as mine if they saw it among a hundred others and I said one belonged to me. I keep thinking of that dress and trying to think of ways to justify myself for buying it. I keep imagining myself attending various functions with it on. I listen in fancy to the comments that various people would make on it. I try it on in imagination in a restaurant or theater slipping off my coat and standing forth in the simple perfection of it.

Do You Understand?

When I am thinking of other things—important things—that dress pops into my mind and crowds them out. I have been twice to the shop where it is to look and see if it were gone yet. When it is gone I shall have a poignant sense of loss. I hope I shall not buy it because it would not be sensible or justifiable, but I do not wholly trust myself.

And now I wonder what you are thinking of all this confusion. Are you thinking "Why on earth does she think her readers would be interested in that stuff?" or "Well, I am disappointed in her. She certainly is a silly thing to think so much about a dress."

Or are you saying "If that isn't just the way I felt about that dress, or that hat, or that coat?"

Have I Built a Few Bridges?

I wonder. I very much hope the second. The only reason I have been so very personal was that I thought it might make a bridge for me into the hearts of other women who have felt that same way and either yielded to temptation and regretted it, or stood firm—and very likely regretted as much.

Oh, yes, I did have one other reason. I am still assailed at times by the doubters who write, "I have heard that you are a man." Surely, this should speak their guns forever.

Tomorrow—Putting Up a Big Front.
(Copyright, 1922, for The Constitution.)

Basketball Team Guests at Dance.

A delightful social event of Saturday evening was the dinner-dance at the East Lake Country club given in honor of the members of the basketball team of the Atlanta Athletic club.

The club was attractively decorated. French wicker baskets and silver vases of spring flowers were used on the tables. Phil Schoeneck's orchestra furnished a delightful program of dance music.

In the basketball team party guests were laid for Mr. and Mrs. Scarpay Sullivan, Mr. and Mrs. John Westmoreland, Coach Alexander, Coach Bean, Miss Mary Malone, Miss Alma

Bean, Miss Irma Fischer, Miss Camille Coleman, Miss Margaret Hatcher, Messrs. John Oliver, Mike Donahue, Kid Clay, Tich Tichenor, A. A. Doonan, John Graves, Rufus Bass, Louis Morrison, Steve Hartney, Bob Jones, Edmund Zachary, Tom Bryan, Ed Hatcher, Frank Toups, Emory Cox, Harry Gillard, D. B. Askew, Joe Singleton and others.

Dr. and Mrs. C. S. Merriam's guests were Mr. and Mrs. H. B. Worsley. Mr. and Mrs. W. W. Mitchell and Mr. and Mrs. E. G. Beaudry were guests of Mr. and Mrs. W. V. Crowley.

Miss Laura Rose and Fred Tegner were guests of J. L. Brannan. Mr. and Mrs. Sam Watkins and Mr.

Minister Gains 10 Pounds in 15 Days through Ironized Yeast

"Fighting Parson," World War Veteran, Tells of His Amazing Restoration to Health

"I HAVE taken only one and a half packages of Ironized Yeast, yet I have gained ten pounds in 15 days."

Such is the remarkable statement of the Rev. L. W. Vandergriff, pastor of the Fairview Church, Athens, Tenn., whose experiences during the world war have caused him to be known by many as "the Fighting Parson."

"I was crippled up in the army, and have been in ill health ever since. But now, thank God, I am on the road to recovery, and feel better than I have felt in five years. I am only too pleased to give this testimony, for I think I am doing my fellow man a service if I can induce him to try Ironized Yeast."

From everywhere come equally surprising reports of the apparent "miracles" performed by IRONIZED YEAST. And all because IRONIZED YEAST embodies an exclusive scientific process—a process which enables yeast to bring its wonderful results often in half the usual time!

"Gains 9 Pounds"

"IRONIZED YEAST has been worth \$500 to me. I have gained 9 pounds and my skin has become entirely clear."—Mr. J. M. G.

"Gains 6 Pounds"

"The improvement in my skin and the fact that I have gained 6 pounds, my skin is clear, I now sleep soundly every night. It is the greatest tonic I ever heard of."—Mr. A. G. B.

"Gains 8 Pounds"

"After one box of IRONIZED YEAST I have gained 8 pounds, my skin is clear, I now sleep soundly every night. It is the greatest tonic I ever heard of."—Mr. A. G. B.

"Gains 10 Pounds"

"I think IRONIZED YEAST is a wonderful flesh-builder and fine for the complexion. I have gained 10 pounds after 1 1/2 packages."—Mrs. J. K. B.

"Gains 7 Pounds"

"Before taking IRONIZED YEAST I weighed myself. Then I weighed myself two weeks later and to my surprise I have gained 7 pounds."—Miss M. O. W.

How the Process of Ironization Makes Yeast Doubly Effective

While Science admits that yeast is of wonderful value in building flesh, clearing the skin, and increasing energy, it is found that yeast alone is not enough to bring 100 per cent results. For while yeast contains certain vital elements—lacking in diet, yet essential to health—experiments prove that some other agent is needed in order to quickly CONVERT these important yeast elements into new firm tissue, energy and health.

Everyone knows the great value of iron in changing our food into living cells. So working on this problem, our scientists finally discovered the amazing process of ironization—the scientific process which enables yeast to derive from yeast ALL of the wonderful benefits it holds for you.

The Only Yeast That Is Genuinely Ironized

This remarkable process of ironization is embodied ONLY in IRONIZED YEAST, the one scientifically correct yeast treatment. IRONIZED YEAST is superior, therefore it is widely imitated. You are cautioned against accepting cheap inferior imitations, which in most cases are merely mixtures of ordinary yeast and iron. Always insist upon the genuine IRONIZED YEAST. It is the only way you can be sure of getting the best. Get IRONIZED YEAST from your druggist today. \$1.00 a package. Satisfactory results guaranteed—or money back.

FREE! While IRONIZED YEAST is sold at all druggists on our Satisfaction Guaranteed basis, those who may try it absolutely FREE. Simply mail the coupon. It will bring you the famous Three Day Trial Treatment. The results, even from this short test, will very likely surprise you. Send for it now.

ORGANDINA TO THE FRONT; CRISP AND ARTISTIC

Somewhere in the foremost part of your thinking at this time are tub frocks. Ask especially to see those of organdina, a brand new fabric. It's a hybrid really, has the crisp texture of organdie but the weave and artistic printed effects characteristic of voile. Frocks of it are very fine.

and Mrs. W. L. Reilly formed a party.

Mr. and Mrs. T. F. Gary and Mr. and Mrs. Walter Hook were in a party together.

Others present were Misses Louise Scruggs, Miss Mildred Bawel and J. L. Decker.

S. T. Hillsman, Thompson Bussey and Henry Kuhrt dined together.

A. C. Ruple, of New Orleans, was entertained by Dr. and Mrs. C. A. Rhodes.

U. A. Alexander's guests were Miss Josephine Davis, Miss Claire Louise Scott and W. O. Cheney.

Others present were Misses Venice Mayson, Estelle Lindsey, Connel Torrence, Maud Couch, Dolly Hart, Evelyn Patterson, Margaret Foster, Isabel Hunter, Mildred Mason, Evelyn Coles, Frances Brown, Dodo White, Charlotte Hammer, Margaret Ransom, Mildred Winston, Elizabeth Wesley, Belva Mather, Helen Wall, Eleanor Matson, Helen Davidson, Mr. and Mrs. C. K. Byfield, Mr. and Mrs. C. McGowan, Mr. and Mrs. Franklin Chalmers, Mr. and Mrs. Evan McConnell, Mr. and Mrs. Harry Snelling, Mr. and Mrs. Walter Dunn, Messrs. Owen Southwell, Edgar Walthall, R. L. McLean, B. J. Martin, L. J. Tindal, Dan Thierrell, L. B. Huson, Dr. R. E. Latta, C. Gerald Blount, D. B. Osborne, Fred D. Cristine, W. J. Weems, M. S. Hall, W. M. McIntosh, W. O. Baldwin, Dick Williamson, H. A. Maier, Jr., Emil Emmertman, Captain Phil T. Fry, Allen Jones, L. M. Stanley, Phil Green, Lee Wilkie, J. Edwin Henderson, John I. Bell, Ed Lane, Barton Gause and others.

Temperance Work In Winder Schools.

Winder, Ga., April 3.—(Special).—The president of the Ninth District, W. C. T. U., Mrs. W. C. Horton, and her co-laborers in the counties are rejoicing over the extent of the temperance educational work done in the schools, in which educators, ministers, editors and most parents are lending hearty support.

Every school is to have a Temperance day and carry out a program furnished by the W. C. T. U. essays on total abstinence, prohibition, law observance and the clear habit are being written by all pupils in the fifth, sixth and seventh grades, the literature on these subjects is reaching practically every home.

On the 3d of March a W. C. T. U. speaker addressed each of the twenty-two schools in Barrow county, 53 anti-cigarette pledges were signed in the three schools where they were presented. Rev. W. H. Faust, pastor of the Baptist church of Winder, offered a \$5 prize for the best essay and \$2 for the second best.

The pupils in the Winder schools, both white and colored, have written temperance essays each session for a number of years, and in this county is the headquarters for the Loyol Temperance Legion, the children's branch of the W. C. T. U., with Mrs. Paul Roberts, of Winder, at its head. This may be the reason why Winder is such a fine town in spite of the alcoholic taint in its name. It came into existence as Jug Tavern then became Brandy now is sane and sober as Winder.

Miss Callie Orme Chosen May Queen at Seminary

Miss Callie Orme, beautiful daughter of Mr. and Mrs. A. J. Orme, who has been chosen as May queen of the festival to be held at Washington seminary. She is a member of the graduating class.

Miss Callie Orme, the popular and attractive daughter of Mr. and Mrs. A. J. Orme, has been chosen May queen for this year's festival at Washington seminary to be held Wednesday afternoon, May 3, at the school.

The occasion is an annual social event and is staged on the beautiful lawn of the queen and the court scene are picturesque and artistically planned. Miss Irene Thomas will be maid of honor and the following will be bridesmaids: Edythe Coleman, Rebecca Ashcraft, Constance Coney, Fay Kennedy and Edith Carpenter.

AT WOMAN'S WINDOW

BY W. L. GEORGE

Once upon a time all who could afford it sent their daughters to a "finishing school," after which the young lady was supposed to be complete for life. High schools and colleges seem to have killed the term, but the idea is still standing, and many women, their course done or their marriage achieved, settled down to forty years of peaceful decay. It sounds partly mad and partly vain, for the world goes spinning on, showing every day a new face. To throw aside culture when one has just acquired some seems to me the way to waste all that the school years have done.

No woman is worth while, unless she continues all through her life to increase her knowledge and her sphere of interest. The newspaper is not a luxury; it is the obvious instrument to make her familiar with public affairs, and with what is happening in Europe, in Asia—in places that will affect her if again war comes. It is her business to obtain from her local club the cultural stimulus it can give; it opens to her the fields of art, music, literature. It remakes every day the woman of the past and gives her a chance to be the woman of the future. To know more, to perceive more, there are sufficient objects for life. And it is worth saying this, continual development means continued youth; it means that the woman stays fresh, interesting to other women and to men. Faces catch men, but minds hold them; if for no better reason a woman may well want to prepare the brain that secures when dimmed eyes fail.

Ballet dancing is one of the best of professions for women, one of the few branches of stage work that is not overcrowded.

"Prices realized on Swift & Company sales of carcasses beef in Atlanta, Ga., for week ending Saturday, April 1, 1922, on shipments sold out, ranged from 10 cents to 17 cents per pound and averaged 13.79 cents per pound."—(adv.)

Beauty Unsurpassed

The wonderfully refined, pearly-white complexion rendered by the application of youth, is instantly. Highly antiseptic. Exerts a soft and soothing action. Over 75 years in use.

MOTHERS AND DAUGHTERS

Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had some internal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she recovered the medicine to others. Mothers and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others. The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value. Mothers—daughters, why not try it?"

has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and my daughter."

HOUSEHOLD SUGGESTIONS

Something to Know.

If lace is immersed in water before sewing around a centerpiece, the linen will always lie flat.

Window Screen Protection.

Paint the window screens with linseed oil. It will preserve them from rust and make them look like new.

A Different Flavor.

When making white, or cream, sauce, stone and chop a few ripe olives and add them to the dressing. It will give an unusual and delightful flavor.

To Clean Sweeper Brush.

The best way to clean the brush of the carpet sweeper is to comb through the bristles with a steel comb, such as furriers use. Then wipe the brush with a cloth saturated with kerosene. The bristles will retain their stiffness if this method is employed.

Just Jottings.

Lamp wicks will not smoke if first soaked in vinegar.

Iron rust may be removed from white goods by sour milk.

Ceylon tea is best with cream and orange pekoe with lemon.

Believe allow one hour to elapse between rising and making your bed. A wastepaper basket near the table where groceries are unpacked saves many steps.

The Children's Hour

SCOTCH DOLL

Here's our little Scotch friend from across the water. She's very cute, don't you think?

Make the body of the doll as you did for the Hawaiian one shown yesterday. For the upper part of the dress make a plain white waist. The skirt is a straight piece of plaid material, plaited. The sash is also a straight piece of the plaid material cut on the bias. It is tied over one shoulder with a knot at the lower side. The pattern for the hat is shown in the lower right-hand corner. Cut two pieces like "A." Sew the curved edges together. The longer straight edge of each piece should be one-half the head size. When the pieces are stitched together sew the smaller opening to the part "B."

Have the right sides together. Finish off the bottom of the cap with a piece of grosgrain ribbon. Make oops and ends at the side.

Your little Scotch lady should look very jaunty.

Tomorrow we will see a dollie from a very clean little country.

R. L. RIBLER.

ers' association, Atlanta clearing house and the Courier de Lion commandery, Knights Templar.

Similar to the chamber of commerce gathering, Preston S. Arkwright, head of the Georgia Railway and Power company and president of the Atlanta-Savannah Army advisory board, called a meeting of the board, to be held in his offices on the fifth floor of the Electric and Gas building at 138 Crew street, at 3 o'clock, Tuesday afternoon at 3 o'clock. Members of the lady board of governors of the Sheltering Arms society have been invited to attend this meeting.

The week of April 17-24 has been set by the advisory board for the conduct of the 1922 home service appeal. Funds derived from the appeal will go to meet the cost of providing food, shelter, clothing and other necessities of the more than 1,000 poor families of Atlanta who are on the charity lists of the army, in addition to the thousands of jobless men and women, as well as transients, who are daily taxing the capacity of the city's institutions for aid.

More than 35 men, ordinarily self-supporting, who are now out of work, are being cared for daily at the army's new \$75,000 hostelry at 271 Luckie street, recently erected without cost to the Atlanta public. The emergency home for women and children, located at 138 Crew street, is more than over-crowded, and it has been necessary to turn away some cases from these institutions because of more needy persons applying.

The army's budget for 1922, calls for \$50,000, one-half of which will be expended, without overhead charges, in behalf of the needy and destitute.

MRS. ROSE M. ASHBY
TO DELIVER LECTURE

A very interesting and instructive lecture will be given to the Eclectic club by Mrs. Rose M. Ashby Tuesday afternoon at 3 o'clock in the lecture room of the Carnegie library, the subject to be, "The Philosopher's Stone."

Representatives from ten civic, fraternal and commercial organizations of Atlanta were present at a meeting called by Lieutenant Colonel Joseph Atkinson, commanding the Salvation Army in the south, in the chamber of commerce Monday afternoon.

A Wife on Leave

Who's Who and What's Happened.

Richard Brabant, a successful young lawyer, has given a year's leave of absence to his wife, Sally, hoping that she will be changed from a butterfly to a woman by learning something of life. She meets Keith Gilbert, always labeled "Dangerous," and through him associates with New York's smart crowd of celebrities, among them:

Barbara Lane, an old-fashioned wife, but is shared by Patricia Loring, a modern flapper, who recalls the fact that Gilbert is a man who goes to the country to a house-party at Gilbert's country place, and is there when revenue officers appear to arrest Gilbert on a charge of bootlegging. He is big, and because one of his men has killed an officer during a fight, Gilbert goes into the night, taking Sally with him, and tries to kidnap her, but she is rescued by Neal Calhoun, who is trailing Gilbert. Gilbert accuses Sally of betraying him to Calhoun and vows vengeance. He is impetuous, but escapes. Sally goes with Barbara Lane and her husband, Andrew, to a house-party at the Randall's. At the country club there she meets Gilbert, who goes under an assumed name and is looking for her. Neal Calhoun rescues her when Keith Gilbert is captured. Brabant, who finds that her bank account is overdrawn, her rent overdue, and that her mother-in-law has gone to Europe and so cannot help her. She decides to go to work.

CHAPTER XLIV.
A Hidden Romance.

Sally found Lee Craig at work, though it hardly seemed possible that to stand before an easel and paint so easily as Lee did could be called work. She was wearing a smock of jade green that emphasized the beauty of her hair, and was smoking a cigarette in a jade holder that matched the smock. In herself she presented a delightful picture; Sally did not wonder that Graham Browne, who sat on the window seat, smoking, looked so appreciative.

She greeted Lee and sat down near the model stand. An amazingly pretty girl was posing. Sally wondered why such a pretty girl should work, and realized suddenly that her point of view was antiquated. She smiled at her own old-fashioned ideas. The girl was in Oriental costume, the bizarre colorings of the silks that she wore bringing out the color of her very white skin. She posed well; even Sally, knowing nothing of the difficulty of standing still for so long, realized that she was exceptional.

"I've come to talk to you about going to work," she told Lee, when the model was given a rest period, and Graham Browne departed to a neighboring shop in search of cigarettes. "I'm in a really dreadful fix—no money, and no way of getting it, at once, unless I sell the family jewels. I'm going to ship my furniture to my country place, in New Hampshire—oh, yes, I forgot to tell you that, I'm giving up the apartment—and I'm absolutely broke. Don't know where to live or what to do."

Lee Craig studied her with speculative eyes. She had never known much about Sally, save that she was married to Dick Brabant, who had mysteriously gone away and given her her freedom; she had never known just what part Keith Gilbert played in the affair, and had cared less. She belonged to the vast company of New Yorkers who had looked at all lives, even their own, rather casually; who live in the moment and give proof of it, not realizing that that attitude acknowledges a past which they wish to forget. She assumed now that Sally had fallen in love with Keith Gilbert, planned to divorce her husband because of that attachment, and when Gilbert was revealed as a scoundrel, changed her mind.

"And you want to go to work," she repeated, thoughtfully. "Well, what can you do? Ever done anything—had any experience of any kind that might be useful? I can send you to a boarding house, and perhaps help you to get work."

"I've never done anything but have a good time," Sally told her, with a rueful smile. "But I thought I might open a tea room, or be a designer, or take up interior decorating, or something like that."

It was a humiliating half hour that followed. In it Sally learned just how useless she was. She learned that the women she had pitied because they had to work—because they turned their time to account—were specialists whose she was a rank beginner. She learned that it takes an expert to keep house well, to be a stenographer, to work well at any trade. She had not been a successful wife evidently she would be a failure at anything else also.

"Oh, it's a crime to bring up a girl as your people brought you up," Lee Craig told her, vehemently. "I was educated to be useless, too. I married at 18, and at 20 I left my husband. I couldn't hold him, wasn't interesting enough. I didn't know anything. I amused him, but that was all. Even his secretary was more necessary to him than I was."

"I left him and went to work in a store where art embroideries were sold. I began to draw little designs—I'd always liked to draw, and a man who had an advertising agency, one of them, and asked me to do some art work for him, just convention designs, to use on some show cards. Oh, I was so happy when I got that bit of work to do!"

"After that I went at that kind of work seriously. I got a job with the agency, and after a while I branched out into poster work; one of the artists at the agency helped me. Then there was a competition held in the city for a poster to be used for a big civic pageant. I won it. And after that I began to do a lot of special things and began on magazine covers and—well, that's all to the story."

"But your husband?" asked Sally. "What about him?"

"I left him a note and told him how I felt about things, when I went away," she answered. "We'd been living in a western city and I left there at once. I thought probably he'd divorce me for desertion, but he didn't, as I took the train to find out some years later. You see—oh, he just didn't care, I guess. I thought that I'd get out and make something of myself, and then go back to him. But I've put it off and put it off."

but she told herself that she'd be game, whether Dick Brabant ever knew it or not!

Tomorrow—Fresh Humiliation.
(Copyright, 1922, for The Constitution.)

Triangular Debate At Agnes Scott.

The triangular debate with Sophie Newcomb and Randolph Macon colleges, the spring event to which Agnes Scott has long been looking forward to and preparing for, is to be held on Friday night, April 7. The subject for the debate is "Resolved, That the Employers' Associations Are for the Best Interests of Employer and Employee," with the understanding that the subject is to be restricted to the United States.

The two debating teams which have been chosen at Agnes Scott are Miss Nell Buchanan and Miss Daisy Frances Smith, with Miss Sarah Till as alternate, to defend the negative side at Agnes Scott, against Randolph Macon's affirmative, while the team sent to Sophie Newcomb will consist of Miss Quenelle Harwood and Miss Ruth Hall, upholding the affirmative, with Miss Camie Burgess as alternate.

Sophie Newcomb will uphold the affirmative side at Randolph Macon. The outcome of the debate is looked forward to with much interest by the entire student body.

St. Joseph's Alumnae Will Have Meeting.

All members of St. Joseph's Alumnae association are urged to be present at the regular monthly meeting Wednesday evening April 5, at 8 o'clock. Business of great importance is to be discussed.

BEADS REIGN SUPREME; THE KIND MATTERS NOT

Beads; hundreds, thousands, millions of them it seems, have chosen for their spring abode the smart crepe frocks that are so fashionable. Steel beads shine in greatest number but there is no dearth of iridescents.

The Constitution Patterns

A DISTINCTIVE FROCK FOR AFTERNOON WEAR.

3504-3513. The ever popular tunic is smartly developed in this garment, as is also the basque effect. It is a style that will suit, both slim and mature figures. The tunic may be in round or pointed outline. Fuchsia pearls with chenille embroidery is here shown. Beige taffeta, with piping of Paisley silk, or Canton crepe, finished with picot would be attractive.

The waist pattern 3504 is cut in six sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. The skirt 3513 is cut in six sizes: 24, 26, 28, 30, 32 and 34 inches waist measure. The width at the foot is 1 3/4 yard. To make the dress as illustrated, will require 6 1/8 yards of 40-inch material. Two separate patterns mailed to any address on receipt of 10 cents for each pattern in silver or stamps.

In ordering patterns write name and address plainly on a sheet of paper. Order by number and enclose in silver or stamps. Do not mail letters to The Constitution building in Atlanta, but address it as follows: Fashion Department, The Atlanta Constitution, 1188-90 Fulton Street, Brooklyn, N. Y.

The Housewife's Idea Box

A Cereal Substitute, For Variety and Economy.

To give the family, or little one, a change and something somewhat less expensive than most cereals, try this: Slice some stale bread; break it into small pieces. Set them in the oven till they are brown and crisp. This will take but a very few minutes. Run them through the food-chopper and store them away in a glass jar till wanted. When ready to serve, reheat and add a little sugar and cream. I am sure that both grown-ups and little ones will relish this new cereal. THE HOUSEWIFE.
(Copyright, 1922, for The Constitution.)

BEAUTY CHATS

Miss E. T.—Cold sores or fever blisters can be healed by applications of nitre and water. The proportions will be about twice the strength used when taking the same mixture internally to allay feverish conditions.

Constant Reader—Smooth out the line you have made by squinting and stop the habit. To do this you should massage the forehead using a cold cream, which should be followed up by smoothing the line as if it had been ironed. Cover with a small piece of court plaster which will serve the purpose of reminding you each time you squint. A few treatments of this kind should break the habit, but if you are in need of glasses and are staring because of this, you must consult your oculist.

Rose—If you send me a stamped, addressed envelope, I shall be glad to mail you the formula for the skin bleach.

Arthur—As you have given the yeast treatment a good test and the pimples are no better, you should discontinue it and consult a doctor as to the cause of your trouble.

Alma—Since you have been reckless it is likely you have done something which has caused this sudden appearance of white hairs. However, you can correct it by encouraging a healthy action of the scalp through a daily massage, when new hair will grow and these dead ones will drop out.

Worried—A small bust is much preferred to a large one and at 17 you may expect, at least, five more years in which to attain your development.

Oliver—At 19 years of age, any tendency toward forming lines in the face can be eradicated easily. Your skin is probably very dry and a daily application of a good cold cream will soften and nourish it, when these tiny lines should disappear.

Anxious—I shall be glad to mail you the formula for blackheads if you send me a stamped, addressed envelope.

Carolyn—The hair tonic formula which was published in the "Chats" will correct the tendency toward dandruff, beside building up the health of the scalp and hair.

A. S. F.—If the holes left from squeezing out blackheads are very large, they will require treatment from a dermatologist to remove them. The smaller pits will disappear as the skin improves.

Constant Reader—The eyelash tonic can be mixed at home, but it would be more convenient to have your druggist put it up for you.

Aglo—As the natural shade of your hair is auburn, henna will be the proper coloring for you to use on the part that is turning. Henna is a tonic for the hair, so it cannot injure the scalp. If you apply the hot henna paste only to the hair that needs coloring, the balance need not be affected by any change in tint from its natural shade.

Tomorrow—"Curling a Corn."

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in this column in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Piano Recital Given At Brenau Studios.

The pupils of Miss Kate Blatterman gave a piano recital at Brenau studios on Saturday afternoon, which was enjoyed by all present.

After the recital a social hour was spent and refreshments were served. Those who took part were Misses Gladys Smook, Fannie West Clett, Christine Woods, Eunice Ball, Ruth Hendrix, Grace Fincher, Kathleen Talley, Laurie Lindeum, Beatrice Babb, Clarissa Glass, Eugenia Duval, Florence Noyes, Alice Roe Harris, Gallata Grandy, Lillian Medlock, Gloria Beecham, Esther McManus and Lanier Upham.

Fair Street P. T. A. To Have Meeting.

The Parent-Teacher Association of Fair Street school will hold the regular meeting for April Thursday afternoon at 2:30 o'clock. All members cordially invited.

Eclectic Club.

The Eclectic Study club, Mrs. Rose M. Ashby, leader, will meet this afternoon at 3 o'clock in the lecture room of the Carnegie library. The subject of the lesson lecture will be "The Philosopher's Stone; Its Three Phases." This will be an interesting and helpful meeting. All interested are invited to attend.

Hoosier Ladies To Hold Meeting.

The regular monthly meeting of the Hoosier Ladies' auxiliary will be held Wednesday afternoon, April 5, at the home of Mrs. J. D. Newbanks, No. 21 West End avenue. All Indiana ladies welcome.

Mrs. Hudson Moore Feted in Denver.

A charming photograph of Mrs. Hudson Moore, formerly of Atlanta, appeared in a recent issue of The Denver Post, of Denver, Colo. She is described as a very attractive member of society.

The same issue announces a luncheon to be given in honor of Mrs. Moore by Mrs. James Ringold, twenty-five ladies being invited.

Mrs. Moore is a daughter of Mr. and Mrs. Charles A. Davis, of Atlanta, and her sisters are Mrs. Prince Webster and Mrs. Benjamin M. Bailey. She was a beloved and popular woman in the social life of Atlanta. Mr. Moore was a prominent lawyer of this city before going to Denver for residence.

Clean-Up Week Made Easy With Helpful Things Like These

Many are specially priced for these special "Clean-up" days.

"Kleanwell" Carpet Sweepers are offered at \$1.49

Quite an unheard-of price, of course, but it is a good practical sweeper. We took pains to be assured of that before offering it. Built of metal, very simple, yet efficient. Comes with the usual long handle.

The Old English Waxer-Polisher

A special introductory offer of the famous "Old English" weighted waxer and polisher—offering the waxer as illustrated, a can of wax, and a can of liquid brightener, all at the price of \$3.50

Other Cleaning Helps

Galvanized Scrub Pails 25c
Household Brooms 69c to \$1.35
Hearth Brooms 25c
Hair Floor Brushes \$1.50—\$2.25
Soft Fiber Wall Brushes \$1.75—\$2.00
Floor Mops 40c—50c—75c—\$1.00

"Wear-Ever" ALUMINUM PUDDING PAN

Two-Quart Size (Regular price \$1.10) for only **49c**

From April 3rd to April 15th

Cover to fit pan. Specially priced. 19c

Household Wares—Basement

"Dustless" Dusters, cloths, and mops in complete assortment—

15c to \$2.35

Wool Dusters for household or automobile \$1.00

Small Feather Dusters—

15c and 25c

C. J. DuB. Furniture Polish 25c

C. J. DuB. Silver Polish 25c

O' Cedar Oil and Mops in full assortment—

30c to \$3.00

Brass Polish, Stove Polish, "Japalac," paints, stains and varnishes.

The Greatest of All Helps for "Clean-Up Week"

is the

ROYAL

Electric Cleaner

And not only for Clean-up Week, but for every week and for every day in the year the "Royal" is efficiently at your service.

Built of cast aluminum, the Royal is a thing of beauty to those who appreciate a perfect mechanism.

It is made to last.

The Royal is the last word in cleaning efficiency for the household.

Give us the pleasure of demonstrating the Royal to you in your own home. We will gladly do so, without any obligation on your part.

Demonstrations every day on the main aisle or third floor.

Chamberlin-Johnson-DuBose Co.

100 Oriental Rugs For "Clean-Up" Week

3x5 and Larger, Choice

Rugs which have sold up to \$55

29.75

Authentic examples of Oriental weaving. Beautiful colors, worth-while sizes and a price which you probably will never see again in a life time. These rugs are all in FIRST-CLASS CONDITION in every respect.

Oriental Rug Section—Third Floor

Chamberlin-Johnson-DuBose Co.

To the Guests of The Hotel McAlpin:

A Reduction in Rates

Am addressing this open letter to you—our guests—because by your very patronage you have made it possible for us to offer lower rates sooner than we otherwise could have done—for large patronage—of course.

To Serve You Better

—this reduction in rates was made March Nineteenth

THE announcement caused widespread approval. Organized groups of travelers and executives throughout the country have expressed their appreciation of our action and its meaning to them in helping to reduce the cost of their New York trips. The National Council of Executives has bulletined the good news to all its members. The favorable comments of the press have of course been gratifying to us.

We realize that it is not possible for all hotels to reduce their rates at this time. The location of a hotel, its size and patronage, directly affect the rates. The McAlpin with its annex, the Martinique, having more rooms than any other hotel in the world, is fortunately in a position to pass on to its guests the savings which accrue through so large a patronage.

When you are next in New York, come to the McAlpin. Its diversified service ensures comfort and convenience with economy of expenditure. You may now have rooms with bath as low as \$4.00; and without bath, at \$3.00.

—at the Martinique—the rates are now from \$3.50 for rooms with bath and \$2.50 for rooms without bath.

HOTEL McALPIN

HERALD SQUARE

The Great American Syrup

The Constitution's Noyel-a-Week

The Crimson Blotter

BY ISABEL OSTRANDER

(Copyright, 1932, for The Constitution)

Next Week, "Once to Every Man," by Larry Evans.

(Continued From Yesterday.)

Next came a visit to the stables and an interview with the coachman. "Parker, when I mentioned that Mr. Moberley thought of getting married you described the lady pretty accurately," McNulty remarked. "Where did you see her?"

"I didn't," he protested. "I never laid eyes on her, but Agnes did some way and told Henrietta and me. She was fair crazy, Agnes was, at the thought of having a mistress over her where she'd lord it for so long! I've got an idea she's keeping company herself or she would have given notice when she first found it out, she was that mad!"

"Agnes?—Keeping company?" McNulty queried.

"Well, I don't know for sure, but I've seen her once or twice lately talking to a man over the wall at the corner near the bunch of hydrangeas that you can see when it gets high." Parker shifted uneasily. "Only yesterday afternoon I saw the man walking around for her there."

"Who is this man?"

Parker shrugged. "I don't know; I never got a good close look at him." It was approaching dawn when McNulty and his friend returned to the house and old George had breakfast ready for them. Their meal was scarcely concluded when George re-entered the dining room with a sheet of newspapers, and laid them silently beside the detective's plate. McNulty sat staring at a headline on the first page which he had picked up, and slowly, grimly a smile broke over his face.

"The house of Mr. Kimberton Van Nostrand on Gramercy just burned to the ground at 8 o'clock last evening," he observed. "He couldn't have held any stag party on the embers, Pete. That night which Mr. Monte Russell framed so glibly for Charles Moberley, and in which the latter acquiesced, is knocked into a cocked hat! Charles Moberley will come through now with the truth or I'll take him downtown!"

He led the way upstairs to the room which had been indicated as that always reserved for the nephew of the murdered man. Repeated knocking upon the door failed to arouse the supposed sleeper within and at length he tried the knob, only to have the door swing promptly inward, revealing an empty room and a bed which had not been disturbed.

"Gone!" ejaculated Peter. "This is the damndest house I ever got into! Put a whole regiment of police on guard around it and people walk in and out just as they please, with no one the wiser!"

An exhaustive search of the other rooms failed to disclose the missing young man. Then the sound of a high-powered motor came from the drive, and McNulty hurried downstairs with the reporter at his heels in time to behold George ushering in an imposing looking man of approximately fifty. George announced: "This is a sergeant from police headquarters, Mr. Bankhead. I—I do not know, sir, whether you have been told—"

"Nothing, George, but I bought a copy of the Dispatch just now. I am impressively shocked!—You are in official charge here, sergeant? I came as soon as Mr. Charles Moberley's wife reached me."

CHAPTER V.

A Million in Cash.

The detective took the lawyer to the library and gave him all the information he saw fit to reveal, concluding with: "I must refer you to my superior, Captain Hardy, for further details of the affair. But there are one or two questions which I have to ask you."

"I cannot divulge the contents of my late client's will," Bankhead was beginning when the detective halted him.

"I do not refer to that. Will you give me the name and address, please, of Seward Moberley's fiancée?"

The quietly uttered request had all the effect of a bombshell.

"I cannot believe it!" Bankhead exclaimed. "I will pardon me, sergeant, but I was in Mr. Moberley's absolute confidence and he never intimated to me that he thought of taking such a step!"

"Nevertheless, I have evidence in my possession—in Mr. Moberley's own handwriting, in fact—that he was deeply in love, or at least infatuated, with a lady whose first name is 'Flora,' and reluctantly but at her expressed desire he had made arrangements, as long ago as the twenty-third of September, for a quiet marriage."

"You astound me!" Bankhead brought his clenched fist down upon the arm of his chair. "I know of no such person! It is incredible!"

He caught himself up suddenly and sat for a long minute buried in thought. At length he raised his head and looked straight into the younger man's eyes.

"I have never violated what I considered a professional confidence, but in this case no secrecy was imposed upon me." He weighed each word carefully. "On the first day of last September Mr. Moberley held a conference with me in which he requested me to unload through various brokers with whom he had no connection certain stocks during the following fortnight aggregating in value half a million dollars. At the same time he put into my hands negotiable securities and bonds for an equal amount, the whole to be converted into cash gradually during that period—cash, sergeant!—and conveyed in bank notes of one thousand dollars denomination to one of his safe deposit vaults. Mr. Moberley frequently engineered deals through what are known as 'dummies,' and when they were consummated he would come and tell me that he was the moving spirit. I supposed this to

be an enterprise of a like nature, but on a larger scale, and I have wondered, of late, I must confess, why the result has not manifested itself on the market. I felt that it was necessary to tell you this in view of your astonishing disclosure concerning Mr. Moberley's matrimonial plans. I greatly fear—"

But what it was that the attorney apprehended remained unsaid, for at that moment a taxi careened madly up the drive, and gazing out of the window which commanded a view of the grand steps, McNulty observed Montgomery Russell alighting, as debonair in manner as on the previous night, followed by the visibly discomfited Tully. Montie linked his arm in friendly fashion in that of the detective who had been set to trail him, and marching up the steps, rang the bell. With a hastily murmured excuse, McNulty left the library and was at George's heels when the latter opened the door.

"Oh, there you are, sergeant! Good morning!" The irrepressible Montie beamed upon him. "I've brought your man back to you, you see; quite enjoyed his society and we've grown to be really pals, haven't we, Tully, old chap? Where is Char—Mr. Moberley?"

"Tully, wait in the sitting room at the rear of the house until I send for him," McNulty directed, then turning to Montie, he remarked significantly: "I am glad you have returned, Mr. Russell. I would like to ask you a few further questions concerning the stag party at the home of your brother-in-law, Mr. Kimberton Van Nostrand, last evening."

Montie grinned cheerfully, no whit abashed.

"I was out of luck, wasn't I, when I picked on Kim?" he acknowledged. "I might have known that he would go and let that beastly house of his burn down on the one night when it could be of the slightest use to me."

"Russell, this is no time for flippancy, as you will very soon learn!" the detective said sternly. "Where were you and Charles Moberley last evening?"

The young man's face sobered instantly and his jaw set. "I cannot tell you where we were until I have had an opportunity to speak to Mr. Moberley."

"He disappeared during the early hours of the morning," McNulty replied. "You can understand now, Russell, in what an equivocal position your falsehood and present evasion places him."

Montie Russell shook his head. "I cannot help that," he retorted doggedly. "We will return shortly; I am positive of that."

"If you will go into the drawing room, Mr. Russell," McNulty gestured formally toward the door of that apartment. "When Mr. Moberley returns he will be informed that you are awaiting him."

When Mr. Bankhead had taken his departure McNulty proceeded to the servants' sitting room, where he found Tully waiting.

"That fellow was the slickest proposition I ever tackled, sergeant," he began defensively. "He led me a dance all over town without stopping anywhere or appearing to notice me, taxis and busses and night hawk cabs! He didn't speak to anybody, but just kept on riding till 1 o'clock in the morning when he got out of a uptown Fifth Avenue bus at Sixty-fourth street. He had been inside and I on top, but when I saw him stop and wait for me, I realized that he just been making a fool of me the night long!"

"Let's go home, old chap!" he says to me as though we'd been bosom friends out on a lark together. "I can put you up and you'll be a lot more comfortable than hanging around outside—And I'll be hanged, sergeant, if he didn't lead me straight to a swell house, let us both in with a latch key and take me up to his own room where he offered me the couch to sleep on! Mr. Russell had the butler serve me a fine breakfast, too, and after he had taken a cold shower, he called a taxi and we came straight up here. There was only one thing that had me guessing."

"That was it?" McNulty prompted.

"Something he said to the butler at the front door when we left to come up here—By the way, Robert," he says, "Doctor Hills to chloroform the red dog; it's too late to save him. Call him up and give just that message, do you hear? Tell him I won't have a big bill for that worthless hound—That was all, sir."

McNulty pondered for a moment and then a light broke suddenly over his face.

"All right, Tully! You've hit it!" he exclaimed. "Go and get a few hours' sleep."

Making his way back to the drawing room, the detective found Montie seated in a big armchair apparently deep in a slumber and his head thrown back against the wall. He glanced into the room in which the Williams sisters were still confined.

Unlocking the door, he entered to find Henrietta sitting in a heap upon the foot of the bed and Agnes standing by the window. The latter turned swiftly at his entrance and he saw that her spirit was breaking under the strain of suspense, but she spat venomously out at him: "How dare you keep us here like this! I shall tell Mr. Charles and Mr. Bankhead, too!"

"There are other things which Mr. Bankhead may know at the same time," McNulty observed significantly, as he drew from his pocket the two fragments of letters and held them before her eyes. "You took these from the waste basket and fireplace in Mr. Seward Moberley's room, you spied upon him in this room last night and you know where I found these pieces of paper." McNulty suddenly raised his voice in a menacing and lowered upon her. "Agnes Williams, what are you doing in your employer's death?"

Agnes stared and reeled back against the wall, her face buried in her hands. "None—I swear it! It's true that I took those scraps of letters and I followed him last week, but I only wanted to see what kind of a lady was going to be his wife. I never thought anybody would know."

"How did you find out that the lady lived all alone in that apartment house near Central park?" McNulty asked.

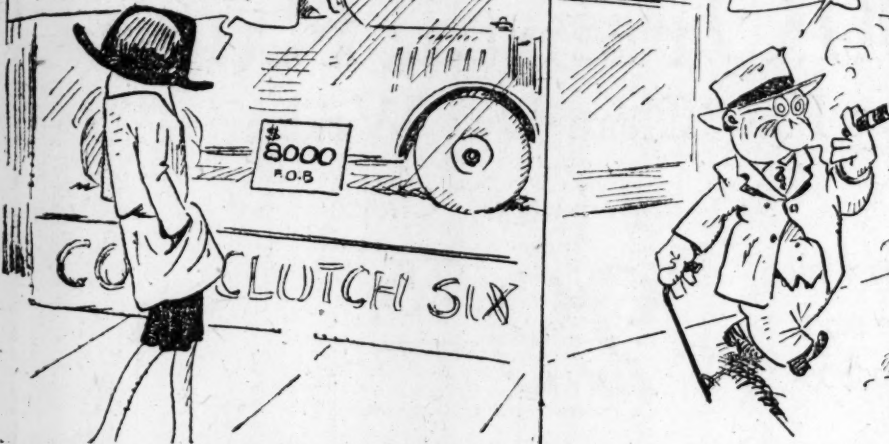

"After I'd seen Mr. Moberley so out with how I went in and asked the bell boy if that was Miss Flora Smith, and said I wanted to see her mother, I guess he thought I was crazy but

he said 'no' that it was a Miss Florence Jaffray and she lived by herself. The place was the Boylston apartment where I got the name 'Flora' from. I have told the whole truth, sir. The worst thing that could happen to me would be to

Crackers Reach the Home Station And Stage First Local Practice

Light Workout Held, as
Players Were Too Tired
From Journey for Much
Work.

The Atlanta Crackers, a bit weary from the long jaunt from Pensacola, where the series with the Louisville Colonels closed Sunday, pulled into the Terminal station shortly before noon yesterday and later held a light workout at Ponce de Leon, the first of the practices that will be held here until the season opens.

A change in the training routine was announced by Captain Roy Ellum, who supervised the proceedings at Poncey. Instead of the single daily workout held throughout the stay at Bay St. Louis, the squad will be sent through two hard practices, one to be held in the morning starting at 10 o'clock and the other to start at 2 o'clock in the afternoon.

NO EXCUSES WILL BE TENDERED.

"There are no excuses that can be offered if the club falls down," Captain Ellum declared. "And I don't think there is a chance for such a thing to happen. I never saw a team in better condition. We have a crimp or two, but there is nothing serious in the nature of their injuries. The whole team is ready to absorb a lot of this week, and there will be plenty for them to accomplish."

Nap Rucker, the former Brooklyn star, was a visitor at Ponce de Leon, and the temptation was too great. He donned a uniform after a bit and tossed the ball about with much enthusiasm. He and Erskine Mayer fought many of their old major league engagements over again, and many of the rookies gathered about to get an earful of the learned discussions Nap and Erskine were debating.

Some time was spent in batting

practice and the work of the infield was splendid in every particular. Should Captain Ellum get into good condition, Atlanta will have one of the best infields in the Southern league.

The trip from Pensacola passed without incident and there were no brass bands to meet the pastimers at the Terminal, but Atlanta fans will waste no time getting enthusiastic of the boys who will have little trouble in doing.

TWO REAL FANS.

The Cracker car was boarded at West Point by Fred Shaefer, a local fan, who was very anxious to see some first-hand dope on the situation. At LaGrange, Tom Bass, a group of country baseball addicts, climbed on and told some interesting anecdotes connected with "Buddy" Williamson's career in the Southern league.

A score of more of fans visited Ponce de Leon yesterday in order to see the team work out, and they were gently but firmly reminded that the Crackers' practices will be private affairs. Mr. John Public will not be given the opportunity to see the club in action before April 14, when something big will depend on the number of fans that have curiosity enough to let the turnstiles click.

ARE STARTING AFTER ATTENDANCE TROPHY.

Plans are already being laid to win the attendance trophy for this city. The awarding of the attendance cup was started years ago in the Southern league and Atlanta has won it so many times that it has come to be regarded as a permanent fixture.

But this city must look to its laurels this season. Twelve thousand paid admissions must be turned in before Atlanta can even be given consideration, but officials in charge of this phase of the team's activities believe that the number will go several hundred above that figure.

who is making a reputation for himself, by the name of Thompson, who came to Mercer from a school in Georgia. Those who have seen him pitch say that he is a "heart."

Sunshine Thompson left the Commodore Hotel yesterday while Tech managed to amass nine. Joe Palmason led the Tech boys in hitting with two safeties and a home run. Babe Rouse knocked a home run, and it looked mighty good to see "Baby" back at second. His return seems just the thing for Tech, who have been hard-hit by fast-fielding infield crew.

Eddie Morgan was also on the job. He made three or four nice plays, and really failed for an assist with that deadly right arm.

Thursday, Field Day.

Field day, Thursday. That is the day that all track men receive their real test. The school annually sets aside a part of one day for a big field meet in which all Tech men are invited to enter. A man breaking a Tech record will be awarded a letter.

Naturally there is a great deal of interest manifested in this meet. And also each year one or more good track men are discovered. Last season Joe Duckworth, who had not been out of the track team, entered field day and made a fine showing in the high jump. He was asked to come out for the team, which he did. And the result was that he made his letter.

Two o'clock sharp is the time and the public is invited.

Football Workouts Continue.

Coach Alex had his football squad doing some marathon work yesterday. He ran them up and down the field at a fast clip for several minutes. The work accomplished this spring is a point of pride.

The team leaders learn something of value every day. Looking over the prospects for next year, things don't seem so bad. Charlie Frye will be back to take "Dad" Nix's place at center and in reserve, there will be John McIntire. For guards there will be Dummey Lewis and McConnell, Oscar Davis is as yet undecided as to

what he will do. Tackles a plenty. Charlie Johnson, Paul Lyman and possibly Jesse Fincher and McCree are prospects. At All State on the line to play football, he may be able to care for a tackle position.

McDonough and Hunt at quarterback, Barron and Brewster at halfback, Godwin, McWhorter, Davis, Walsh and Wheelock at fullback. Not such a bad outlook after all.

FLA. STATE LEAGUE OPENED YESTERDAY

Orlando, Fla., April 3.—The Florida State league, first organized baseball circuit to play the lid off this season, got under way today with Daytona scheduled to play at Jacksonville.

Tampa at Lakeland, and Orlando at St. Petersburg. A split season is provided for with a schedule of 60 games for each half, and with the last half closing August 19.

(ATLANTA)

MISS STIRLING IS PRACTICING

New York, April 3.—Miss Alex Stirling, the Atlanta girl who held the national women's golf championship for five years and lost to Miss Marian Hollins at Deal, N. J., last fall, has devised a means of repairing her game while adhering closely to her job of selling a very refined line of securities for a New York investment firm.

Miss Stirling occasionally takes a few minutes away from her desk in a big building on Fifth avenue and appears on the roof, where a net has been rigged to permit her to practice her shots, eleven stories above the street.

"I find that this practice is almost as effective as outdoor golf," she said. "We use the same clubs, and of course I shall begin outdoor practice as soon as the weather will permit."

Brooklyn baseball fans are hearing happy tidings concerning Andy High, the infielder acquired from Memphis, champions of the Southern league, who was transferred to shortstop in recent games and did exceedingly well. High's boosters with the club predict that before the season is over he will succeed in benching one of the regulars and take his place at either third base or the shortstop position. He is a hitter, also, having made ten hits in his last sixteen trips.

Everett Scott, the Yanks' shortstop, holder of the record for consecutive games played, at last seems to be in danger of breaking his run. Scott's championship of the Southern league was ended by his being benched again at Fort Worth and benched himself again at Dallas on Sunday.

These losses do not figure in his record, but his arm was in such shape that he was unable to start the league season, he may be forced to lay off for a few regular games until the weather warms up.

Babe Herman, Jack Dempsey's little brother, of Brooklyn, a flashy featherweight of local fame, will scrap here next Saturday night to see which one of them is the better fighter. Herman, who has been fighting since he was a boy, has a featherweight title across Europe. Kilbane sent a facious wireless from the Aquitania recently promising to fight the one who would lick the other and the lads believed him. The victor will probably attach himself to Jack Dempsey's party for rations when Jack sails.

Luis Firpo, the South American heavyweight, gets another test of a mild sort when he battles the boxer Joe McCain in Newark, N. J., Tuesday night, twelve rounds, no decision. Firpo is handled by James De Forest, who conditioned Dempsey for the Wilard and Fulton fights. As a training stunt Luis plays hop-scotch with his highly trained stable of Mexican jumping beans, imported at great expense to cultivate the big boy's agility.

Jack Dempsey, now nearing New York to embark for England, will box an exhibition with "Bomby" Wells, the human pugilist, in London, according to his valet, Jack Kearns. Thumbing diary recently, the bombardier discovered that Dempsey was never married and he was jolly well miffed by this snub and a meeting has been arranged.

The opening of the Bowie race track at Baltimore Saturday was attended Monday. They drew a record crowd of 10,000 people, it was announced. The record by wagering close to \$600,000 on the mutual machines.

Charles H. Ebbets, owner of the Brooklyn Dodgers, recent advocate of the boycott as a means of punishing the double A league for refusing to agree to the draft, has changed his mind now. Ebbets says he is not in favor of a reprisal measure which would prevent the double A's from buying players from the majors or obtaining youngsters for seasoning. Ebbets will carry a maximum number of players all season in the hope of developing some new stars.

(ATLANTA)

Fullerton Dives Into National League Pitchers

Giants' Pitching Staff Weak—Pittsburgh Takes the Lead, With St. Louis a Close Second.

BY HUGH FULLERTON.

Here is the wildest mess of dope I have run across in the study of ball players in many years. One's preconceived notions of the strength of the National league pitching staffs get a jolt when the figures are analyzed and reduced to their final meaning.

Pittsburgh assumes the lead, but the difference in strength between the first four clubs is so slight that the sudden return to form of one player who has shown signs of going back, or the unexpected development of some youngster, would change the entire thing.

Brooklyn figures best, yet on pitching strength St. Louis, a team which has fallen into the habit of regarding as a weak sister in the pitching department, leads in defensive strength, and the Pirates hold the slight advantage here because their pitching staff possesses a bit more attacking power. Then there are the Cincinnati Reds, ranking down next to Brooklyn, and the Chicago Cubs, who are in a good deal of good work out of men who rate as usual, extremely low, and any team with pitchers who can help out at bat or on the bases, such as Kuebler or Sherry Smith, has a larger bag than its actual figures indicate, as they prevent breaking up of batting rallies.

The strength of Brooklyn is great. There was a time during the analysis of the figures that it seemed as if the Dodger twirling staff would lead them. Their hitting power, which seemed to be coming back, was a factor studied, although Mitchell, Grimes and Sherry Smith all can help out.

There is some hope that Brooklyn may show improvement before the season starts, by altering the batting order to get the proper hitting values, and there is a strong chance that the pitching staff will come up to the top strength of the stars. The handicapper of bad catching still works against the Dodgers' pitching staff.

Brooklyn, then, comes to consider weak and almost hopeless in pitching, figures ahead of the Giants. Mitchell has managed to get remarkable results from a bunch of pitchers who were not considered much. In fact, with a crowd of castoffs, Mitchell had the most consistent pitching of any team in the National during more than a year's racing. He knows how to coach and direct pitchers, and how to get the best results. Besides which he is a great student of pitching, and knows better in many cases when a pitcher is good than the pitcher himself does.

The other two pitchers, Mark Humphries and "Lefty" Willis, rarely fail to deliver in the pinch. Both are freshmen and have plenty of time in which to develop. Humphries showing against the University of Georgia was excellent. Willis is not eligible to compete with colleges registered under the rules of the S. I. A. A., but will be used when the team invades Virginia. "Lefty" has shown real ability.

Two positions are still in doubt, short and second base. Several promising candidates have been tried. Maurer, at short, has given a good account of himself but is ineligible for work in the S. I. A. A. Littlefield has also handled this position fairly well. For the second base there are several contenders. Price, Duffie, Cox and Harty field the ball better than Harmon but the latter's work with the stick has given him a better rating.

Team Shy on Catchers.

"Big" Simpson has been doing all the receiving for the Petrels, and when the team leaves for parts north it will be necessary to carry at least one extra catcher. Bryant and Harmon are both experienced men behind the plate, but have been fitted in only at the other positions. Bryant has lately taken care of center field and Harmon at second. Floyd Hammel, former Tech High star, had the misfortune to injure his left hand and has been forced to miss several practices, which is in itself quite a handicap.

Ed David's work on the initial sack has about cinched this position for him. Partridge has shown some real ability at the hot corner and there seems little chance for anyone to disturb either of these men from their respective berths. "Kid" Sims and Ross Kemp work nicely in the outer

garden, but neither have yet hit their batting stride.

The Petrels' next game is with the Duluth boys. The Petrels meet them at Buford Saturday night in a two-game series.

The following week-end the Petrels will start their northern invasion.

CIVIC CLUBS CALLED ON

A letter to all civic organizations and clubs of the city urging them to boost the national game as represented by the Atlanta Crackers and to have their memberships out for the opening baseball game this season, is being issued by R. B. Barker, secretary of the Atlanta Chamber of Commerce.

For several years the larger cities of the Southern association loop have been determined to beat Atlanta in opening-day attendance and lift the cup that has practically become the property of the city in this way. This year Birmingham appears to be a real contender. They are after the cup tooth and nail, and this action on Mr. Barker's part in asking the co-operation of the different civic organizations is the first step toward returning Atlanta in the lead in opening-day attendance figures.

PREP TEAMS IN ACTION TODAY

Atlanta prep teams will see action this afternoon in large quantities. The Tech High school team will meet the fast Georgia Tech Yellowjackets in the second game of the season, and University school will meet with the Oglethorpe Petrels in an exhibition game. With these two games as headliners, and several smaller battles to bring up the rear, the followers of baseball in the prep circles will have a fine opportunity of seeing some real baseball.

Fulton High has arranged a game for this afternoon although their opponents have not been announced. Both Marxist and commercial will probably be seen in games.

Salt miners can wear summer clothes in blizzard weather without fear of catching cold, for colds are unknown among these workers.

The end of the week will probably see a clash with the high-stepping Oglethorpe freshmen outfit. Any other teams in the locality desiring games should get in touch with the baseball manager at G. M. A.

There was a golfer name? Whose medal never would mount. And he thought it quite strange That his medals were such a change After he learned how to count.

G. M. A. AFTER GAMES WITH LOCAL TEAMS

The followers of the "Thin Red Line" of the G. M. A. cadets were much disappointed when their game with the fast Fulton High freshmen was broken up. Only one inning had been played, and both teams were wearying to go when the rain started and Back Flowers and his gang almost got drowned before they could take cover.

In spite of Saturday's chilly breezes the cadets played a fairly interesting game with a picked-up team from College Park. The cadets are improving slowly, but need two or three more games to apply the acid test before they can really say that they have found themselves. The acid test will probably come next week, as games are being negotiated for with the fast Fulton High outfit, and a game has already been arranged for Wednesday with the World's Fair team. Tech freshmen will meet G. M. A. again as soon as possible, this time on Grant field.

The end of the week will probably see a clash with the high-stepping Oglethorpe freshmen outfit. Any other teams in the locality desiring games should get in touch with the baseball manager at G. M. A.

COMMENT ON SPORT TOPICS

BY MIKE THOMAS.

The following piece of alleged poetry came to our little sanctum and it is a pity the author should have failed to sign his name, because a masterpiece such as this should not be allowed to go down in the files of the predictions of the early springtime unsigned as it were and is:

"Tell me not in accents cheery,
That the Crackers have a team,
For if you do it sure will force me,
To release an awful scream.

"And tell me not in accents joyful,
That the team looks good to you,
For they'll be lucky to finish seventh,
In nineteen twenty-two."

Whether the Crackers have a team or not, still remains to be seen. They made a good showing in the second game with Louisville. If Buddy Napier hadn't grooved that one for Jay Kirke—and all the rest. But even the best of pitchers grove once in a while, even in the spring.

As long as "Old Bill" Rariden was behind the bat, he made the redoubtable Jay Kirke look like a buster trying for his first birth. But "Butch" Schmidt let him hit "Buddy" Napier's second offering so far that it would take two dollars to ship the ball back to the park by parcel post.

When the team arrived yesterday morning at 11:10 from Pensacola and points south, to say that they looked to be in good condition would be putting it mildly. Fact is, they looked ready to go out and win. Their smiles were so warm that the temperature immediately jumped about four degrees and the porters raced to re-ice the water coolers.

No stranger the team didn't race for the coolers—but their smiles were so cheerful that some tooth powder or paste manufacturer missed a wonderful opportunity for an appealing advertising illustration.

Joseph Guyon, the speeding aborigine, whose footwork and batting and whose wonderful smile make him so popular with the fans, was among the first to crash the gate at the Terminal. Joe was so glad to get back to Atlanta that he could hardly keep from throwing a fit of joy. Had he known one of these he would have been accompanied by a full chorus of fans.

"Red" McLaughlin, the fighting Scot, who will meet Larry Avera in a scheduled ten-round fight tonight at Charlotte, N. C., was among the first to crash the gate at the Terminal. Joe was so glad to get back to Atlanta that he could hardly keep from throwing a fit of joy. Had he known one of these he would have been accompanied by a full chorus of fans.

How necessary is the waggle in golf playing?

The question has been discussed often and, apparently, is a long way from being settled. Most players do waggle—but some do not.

Up comes one merry jaybird who wished to eliminate the waggle, because would have so much time on Sunday days and holidays—what have the wagglers to add, acent this proposal?

The season of golf tournaments is under way. And in order to start the season off properly, the following list of prizes for "Fourth Estate" golfers are offered:

1. For the longest drive registered during the winter months—a cedar covered, brass-trimmed golf pencil.

2. For the longest chip shot holed out—use score card.

3. For the shortest putt missed—a dictionary of profane synonyms.

4. For the shortest second shot—a broken-handled shovel.

There was a golfer name? Whose medal never would mount. And he thought it quite strange That his medals were such a change After he learned how to count.

G. M. A. AFTER GAMES WITH LOCAL TEAMS

Legion Fight Card Tonight; Avera-McLaughlin Main Bout

Both Fighters in Good Shape for Bout—Both Camps Expecting K.O.'s. Prelims Start at 8:30.

BY MIKE THOMAS.

Yesterday afternoon "Red" McLaughlin tapered off in his training for his battle with Larry Avera tonight at the Hunter and Forsyth street fight parlor. Larry Avera had his last workout yesterday morning and both of these fighters are in perfect condition for their bout. It starts at 8:30 o'clock.

McLaughlin appears to be one of the slam-bang, up-an-at-em type of fighters, and he comes well within the classification of Jake Abel's cognomen of "A Fightin' Fool." He looks it every inch from the top of his red head to the soles of his well-worn fighting shoes.

Yesterday he gave the fans an exhibition of bag punching that had them wild-eyed, and on every side opinions were expressed that he was "some boy." His record spelled this information to the real fight followers, because his two-round knockout of Jim Conway and his ten-round newspaper decision over Jake Abel told the fans that he was able and willing to go.

Both McLaughlin and Avera have

PRES. HARDING GOLFS WITH CHAMPS

Washington, April 3.—Walter Hagen, holder of the western title of the Professional Golfers' association and former national champion, paired with President Harding, and Jack Hutchison, of Chicago, British open champion, playing with Edward McLean, Washington publisher, shot an 18-hole match this afternoon at the Columbia Country club. They refused to make known the score.

Exhibition Games.

At Charlotte, N. C., April 3.—R. H. E. Philadelphia Nationals 12 17 2 Charlotte Sally 3 9 3 Batteries—Wright, Sedgewick and Withers; Wright, Webber, Ellis and Kay, Davidson.

At Charleston, S. C., April 3.—R. H. E. Boston Nationals 3 8 1 Washington Nationals 0 3 5 Batteries—Oeschger, Watson and Gowdy; O'Neill; Phillips, Zachary and Gharriy.

At Little Rock, R. H. E. Brooklyn (N) 12 19 0 New York (A) 0 3 5 Batteries—Wright, Sedgewick and Deberry; Miller; O'Doul, Murray and Schang.

At Nashville, R. H. E. Toronto (Int) 7 8 0 Nashville (Sou) 1 9 4 Batteries—Taylor and Devine; Haury, Hibbit, Drennon and Morrow, Webster.

At Birmingham, April 3.—R. H. E. Louisville (A) 1 7 0 Birmingham (S) 5 9 1 Batteries—Kob and Meyer, N. Deligan, Whitely, Newton,

Hawking is a favorite pastime in Persia. Every great personage has his falconer and falconry—every "squire" his partridge-hawks and hounds.

"Cappy Ricks" Provides Atlanta With Big Treat

The dramatization of Peter B. Kyne's famous stories of deep sea finance, had its premier in Atlanta at the Forsyth theatre Monday night with the Forsyth players having their first opportunity of producing and presenting a play to complete in every detail of detail, and it sent a great big, live audience away from the theatre thoroughly convinced of the limitless possibilities of the Baldwin organization.

The story of the play embraces several of Mr. Kyne's most appealing narratives and centers about that story which has to do with "Cappy's" commercial defeat at the hands of his future son-in-law, "Captain Matt Peasley."

The play has all the refreshing salt tang of the stories, and the fun is decidedly more spontaneous. I don't know whether the audience of Monday night was a particularly good audience for actors to work to, but I do know that I have never heard lines meet with more instantaneous and ungrudging response.

"Cappy Ricks" is fairly loaded with laughs with just enough tear drops to bring out the contrast in fine colors and to give the audience a feeling of being close to being old-time melodrama.

And the Forsyth players thereby

had the opportunity to display their versatility, and didn't fail to display. Clara Joel, appearing as the future Mrs. Matt Peasley, co-conspirator against "Cappy," was cast in an entirely different role from anything she has assumed heretofore, and the audience found her indescribably charming.

The feminine contingent even approved her bobbed hair. It was a sweet, devilish, girlish, bobbed hair part and Miss Joel was tremendous at home in it. Once or twice she had opportunity to give just a touch of her emotionalism and always she struck a responsive chord. Her work throughout the play was as smoothly finished and convincing as if she had been raised in the part. Certainly during her stay in Atlanta, she has never appeared to greater personal advantage.

William Boyd, in a big, unassuming, comical, resourceful part, threw into it an unusual vigor, which varied with a wistful tenderness, which made matinee audiences quivering before the week is closed, while a S. Byron, as the irascible, fiery, spoiled, child-worshipping, masterful old "Cappy," had his audience from his very first line until the final scene.

Kathryn Givney and Robert Craig added to the fine impression they have previously made as an intensely amusing pair of unsympathetic characters while Franklyn Munnell played "Shinner" with his usual finish.

FUZZY WOODRUFF.

THEATERS MOVIES

Forsyth Theatre—All week, Forsyth players in "Cappy Ricks."

Lyric Theatre (Keith Vaudeville)—See advertising for program.

Loew's Grand (Vaudeville and Pictures)—See advertising for program.

Howard Theatre—All week, Gloria Swanson in "Her Husband's Trademark," and other screen features.

Keith Vaudeville.

(At the Lyric.)

Bryan Lee and Mary Cranston in "The Honey Moon House," offer the best brand of entertainment on a varied bill of vaudeville at the R. F. Keith Lyric theatre for the opening three days of the week.

The act is featured by some very excellent singing and dancing, and is well received. Miss Francis was a rather good singer.

Gloria and Sunshine, in "Yesterday and Today," won approval in an act that contrasted with the singing and songs of the past with those of the future.

Fred Jarvis and Freddie Harrison were entertaining in a number called "Lonesome," and George and William, in "Face the Music," failed to come up to the standard of Keith's numbers and were poorly received.

Miss Francis was a rather good singer.

Gloria and Sunshine, in "Yesterday and Today," won approval in an act that contrasted with the singing and songs of the past with those of the future.

Fred Jarvis and Freddie Harrison were entertaining in a number called "Lonesome," and George and William, in "Face the Music," failed to come up to the standard of Keith's numbers and were poorly received.

KRYPTOK

BIFOCALS

The Ballard Make

Has proven a revelation to those who need glasses—absolutely invisible while on the face, no disfiguring lines to indicate old age, no looking over your glasses or taking them off to see distance objects. Wear them a few days and forget you even use glasses. The better oculists are glad when you tell them you want Ballard to fill your glass prescription—JUST ASK THEM. There is no use going to a first-class oculist and then have your glasses made by a second-class optician. We are in position to take care of all your wants in high-class optical service.
